Finding Cinderella Part Two: The Chase raindrops , Kia Amazona , Midori Matsui (Illustrator)

“You’re too late.”

Kylie’s last words before slamming the door on Tristan’s face still haunt him. But despite her outright rejection and her growing closeness to Erik, Tristan can’t keep himself from falling harder for Kylie.

If only she’d stop pretending he didn’t exist... The clock is ticking with Erik still in the picture. But just like Prince Charming, Tristan is determined to do anything and everything to win Kylie back—and keep her forever.

Leah says

Read this ages ago on Wattpad when I was like 11-12. I loved this story

Joey Anne says

"Sometimes, all it takes to fall in love is the courage to believe."

Such a sweet ending to a rather rough start to the adorkable couple, Tristan and Kylie! They are just the cutest! I still can't get over them hahaha!

It has been a while since I last read a teeny-bopperish novel and I admit I missed the feeling of giddiness and young love. When every sneaky glances with your crush is the happiest thing ever and stuff like that. Haha. MAYGANONGDRAMA?! And I am so glad to say that The Chase doesn't disappoint me at all. In fact, it surpasses my expectation. The twist is well-thought I did not see that one coming. And oh! Oh my gosh, can I just say how much I loved Tristan prom proposal to Kylie!!! SOBRANG SWEET I EVEN SHED A TEAR OR TWO!!!! SERYOSO. Hahahahaha! You should read it!!!

What else can I say but, well done @raindrops_! I am now a fan! I am looking forward to reading more of your stories in the future! And maybe you could sign my copies? Lol! ?????

PS!! This comes with a playlist it is basically my Favorite-On-Loop-Go-To-Music-Of-All-Time playlist so it's safe to say that I absolutely loved and enjoyed it!! Go listen to it while reading. It's more fun that way and more kilig-inducing hahaha! :D

Kathy says

BY FAR ONE OF THE GREATEST BOOKS IVE EVER READ!!! It was a funny, sweet and super cute!!

mar says

This book (and the previous one) is so cliché. There's nothing wrong with using tropes in your writing (in fact, every book uses tropes), but when your characters are basically defined by the tropes they are based in, it's a serious problem.

Jeminus says

nice story but a little too clichè for my taste - enemies turned to lovers. also the first pop fiction books (1&2) i read with minimal to no errors. kudos to the writer and editor. :)

John Rico says

Great

shadowkissed heartrender says

It got better. I read a book like this before called *A and D* and it was horrific, so I had low expectations for this book, but... it didn't suck as much as I thought it would, which earns itself another star.

[Shai] Bibliophage says

As much as I've expected with the story because it's really predictable. I was not even shocked that Erik was a two-faced jerk and the antagonist in the story. There's no remarkable scenes for me on both Part 1 and 2 but I did enjoyed reading them. I just felt and realized that I'm too old for this kind of story. Yet, I give an applause for the author on writing this.

Joyleen Trumpeta says

dasd

Michelle says

Cliche, but like I said, I turn to these when I want a good laugh, and it does deliver.

Quite cute, as well if you're into that.

Geneva Ofalsa says

Page turner. Nagustuhan ko kung paano mag-narrate ang author.
Ito ang dahilan kung bakit wala akong tulog! Hahaha Nice work Kia :)

Jasper Junsay says

i want to read it

Lennie Tejada says

A fabulous ending to part one though I bought and read part two first.

Girrl says

Beautiful

Joebalaba says

i like this story
