Deadly Trilogy bundle includes:

Deadly Crush

Deadly Mates

Deadly Pack

Book 1 – Deadly Crush

Dog Mountain is just like any other small town — peaceful and uneventful. Well, that is if peaceful means wolves howling all night, and uneventful means it's overrun by pesky werewolves, then yes, Dog Mountain is just your average small town.

Jade Shaw has spent the last two years avoiding the pack. But when Aidan Collins moves to town, avoiding the dogs doesn't seem possible. The pack wants him just as much as she does.

Determined to keep him out of the pack's grasp, Jade does everything she can to gain his attention. Little does she know, Aidan is in deeper with the pack than she could have imagined, and competing for his attention is a deadly game, one she may not want to win.

Book 2 – Deadly Mates

Jade never thought she'd embrace being a werewolf, but after having accepted her new role as alpha female of Dog Mountain's pack, she finds herself doing just that. She's training with the enforcers and learning to use the alpha within her to her advantage. And for the most part, Jade is content, well at least with her training she is.

But Dog Mountain is a small town with big problems. The new alpha pair is divided, splitting the already unstable pack with them, and to make matters worse, Jade's father is on his way home. Except Jade's father and his twisted pack of werecougars aren't the only threat.

When Aidan brings in a new set of enforcers to weed out the problems within the pack, Jade is forced to delve into the center of the issue. She soon realizes that she is the indirect cause of the uneasiness within the pack, and if Jade doesn't fix it, she'll lose everything, even Aidan.

Book 3 – Deadly Pack

Since becoming the alpha female of the Dog Mountain pack, Jade certainly has had her share of challenges. She's had to prove herself to a bunch of werewolves that she spent years hating; forgive her mate who'd done nothing but lie to her, and face the grueling fact that her father leads a pack of werecougars, who are responsible for tormenting her werewolves for many years.

On the upside, the Dog Mountain pack is finally coming together—now that Jade and Aidan's mate status is official. And now that they know where her father's been hiding his nasty pack of beasts, Jade and Aidan can concentrate on stopping them once and for all.

But when Jade's dad finds out that she's become Aidan's official mate, all hell breaks loose, and Jade and

Aidan soon learn that his plans for their werewolves are bigger than anyone could have ever suspected.

Kathy Harrington says

I really liked this....

I read the first book like 2 years ago and when the set came out for a whopping .99 I had to have it. What a great story. It was well thought out and executed. It flowed really well and kept you engaged from page 1.

Tonya Thomas says

These books are quite the way to get lost, if you have a desire to get lost in a book, or 3, this is definitely one trilogy to get lost in. Poor Jade goes through 2 long years, of hating the local pack of Werewolves because they ended up costing her one of her 2 absolutely best friends. Ashley Stoyanoff is now another one of my favorite new authors! Definitely read these books, you can't get out of these if you like Were-anything, and a sarcastic protagonist...these are definitely for you. I received these books in return for an honest review. And I definitely loved them! Absolutely outstanding job Ms. Ashley Stoyanoff!!!!!!!!!!!!

Becki says

(I was given a free copy of this book in exchange for an honest review.)

I just finished this series and let me tell you, I **COULD NOT** put it down. Stoyanoff's Deadly Trilogy is a well-written, YA trilogy. It follows high schooler Jade Shaw, as she comes to terms with the truth surrounding herself and her family.

The Deadly Crush, *The Deadly Mates* and *The Deadly Pack* are the 3 novels of the The Deadly Trilogy. All the main characters are introduced in the first book and feature throughout the series. Jade, Marcy, Dominic and oh...oh, Aidan. You find yourself rooting for Aidan even though there's so much mystery surrounding him. Jade is a strong, capable heroine. She's stubborn but has a way about her that makes you root for her while you want to punch her at the same time.

It is fast-paced and full of questions that keep you engaged. There are quite a few surprises that you aren't expecting. Every time I thought I could put the book (actually, my phone) down, something would happen to keep me glued.

The one thing I didn't like was the way books 1 and 2 ended awfully abruptly. They concluded at a very strange part of the story which made me believe that Stoyanoff wrote the story in whole and then broke it up into 3 separate novels. Luckily, since I was reading the trilogy, I was able to just start right into the next books.

Overall, a very fast and enjoyable read. I highly recommend these books and will look into Stoyanoff's other novels for more delicious reading.

Heavenly says

I just love love LOVE this series! They were my first books by Ashley and since then I just adore her writing and all the worlds she is creating.

