This one sucked the first one was much better

Relstuart says

I'm not sure this content demanded Absolute treatment but it is nice to see DC continue to expand their
oversize content offerings.

Zachary Henez says

A satisfying ending with some twists I didn't see coming to a different take on Wonder Women. Volume two
did not disappoint and I'm happy to have this entire run in the absolute format. The slipcase that this comes
in is a bit tight so you have to fight a bit to get the book out the first time. The art is still amazing with great
lettering and colors. This is a run worth reading for any open minded fan of Wonder Woman or anyone who
loves greek mythology. A definite standout run of the New 52 era.

Casey Taylor says

Azzarello and Chiang are well teamed in this continuation of their redirection of Wonder Woman. I kept
feeling echoes of Y the Last Man. Strong characterizations and solid storytelling.
