I feel like the story got lost in this one. Still beautiful art, but the emotional draw wasn't quite as strong imo. Honestly it just felt like a setup for whatever comes next. I'm staying tuned!

more like 1'5

Wow. Okay I love Tsu and I want to know everything about her. En is really killing the game. She's the coolest character ever. I love Lights as a writer she's so funny and so unique and really isn't afraid to draw whatever the fuck she wants on a page. My prediction is Priest is part of something we won't find out about until later...

Picked up issue 3 early at FanExpo (met Lights, too!) and read all 3 issues right when I got home. I'm really liking the vibe of these comics, and I like trying to find the song lyrics in each issue.

I have been reading this comic series since the first one came out and I have really been enjoying them. Until this one. Why do writers like to have their main character have a relationship with every new character that comes into the story? In this issue we are introduced to Mitsuki (Tsu). Lights has a sort of dream of her and then sees her later that day and chases her down. They are talking about how her name Mitsuki was the name of En's favorite book as a child and her mother used to read it to her. And now they have a romantic or physical relationship and the story ends with them saying they are going to get Priest... What?! Why couldn't they just be friends and Tsu helps her get back at Priest? Why does there have to be a romance between the two? I just did not like this issue and felt that the story ended on a major cliffhanger and left me with lots of questions.

I'm obviously going to continue with the story because Lights is still my favorite singer and I love this entire project that she is doing with the comics and her new album. I just felt that the story fell flat with this one. The two songs that go along with this issue are *New Fears* and *Morphine* and both tracks are great! I managed to listen to the entire album when it came out probably about 10 times now and it's definitely one of my favorite albums of the year. Go check it out!

Lost me on this one. Pushes the envelope a bit too much. Oh, she's bisexual now? Fine, but not the way it's presented. Too cheesy. "Let's get him back," to end the issue seems a bit trite. The mystery that's been developing about the world dissipates into soap opera drama. Might come back later, but good for now.

This was a really good panel/moment:

I've been wanting to read these since I first heard Lights was creating them. I never was interested in the comic book style so these are my first. I just finished the first three issues, the third one is my favourite so far. The artwork is beautiful, and the story is becoming more and more intriguing as I read on. I can't wait to read more!

*****spoiler?*****

YAS! QUEER REPRESENTATION DONE RIGHT. For all of you saying "Oh, she's bisexual now." First off, we don't know how she identifies as and second, she just slept with a woman she was attracted to. Totally normal.

You see male characters sleeping with everyone and it doesn't hurt the story but as soon as a woman does it, with another woman, it's suddenly "derailing" from the story. Which, by the way, En was talking about how her mother used to tell her a story as a child about a girl named EXACTLY like Tsu (who also looks just like her) so is it coincidence, myth or does it actually mean something? We'll have to wait and see.

So this issue **still** correlates to what's to come. It was interesting to see En having fun after being dumped. Also, Tsu is so intriguing and I can't wait to see more.

Lost me a bit on this issue... random girl just appears in her bedroom at night and acts like it's all good? Tells En not to trust people and/or let them in and then just sleeps with her? V confusing... ???

I can't get enough of this.

Fucking amazing

Lights did it again with this issue. Pulling me in, making me want more and then its over and I have to wait a whole month for another issue!

Leah says

This edition was definitely something different from what you'd expect coming from Lights. Well worth the read.

WrensReads Review:

Alright LIGHTS, showing a whole new side of you. Girls with white hair that walk through your dreams, sometimes things can get a little frisky. Really, this issue just kind of confused me, but I think it is starting to kind of put a kick in for the next issue.

I will put in a little warning that there is a little nudity in this issue. So if that bothers you, maybe don't invest your time in these. Personally, I believe it was tasteful and artistic, but I know not everyone is comfortable with that kind of thing.

Can't wait for Issue #04!
