Conversations with God, Book 4: Awaken the Species Neale Donald Walsch

The Dialogue Evolves . . .

The whole universe, the entire cosmos in each of its dimensions, is filled with sentient beings, each imbued with the exact same desire—the desire to express and experience their True Nature and their True Identity. This involves a process of, first, moving through and knowing every aspect of being physical. Then moving through and knowing every aspect of being metaphysical. Then, integrating both. And here is the great secret that Highly Evolved Beings are focusing their energies on sharing: Full integration can occur at any moment. The process can be condensed.

An entire civilization can begin living as an awakened species whenever it wishes.

We're in trouble. But there Is help . . . If we listen.

In the middle of the night on August 2, 2016, Neale Donald Walsch found himself drawn into a new and totally unexpected dialogue with God in which he suddenly faced two questions:

Is the human race being offered help by

Highly Evolved Beings from Another Dimension?

Is there a key role that humans are being invited to play in advancing their own evolution by joining in a mutual mission to assist the planet during the critical times ahead?

He was told that the answer to both questions is yes.

Then he was given 16 specific examples of how Highly Evolved Beings respond to life differently than humans do—and how adopting even a few of those behaviors could change the course of world history for the better forever.

That information makes up the body of this work.

A striking invitation to every reader sets the stage for the extraordinary explorations that follow. Picking up where Book 3 in the Conversations with God Trilogy series left off, the revelations about Highly Evolved Beings and about how ordinary humans can answer the call to help awaken the species on Earth will breathtakingly expand your view of both your personal and your collective future.

Which is exactly what the dialogue was intended to do.

NEALE DONALD WALSCH is the author of nine books in the Conversations with God series, which have sold over ten million copies in 37 languages. He is one of the major authors in the new spirituality movement, having written 28 other books, with eight books on the New York Times bestseller's list. His life and work have helped to create and sustain a worldwide spiritual renaissance, and he travels globally to bring the uplifting message of the CwG books to people everywhere.

Leeza Robertson says

If you enjoyed the first CWG books you will enjoy this one. I listened to the audiobook but then had to buy the hardback as there was just so much information. A fascinating look at the concept of Awakening and what it means for the future of the world we live in.

Sage says

The book was excellent and insightful. The epilogue, however, was a huge disappointment. It was so full of ego -- how Neale is "in the know"

Alex says

A surprised last CwG in the best compendium I have ever read! Worth reading, as they all are. Solid 4.5 stars.

Helen White says

Probably, for me, the best of the four CWG books...though, perhaps, that's because I had read and thus deeply integrated books 1 to 3 several years ago, at a time when they became such catalysts to my spiritual growth. In fact, is it possible to take CWG out of the massive consciousness growth spirit I had around 2011 and for it still to have taken place in the way that it did? I'm really not sure. The long running CWG is woven deeply into my psyche and, the odd thing is, the reason for this is that they always feel like they are REMINDING me of WHAT I ALREADY KNEW; like descaling all those deeply encrusted layers of forgetfulness and separation mentality as I read each familiar and, often, deeply affecting line.

You could almost...I say almost...read this 4th book as a stand-alone as NDW recaps on most of the important points from those earlier books, as much for himself as his audience since, as he says, he wasn't expecting to have this fourth conversation so long after the others took place. The refresher is a useful mechanism, not only for taking you back to their content but for distilling so much of the wisdom in a way that feels more potent by the end. More potent, this time also, for the fact there is a distinct message of "action-plan" by the end. This book is no mere exercise in navel-gazing, it is a call to make this stuff real and actionable, integrated, VISIBLE and part of everyday life. Not only do I love that message but I was more than ready to hear it...which is why, I suspect, I stalled at my first attempt to read it (by getting distracted into reading other books), only to pick it up again, on an apparent "whim", at the exact moment I was flailing around looking for more actionable- spiritual direction a couple of months ago. I had reached a point when I was almost desperate to polish off that all-important spiritual dimension of my life in a world that was starting to look pretty tarnished and hopeless again (the news will do that to you!); and to find ways of integrating it into my "real life", my relatively small and largely unnoticed life, in ways that will still count and make a difference...not only for me but for others, by way of a contribution. What is proposed here is

neither daunting nor untenable but, rather, fully achievable by every single one of us, being remarkably simple yet powerful...but I do recommend reading the book to get there and feel this current of possibility coursing through you!

In fact I recommend all of them, and everything else NDW has ever published (this one set me off on a NDW binge since I had hardly noticed before that he has so many in publication, running well into double figures). And, I hasten to add - please don't get put off by the title - they are NOT, in any way, shape or form, about religion....get that out of your head...nor are they preachy or condescending. I am always so amazed that just so many of the friends that I consider to be spiritual explorers or delvers into practical metaphysics have yet to read these wonderful books - they are top of my recommendation list to anyone who will listen!

Patrick de Beauport says

Great perspectives on who we are and how to be our best selves. Highly recommended.

Michael says

(audiobook version.) Very concise. There are several pivotal points which every human being should receive. The book is a blessing as are all the other books. There are several key factors for this one being unique for me. It is a little grandeur in concept at times, but with an open mind, it'll be very beneficial to the reader

Ladory says

This was the first complete book I have read by the author. I have had two others on my shelf for years, but I am slightly skeptical of channeled works. However, I did happen to watch a MindValley video of him that intrigued me. I am very interested in the spiritual/emotional evolution of the human race before we destroy our beautiful planet. So I bought this book on my Kindle and read it.

This is ALL about practices that will help us to evolve and grow into more advanced humans. I highlighted the most pertinent paragraphs to go back and read again. This is a book I wish everyone would read. We have the choice to continue down the path we're currently on, or to change course and save ourselves. LOVE is the answer. We must come together.
