Tessa's Chosen Becky Wilde , Becca Van

Book 1 of Sugar Creek series

Tessa is set to move out of her home when her ex fiance arrives on her doorstep to stop her. After he physically abuses her she escapes from him and drives away.

Arriving at an Inn in Sugar Creek Ohio battered and bruised Tessa is confronted by three Alpha male brothers, Lucien, Raphael and Gabriel Woolf. Not realizing they are werewolves and that she is their mate. Tessa is kidnapped by the three brothers.

Will they be able to win her over to secure her love or will she be too scared of her past experience with Alpha males and escape from their dominance?

ValerieC says

This werewolf story was SO bad!

Tessa's fiance beats her up when she tells him their relationship is over, so she flees in her car and stops in Sugar Creek, Ohio at the Shifter bar to get a cup of coffee, not knowing that the place is really full of werewolf shifters.

When Tessa walks into the bar, Lucien, Gabriel, and Rafael - three werewolf smell the scent of their mate. Lucien is the Alpha of a pack and Rafael and Gabriel are his betas, as well as his brothers.

They immediately move in on their mate and scare off her ex-fiance who has followed her there.

Then, they kidnap the woman, going so far as to render her unconscious to keep her quiet, to get her back to their pack house!

There are the formulaic happenings - kidnapping their mate, dealing with the ex-fiance, jealous female pack member, male pack member that wants to be the Alpha... it is just soooo bad!

The main reason it's SO BAD is the stilted dialogue. Lucien talks to Tessa in Spanish, although their names would suggest that they are French weres (quite common in werewolf stories). This story is *supposed* to be happening in Sugar Creek, Ohio, but there are all sorts of non-American terms, such as 'petrol' that aren't used here. The author doesn't seem to have a proper grasp of idiomatic American English, so there are few contractions used, making it all sound extremely stilted. And what's with the Spanish? Are these Mexican weres, Spanish weres??? No explanation about them or their origins.

I took a glance at the Author's bio page, and it says she is Australian, and her bio also reads quite 'stilted' in comparison to a lot of American authors'. Her reading list isn't erotic romance in general... 'write what you know', said a wise person. If you don't know Americanized English, don't set your stories in America. Don't have your characters speak in Spanish, unless you can get it into your story that there is a reason for them to speak it.

The sex scenes are all the same, just guys in different orifices each time. Read some other writers' erotic romances to learn how to write good sex scenes.

On the plus side, the author does a fair job of dealing with emotions of Tess, considering how short the story is.

I am irritated that I bought all three installments of this at BookStrand, based on their ratings and the story descriptions, so I have to hope that the next ones are better.

I certainly hope this author gets some editorial help!!

Also, it is unseemly for an author to list all of her own books on Goodreads and give them 5 stars to boost her ratings, which Ms. Wilde has done. I have seen other authors do the same, and it isn't appreciated by the readers, IMHO.

Emily says

After being nearly attacked by her ex, Tessa Michaels is on the run. Of course she had planned to leave before, but she never expected to end up in Sugar Creek.

When Lucian, Gabriel, and Raphael Woolf scent Tessa they know they have found their mate. They sense she is frightened and having a man come into the bar trying to get her to leave, they know she needs their protection as well. Explaining they are wolves and she is their mate is a little bit more difficult than they thought, Tessa's own insecurities are creeping in and she doesn't believe that she will be enough for all three men. Lucian, Gabriel, and Raphael have no doubt that she is the one for them though.

I had actually read this before under Becky Wilde. I think work has been done on this one though, very good story. I liked all three men and was pleased that Tessa just didn't accept the mating, she wanted all the details and made a decision based on it. Very fun.

Delta says

1-1/2 awful, I-would-like-the-time-back stars!

Read like an unedited draft: missing words, wrong words, flat characters. Spare yourself, and skip it.

Emily says

I didn't realize Becky Wilde and Becca Van are one and the same. Read this one a long time ago and then rebought not realizing same story. Posting full review on Becca Van's listing.

