From Reader Review Problems in Contract Law: Cases and Materials for online ebook

Marley Rydelek says

No.

Phinaeus Krook says

Way longer than it had to be. A slight majority of the notes were completely useless.

Elizabeth says

I read 515 pages for this ONE class and while I will use the SAME book next semester - 515 pages is more than I read in most of any one book - so I am counting it as a read book for 2009 - and the 6 chapters we will read next semester will be a 2010 book for that goal

. . . what did I learn from this book? that I don't like contracts but I can't live without them

Nicoleratner says

If you want to learn contract law this is a good place to start. Doesn't quite compare to East of Eden, but it's a good read.

Ke says

I was a big fan of the practice problems (even if the film industry example was a bit unrealistic). Also, I wondered if there were too many real property & construction cases, but it could be that those contracts are the most predominant in the subject.

Other than that, a real treat.

Liz says

This is the first text book I have read cover to cover...I'm not really sure how I feel about that.

Mary Gael says

Juliana says

I imagine most people read this out of obligation, but this is a surprisingly good read (as far as casebooks are concerned). Some information in the notes would have been more helpful had those notes preceded the cases to which they referred.
