The Last First Kiss Marie Ferrarella

It's been eighteen years since Kara Calhoun laid eyes on David Scarlatti, the one man who'd always gotten under her skin--the wrong way! That doesn't stop a pair of matchmaking moms from believing their son and daughter are made for each other. So Kara cooks up her own scheme to prove them wrong. Even if it means temporarily dating the super-geek-turned-dedicated-surgeon...who's much too good-looking for this video game tester's good!

The bubbly blonde dynamo is the skinny tomboy who used to drive Dave crazy? Impossible! And agreeing to her plan is even crazier...especially when Kara awakens irresistible desire in the reserved physician. With their pretend romance flaring into something neither expected, Dave devises a backup plan: convincing Kara that that incredible first kiss won't be their last...

I was mostly interested in this for the video-game designer heroine, but it's such a small part of the book other than her getting an impossible game for the hero to give to his nephew that I was disappointed. I also found her matchmaking mother REALLYY overbearing, to the point where I wanted her to just not talk to her mother at all anymore.

It has been eons since I have read any harlequin novels and since I have been waiting for several book releases from several of my favorite authors so I thought while browsing shelves in the library this book title caught my attention , and decidee to give it a go. Since I have been used to reading longer boks I went through this book in a flash, of corse since it is a harlrquin novel I expected it to be "fluffy" and it sure was.

The book is about two childhood rivals who has not seen each other for 18 years until their mothers who are longtime bestfriends started playing match- makers, when Kara and Dave thought their "pretend" relationship will work angaist their scheming mamas their plan backfires as they fall in love with eachother and the game of pretend soon became a reality.

A cute romantic story that can be read to pass time but I find the story to be lacking in depth and short even if it is 16 chapters plus an epilogue .

Good book. I loved the interaction between Kara and Dave. They really balanced each other well. Kara is impulsive, creative and mouthy. Dave is reserved and logical. Kara had picked on him constantly when they were kids. But when their moms cooked up a matchmaking scheme, Kara talked Dave into a fake relationship to stop them. What they didn't count on was their attraction to each other. They also found that they actually liked being with each other. I loved the way they took care of each other, even as they snarked at each other. Dave realized that Kara gave him the fun that he needed after hard days at the hospital or clinic. And Kara found that Dave gave her the steadiness that she had been looking for.
