Just a Little Promise

Tracie Puckett

Just a Little Promise Tracie Puckett

In the beginning, all she wanted was a sense of direction. Now, she's fighting in the name of love.

Seventeen-year-old Julie Little is under constant scrutiny. Try as she might, she can't make a single move without her uncle's permission—and Charlie will stop at nothing to keep her from Luke (even if that means putting her behind bars for an hour or two). But Charlie's overbearing behavior is the least of her worries. Derek is consumed with guilt. Luke is struggling to overcome his past. And Julie is on a diehard mission to change things that are completely out of her control... even if that means betraying the man she loves.

Paige (TheBookVulture) says

Favourite one in the series. Finally got some answers.

Review to come.

Bjarke says

BY far my favourite from the series - although I haven't read the latter ones as yet. I truly enjoyed this. At first when the truth began to unravel I could help but cringe at the way it was being uncovered but in the end it was so sweet that Julie and Luke could finally accept their relationship for what it is. However there were some really low points in Julie's and Luke's life but they pulled through it in the end.

Elizabeth Barone says

I blew through this series. I enjoyed every second of it! It was fun, action packed, and romantic. I enjoyed the ending, too!

Tiffany Lundin says

Eh, it was ok. I'm sad to say that I think I'll skip the next few books in the series and just read the last one because I'm just not relating to these characters as much as I'd like. :-/ but it's a super fast and light read if that's what you want.

Hayley Nisbet says

I decided to read this book because I really like books written by Tracie Puckett in this series. This particular book is the forth book in the series.

On the bingo board this book comes under 'A book written in 2011 or 2012'. This makes it interesting because it means it was written not to long ago and is quite new. This book was written in 2012 which means it is not an old book but a modern book with the issues that arise in teenagers these days rather than back in time.

My favourite quote from this book is when Julie says at the end "For the first time in a long time, my heart is right at home". This is my favourite quote because it is the very last line and is such a happy ending to a good story.

Something new that I have learnt from this story is to give people space if they need it so they can clear their head and come back happier just like when Luke needed some space just to think.

A character in this book that I really like is Charlie because even though he didn't know the whole story between Luke and Julie and didn't want Julie to leave the house he only wanted to look out for her and keep her safe to protect her.

Petita Vera says

De las cuatro partes que voy leyendo, esta es la que más drama tiene y lo peor que es innecesario, y eso se me hizo tedioso en algunas partes, pero hay que recalcar que de los cuatro libros -que voy leyendo- esta tiene una porta sencilla que se me hace muy bonita a la vista.

Fuckhsia says

Tres estrellas porque fue muy corto
Me gusta esta serie pero son muy breves las historias
Me gusto el final Loonie y Luke se merecen sanar sus heridas
Luca es un amor *•*

Louise says

so she's not to go out with luke because he's in the police, but her uncle doesn't mind her riding in a police car? that doesn't make sense. and now Luke loves her?

Sarah says

[you can kind of understand where he was coming from though, with her parents being killed because they were in the police force. (hide spoiler)]

Just a Little Promise, I read so many great reviews for this installment that I was afraid my high expectations would be shattered. But they weren't! Yay!

Seriously, this was by far the best! The author noted this was supposed to be the last one in the series (but there's like six more haha) so expect everything to come together at the end. This one was absolutely charming! Julie and Luke are trying to spend time with each other, after in Just a Little Sincerity Luke finally just lets go, but Charlie (Julie's uncle and Luke's boss) will do anything to make sure they can't get a second together. And why Charlie is so persistent is absolutely heartbreaking. Prepare yourself for a very emotional ride with this one.

So many feels goes on in this book. With Julie trying to get Luke to just be in the same room with his father but the two men are just stubborn and this leads Julie to cause disturbance and to end up in a jail cell for a day haha. But in the end this helps Luke in finally trying to make things right again.

So much goes on in just a few pages and Luke finally yells out to the world (literally) how much he cares for Julie. And oh my god, that scene was absolutely adorable! I was grinning from ear to ear and my hopeless romantic heart was about to fly away, just like Julie thought she was.

Overall this one was absolutely (I keep saying that word haha) perfect! I could not put down this book. I didn't want it to end! I was drawn in by Julie's determination and her will to bug her uncle until he told her why he was being so strict. I was swept off my feet by Luke finally letting go of this wall he built up and letting Julie in, giving them a chance. With the charismatics of this installment I couldn't help swim along the words and forget the world around me, I just had to keep reading! With the different emotions (anger, hurt, lost, and love) pulling at my heart strings how could I put this book down?

I'm seriously dying for the second box set! The first box set, Just a Little Series (1-4) is free!

Lanie says

By this point in the series there's not much more I can honestly complain about. The characters are shit and the plot is stupid and cheesy. Painfully so. I knew to expect a terrible novella and that was exactly what I got.

My biggest complaint this time, is actually the writing. No one talks this way. Ever. This is some of the worst dialogue I've ever seen, And I've read most of the "house of night" series. That's saying something.

& if I had had to read the words "the men" one more time, I was gonna throw my iPad. Seriously. Doesn't the author know any other way to discribe men interacting?

How about they? Or the guys? Or father and son?

Seriously it's not that hard.

But after reading 4 of these "just a little" novellas & "the new girl" I'm thinking it probably is hard, at least for tracie Puckett. Sorry, not sort. In my opinion, she's Just not a very talen Writer.

Not recommended to anyone. If you want some decent chick lit type love stories, give Meg Cabot a try. I enjoyed "how to be popular" or "Sundays At tiffany's" by James Patterson. Or just about anything else.

It'd be better than this. At least I got it for free instead of paying actual money.

Fanny says

Ligero, dulce, tierno y muy entretenido, una de las cosas que mas me gustan de estas novelas es que suelen tener un final cerrado (excepto el segundo), esta en concreto tuvo un cierre muy lindo pero me quede con

ganas de leer mas sobre Julie y Luke, estas historias me saben a poco.
No se cuando podré leer el siguiente pero espero que sea pronto. La sinopsis del quinto libro me dejo muy intrigada.

2.5 Estrellas!

Leelan ♥ says

En serio amo esta saga :) me encanta que los libros sean pequeñitos y entretenidos, la verdad pense que seria el ultimo y estoy feliz que no lo sea!! mas de Julie x Luke!!! y la sinopsis del proximo libro... DRAMA Y DIVERSION ASEGURADA, JAJAJA!!!!

Amel Armeliana says

Five stars for this part, no doubt!! Finally, the kiss that I longed for to happen, it happened. And the moment when Luke said he loves Julie, it's awesome. Well, I mean coincidence or not, the whole town heard him. And how Julie made Luke finally forgave his father, that's so sweet. So obvious, they meant for each other. Can't wait to read the next part.

Cayla says

Perfect from the first to the last page. You finally get a little bit more than the other books, a little promise. Will continue til I reach the last one, and will definitely reread MANY times. Instant favorite.
