No one is safe. Not when someone wants what you have.

As an heiress to the family fortune, Camille Duffy lives the perfect life. She does work that she loves and travels anywhere she pleases. Beautiful and independent, she makes her own choices – in love and life. At least that's what the tabloids say.

Tate Rodgers is an ex-Green Beret turned owner of one of the most sought after security firms in the world. He's hyper diligent and honest to a fault. If you don't want the truth, don't ask him. And don't get on the wrong side of him. He will rip your tonsils from your throat.

They've been hooking up for a couple years now. Hot sex. Good friends. But busy schedules keep the hook ups far and few between.

Then a perfect day leads to disaster which leads to a fight for their lives.

Can one man stop an army?

Or will the jungles of Columbia claim another victim?

You may want to read Badass: The Complete Series as well to better understand the history of Tate and Camille.

Someone has jungle fever!

This was a turbulent book for me. I absolutely loved the chemistry between Camille and Tate. The action and survival skills were so awesome and the main focus but dang, it was intense!! I absolutely love the ending and the focus of we can do anything as long as it is together. Highly recommend!!

Good read

Exciting series. There is story and steam. After much trial and tribulations it ends on a good note. Well worth the time spent.

Book Lover says

Tate is an ex-Green Beret who now owns his own security firm. Definite alpha male, hates lying, and is fiercely loyal.

Camille is an heiress who makes films all over the world.

Camille and Tate have had a friends with benefits relationship for years. The chemistry between these two is hot!

This story contains so much emotion and suspense. Once I started it, I couldn't put it down! Definitely a story I will read again!

You can read this book without reading the first Badass series, but it will make it more enjoyable if you do. Highly recommend both books!

Very good book. Think my favorite is still link and grace. But this was just as good. Love that they are finally getting together for good.

I received this free from Amazon and I am voluntarily writing an honest review. Camille is an American heiress that is also a photojournalist doing a shoot in Columbia when she manages to get kidnapped by an unhappy ex employee and is tortured until her father pays the ransom money. Tate is the head of Black Hawk Security and Camille's sometime when is town lover, and her rescuer until a plane crash takes them down in the middle of the Columbian rain forest.