Anna says

Alright, well I will admit that I was after a moderately bad, sexy, three werewolves on one girl type of book and I certainly got that. Sometimes you are just in the mood for it. Having said that it was so bad to begin with that I almost didn't get past the first few pages. Terrible writing, terrible story, treating the reader like an idiot and telling you everything instead of showing, terrible spelling. Blah. Quick thrill but not even really much of one at that, I have read much better bad books.

SassySami says

All in all pretty terrible. Obviously self-published, the author has no idea how to use proper grammar, and the spelling's iffy, too. For future reference, apostrophes are used to convey possession, not plurals. Beta readers cost nothing.

Ladymcbeth says

Forgoten I've read this book so forgotten to write a review :/

It was a great reading. It could have been but the way the guys take away the heroin choice didn't please me. And more, if the girl was a battered woman flying for her life, how can she let 3 unknown guys take her the way they did ?
I didn't understand at all !

Aya Garcia says

It's only 10 chapters so i guess it's to be expected. But *****. The plot moved REEEEEAAAAAL fast. There wasn't time for the characters to actually grow or improve. At some point I got real annoyed at the pace of the story too cause there wasn't any event when the characters could've gone deeper. -.-

Yeah but then again that's just me.

Jules says

I almost never rate a book I haven't finished, but this book offended me. Aside from never, ever, having seen an editor in it's life (which drove me up the wall) the premise is basically thus: main character goes from being a battered woman who is almost killed by her boyfriend to abducted by five hot guys to sleeping with not one, but all five guys. In the first two chapters. Or something. I stopped reading after about that.

On top of all this, I paid \$6.99 for what has to be a rough draft. If I'd know it was so unfinished, I would have gone for a different book.

Michelle says

I gave this book a shot even though I read several not so great reviews. I really wanted to like it so I shelled out the \$6.99 to give it a go. I'm not one that gets hung up on grammatical errors as long as I can get the gist of things (one reason I bought it even after reading the reviews), but this book did not read well at all. I honestly felt like I was reading a book that had been written by someone who spoke English as a second language. It was frustrating to say the least and for me not something I could get past.

Ilinca Marcu says

It's the wors book i've ever read! The idea was ok: 3 males are searching for their mate and found her in a bar with her clothes ripped and with bruises. After she founds what is she to them, she has to accommodate in the pack. But THE WRITING... (two words) was awful. And it was the writing not the editing. I've got the impresion that the writer was from another country and the book was originaly writen in another language,

adn she (the author)thaupt: „Hey, why don't I translate the book? Why not? *It's fun!*” And then she did it on google/translate. I repeat: It's the worst book i've ever read!

N.L. Riviezzo says

The story itself was odd although it had potential. My biggest peeve was with the spelling and grammar. These things are important to crafting a good story. At one point, a wound is being cleaned - stated as 'cleaned the sight of the wound'. It should be 'cleaned the site of the wound'. Wilde should also gain consistency with the names of her character. At the start of a sentence she'd use one take of a male's name (Luc/Lucien for example) then in the middle or end of the sentence, she'd use the other variant.

Lisbeth says

Blah, this was really awful and redicales.

Tala says

It's really more of a 2.5 I'm glad I only paid .99 for it. This was obviously not edited at all. It progressed so fast. I didn't have a problem with the three mates, I knew that going in, it was the way it jumped around. I thought the ex was going to be the problem, but we don't even know what happens to him. The story had potential if it would have been longer. It seemed like Ms. Wilde was trying to put too much into this short of a story.

Sarah says

I really like the story and the sexy alpha male characters but through almost every series I've read of Becky Wilde there's been writing mistakes. Sometimes when she's writing about one character she accidentally puts wrong name in the scene. This was very confusing at times. She also repeats herself in every series. Even with all these faults the series she writes is very sexy, very dirty a good read for the price.