The trilogy is telling us the story of Jade, who is living in a small town called Dog Mountain. A place where seeing a werewolf...yes a WEREWOLF is a normal occurrence. People accept them and even idolize them? But not Jade. She hates them. Hard and strong. Until she meets Aidan. Handsome, cocky and so so MINE...um...I meant so perfect for her ;) After their meeting everything changes. Her feelings towards him, towards the pack and the life, family she thought was normal turns out to be not really normal....

A trilogy that will suck you in straight away!

5 amazing heavenly stars!

Kay says

I received this trilogy from the author through The Choosy Bookworm site in exchange for a review. I really appreciate the books, and did enjoy reading them. The story takes place in the town of Dog Mountain, which is heavily populated by werewolves. In this narrative, they live openly with the human townsfolk, and tend to dominate the inhabitants. Jade is a young girl who has no use for them at all, and avoids them as much as possible.

When Aidan, a 19 year old alpha werewolf passing through town encounters the resident alpha in the town restaurant, said alpha was beating his wife and the pack and their enforcers were doing nothing to stop the beating. Aidan stepped up and saved the wife, but killed the alpha Ray in the process. This started Aidan's reign as the alpha of the pack. He soon learned that said pack was pretty dysfunctional, and his work was cut out for him if he wanted to stay and have his own pack.

The story is written in alternating chapters with Jade and Aidan narrating each.

Jade is portrayed as a very headstrong character who is able to deflect or ignore most of the *** that the wolves throw her way, but when the female wolves vie to win the new alpha, and Aidan finds himself drawn to Jade, she is bitten by a she-wolf and turns into a wolf herself. This isn't her idea of how her life should progress, and she fights the process of integration into the pack.

Add in a true shifter who wants to control the pack and already controls the local cougar pack, friends of Jade who waffle about whether to accept that she is an alpha wolf, and Jade herself waffling about just about everything, the story is almost overwhelming.

I felt that Jade should have been a stronger character. Aidan kept saying how strong she was, but when Jade was narrating, she seemed to keep putting herself down, and doubting herself. In the plans she made to try to save the pack she completely disregarded facts (such as the wolves' superior senses) and didn't seem able to come to logical conclusions.

The ending almost seemed a bit forced and really abrupt, and I felt that the author just wanted the book done. She did leave an opening for another book, and I would read it to see if the characters have evolved. Perhaps the point here was that they were still young and had to learn how to lead.

All in all, I did enjoy the trilogy, and if you would like a different take on werewolves, this would be worth your time.

Stacie says

Loved it

As always I hate to see a good series end! Aiden and jade make a great alpha pair. *spoiler* the dad twist just sets the book apart from the usual shifter struggles books

Heather says

Good read

A good book not great or fantastic but a fun good solid set of books I enjoyed reading no major editing errors characters r likeable and fun

Kerry Paolucci says

Deadly Crush: I really enjoyed reading this book. The alternating view points of Jade and Aidan really kept me interested. Most books don't offer two sides to the story, and Deadly Crush did. Jades transformation from beginning to end was nothing short of incredible. She is one kick butt lady! I am looking forward to the release of Deadly Mates.

Deadly Mates: Oh my goodness, this book! It was so amazing. I think I liked it even more than the first book, Deadly Crush.

First of all Aidan is a sexy beast and I love him very much. So when Jade and Aidan's relationship started heating up, I was very excited.

Throughout the book I wanted to punch Jared in the face so he would just go away and never come back. I think that since Jared is such an a hole, Aidan seemed that much better.

Ashley created such fun and dynamic characters with a plot that will keep you hooked! I can't wait to read the final book in this trilogy.

Deadly Pack: Deadly Pack is the third and final book in the Deadly Trilogy. While this wasn't my favorite book of the series, I still really loved it. Jade really grew up in this book. She understand now what it means to be alpha, with Aidan's help of course. Out of the three books Jade was my favorite in this one. The relationship between Dominic, Aidan, and Jade really developed and made me love them even more. Thankfully there is no cliff hanger at the end, and I was quite happy with the way it ended. I highly recommend this book and series to any paranormal lovers. It really grabs your attention from the get go and doesn't let go until you finish it.

