M.M. Strawberry Reviews says

I didn't read all of the Little Sister books because the original Baby-Sitter's Club was much more my forte, but I liked this title because I love mermaids. Karen is convinced that mermaids are real after getting a letter from one. In the end it is revealed to be a prank, but this was still a cute and fun book to read.

This is the first book we've read in the "Babysitter's" series. It was okay; the dialogue is appropriate for our girls' age group and the interpersonal dynamics seem to be realistic. I didn't like the overall theme of competition and bickering, but that seems to be about right for that age. Because this series was written when I was too old to read it, it's not one that I feel very attached to (compared to Nancy Drew), although I suppose we will probably read more as our girls get older.

The mermaid in the title was what drew us to pick out this story. And the descriptions of being on vacation at the sea shore kept our interest. We love any story that has to do with the beach.
