Brides O' the Emerald Isle Pamela Griffin , Vickie McDonough , Tamela Hancock Murray , Linda Windsor

When the little town of Ballymara's tourism is threatened by a cynical journalist, Moyra Rose O'Cullen challenges him. Tracing history back in time, she uncovers the roots of the local legend of the pledging stone at the door to the chapel and learns three stories of how her ancestors' bonds of love were formed over the ancient stone:

Five hundred years after the birth of Christ, Conn came to Ireland and encountered Druids. But could his attempts at sharing his Christian faith be wrecked by a woman on her own personal mission?

Centuries later, Breanda has been abducted by brigands. When plans are formed to rescue her, will her childhood love have to choose between his clan and Breanda?

After being jilted by one American, Keely is bitter. But when a cowboy performing in shows across nineteenth century Europe is injured and dependent on her father's help, can she open her heart to love another American?

After her journey through history, can Moyra convince the modern world that the legends of love are true? Might she form her own match over the stone?

Jennifer Love says

"A delightful little anthology, a little cheesy at moments, but delightful nonetheless."

Going back to my Irish roots, and I was able to really enjoy this book. I like the story that goes all the way through, and the historical aspect of it all. It really offers you a little bit of everything. I've read better anthologies like this one, but this is still worth the reading time.

Brooke Barenfanger says

A charming collection of novellas. I've always been fascinated by Ireland, and these novellas gave an enchanting glimpse into Ireland's past.

Melissa says

2.5 stars. Set in many different times in Ireland, Predictable.

Nikki says

When the little town of Ballymara's tourism is threatened by a cynical journalist, Moyra Rose O'Cullen challenges him. Tracing history back in time, she uncovers the roots of the local legend of the pledging stone at the door to the chapel and learns three stories of how her ancestors' bonds of love were formed over the ancient stone: Conn and Sorchu in 500 AD, Ardghal and Breanda in 1366, Nick and Keely in 1895. Can she convince the modern world that the legends are true? Will she form her own match over the stone?

Elise says

Not very good. . . the first story (set in modern Ireland) was okay, the second story (late 19th century) was passable, the third (14th century) was pretty awful. . . I didn't bother to read the fourth story, skipping straight to the conclusion of story No. 1 instead. With Linda Windsor's novella perhaps excepted, none of the stories were particularly well-written or engaging.

Jerry says

Some good stuff here, but too much wasted space and awkward formatting, especially splitting up one story into four parts. Even for omnibuses such as these, I've read much better.

Partridge Public says

Griffin, Pamela PB

Emily says

AWESOME!!!!!!!!!!!!!!

Laurie says

bored... didn't read it.

Tori says

The Irish "accents" in this book were pretty bad... fun fluffy reading.

Danni says

there was a harp in this book. Yeah.

Meredith (Austen-esque Reviews) says

If you have not had the pleasure of reading a historical christian romance before you are in for a treat. This book takes place in Ireland in the present time of now. Moyra, lives and works in Ireland. She is involved with tourism and advertising. Jack comes to Ireland to write an article for a travel magazine. But right from the start he intends to write a negative article so he can save his job. Moyra has to show Jack around, she immediately doesn't like him and knows he could take away her job and livelihood, as well as a lot of other townspeople, with his article. She grows to dislike him even more when he challenges there sacred "Pledging stone" which means any promise made there has never been broken. Well on film Jack promised to love Moyra over the pledging stone. She was furious with him! Does the pledging stone work? Does Moyra and Jack fall in love?

Through the story there are flashbacks into the past. Which is great if you like history, like me! (1850, 1350, and 500) Jack and Moyra learn all about Moyra's family through three more fabulous romances! I couldn't put this book down. I recommend it for anybody who wants to read about Ireland, Faith, and Love. It was such a great and inspirational read.

Debee says

Historical fiction is a favorite genre of mine... This book did not fail to deliver that either.

I had never read a book so clearly defining each author's work contributed. Each author was showcased in a story & time period that was carefully woven into another author's over all story. It was intriguing to see it how all united into one piece.

I'd like to read more works along this line in the future.

Meghan Nicole Hall says

I loved this novel. Very charming and endearing love stories focused on Ireland. I really fell in love with all the characters in this novel. And thoroughly enjoyed learning more about Irish culture and history in the process.

Liesl says

I loved how the book went through several centuries. It was interesting to get a little history of what it might have been like in the 5th century etc. The book was very predictable but still very interesting and worth reading.