Cathy Pontious says

Amazing

This series was very, very hard to put down. It's an amazing gripping story line that's totally spellbinding. Definitely one for my shelf so I can, and will read again.
Happy Reading

Ashley Dunham says

I Absolutely love Deadly Trigloy I love how Jade and Aiden have this connection with each other. I love Jade and Aiden story's I love that Jade won't take anything from anybody. I love Aiden he is sweet caring and you can tell he has feelings for jade. I am so in love with this series. There are pack problems and mate problems in Deadly Trilogy. I felt a connection between Jade and Aiden when I was reading it. I love how Ashley Stoyanoff wrote Deadly Trilogy. I love that jade is a independent and that her Aiden are together. when I was reading this series you can tell Jade and Aiden have strong feelings for each other but at first they wouldn't admit to eachother .Once I started reading this series I was hooked I couldn't but it down. I definitely recommend that everyone should read it you won't be disappointed once you start reading Deadly Trilogy. I can't wait to read more From Ashley Stoyanoff.

Hazel *Craves the Angst Reviews* says

All three books in one complete box set? YES PLEASE!!

This author has a talent for writing amazing and creative stories with the best characters, especially the heroine, who is sometimes flawed but always strong and fierce. Her alpha males are courageous and brave and you can't help but love how they can be bowed to the one woman who can steal their hearts. This series was no different. I loved every exciting moment.

The first book, DEADLY CRUSH:

Killing the Alpha male and inheriting his pack on his first night in a town he was just passing through was never nineteen year old Aidan's plan. But once the dice was rolled, he was thrilled to follow in the footsteps of his alpha father and be this packs new leader. Now all he has to do is change the unruly ways of the rogue pack, declare a winning mate out of the small group of rivaling she-wolves and not fall for the one human who's caught his attention and is totally off limits. Trouble is, the pack is resistant to change and they are challenging his every decision, the she-wolves are all conniving and treacherous and there's something different about the human, Jade, that calls to his inner wolf he just can't resist.

Everything is spinning out of control!

This book was brilliant! It was smart, fun and completely enthralling. I started it and before I knew it, I had read the whole night through. This book leaves off with a slight cliffy and I can't wait for book two to find out what happens next with these fascinating character and this enchanting story.

The second book, DEADLY MATES:

Conflicts Are Raging, Secrets Are Discovered and Angsts Are High.

There's a lot of anxiety going on with all the characters and there's a lot of pressure and distrust within the

pack. There's new players in the game on both the good and bad side, secrets are revealed, friends are quickly becoming enemies and loyalties are being tested. The rogue werecougar pack seems to be able to sneak past the wolves defenses encroaching on their territory, Jades father can't be trusted, Jared is showing his true colors, Jade's beta is doing questionable things and added on top of that, Jade is reluctant to being fully mated to Aidan which is causing Aidan to doubt her and the pack is slowly being torn apart. Things are not good with the Dog Mountain werewolf pack!

Told from dual POV's, from beginning to end, I was sucked in, reading it all in one sitting. I enjoyed the characters, the story and the intrigue. And watching the pack try and come together when they all seem to be on separate pages was angsty and fun.

The third book, DEADLY PACK:

A Fantastic Conclusion To A Fabulous Series!

The tragedy that unfolded in the last chapters of book two has left its scars and hurt with the characters and as they try to navigate around all that pain, new developments arise, new secrets are unveiled, loyalties are once again tested and with the newly put-together pack sorting through all their troubles, it's uncertain how things will turn out.

I really enjoyed this read. From the first page in the first book, this author creates a thrilling and wonderful paranormal story for us to sink our teeth into and this last installment concludes and wraps everything up nicely. I loved the characters and as their story gets trickier and more involved, we get lots of action, lots of angst and lots of fun.

Ashley Stoyanoff has a remarkable way of pulling you into her world and holding you there until the very end. She weaves a magical tale of family, romance, loss, hope and love with a paranormal edge. I loved this story and the characters and it will stay with me for a long time to come.

Jo-Anne says

Deadly Trilogy is about Jade and Aidan who live in a town where werewolves live openly. Jade doesn't like the pack or anything about it. She has a strong personality and will not back down from anything which means she is always annoying someone – usually someone from the pack. Aidan, the Alpha of the pack, is assertive, extremely good-looking, and attracted to Jade. Jade doesn't know he is the Alpha and Aidan doesn't know how much Jade hates the pack. This leads to some pretty interesting situations for them.

The character development in this series is quite in depth. I felt a connection with the characters because they were so well developed in this trilogy. I like the way Stoyanoff put her own distinctive slant to the werewolf legends.

This series is very well written making it easy to picture all the events taking place. I liked the way Jade and Aidan's inner wolf was addressed as if it was a separate being. The author brought some romance into it which I enjoyed. It didn't overpower the story but it was nice to see that there was some feelings between Aidan and Jade, not just pack business.

This was a great series that I really liked and highly recommend.
