SQ: Connecting With Our Spiritual Intelligence Danah Zohar , Ian Marshall

A radical new exploration of the human need for meaning and values.

At the beginning of the 20th century, as psychologists discovered ways and means to measure intelligence, Aristotle's definition of man as "a rational animal" developed into an obsession with IQ. In the mid 1990's, Daniel Goleman popularized research into emotional intelligence, EQ. Now, in the twenty-first century, there is growing evidence that a third "Q" exists-"SQ," or Spiritual Intelligence.

SQ is our most fundamental intelligence. It is what we use to develop our capacity for meaning, vision and value. It allows us to dream and to strive. It underlies the things we believe in and the role our beliefs and values play in the actions that we take. Spiritual Intelligence explores how accessing our SQ helps us to live up to our potential for better, more satisfying lives.

This is a solid book with lots of well constructed thoughts. Many of those thoughts are new, brave and refreshing. I think that ultimately, this work will be recognised as a pivotal work, shaping Western thought of the mind.

bingung..., kemungkinan karena proses terjemahannya yang kurang bagus

Vivera Siregar says

diterbitkan oleh Mizan, mengikuti sukses buku EQ (emotional intelligence) dan tampaknya juga menginspirasi Ari Ginanjar untuk membuat training ESQ yang hebat itu (sekarang banyak diikuti remaja).

Deepak Motiramani says

Enlightening book talking about spiritual intelligence. The subject was new to me. It discusses spirituality from intellectual perspective.

Do?rusu pek umdu?umu bulamad?m bu kitapta. Kitab?n içi hem dolu hem bo?. Bir mantıksal zeka(IQ), bir duygusal zeka (EQ) bir de bunlar?n üzerinde spritüel zeka (SQ) var diyor yazar özetle. Ama alt ba?l?klar? oldukça yüzeysel hikayelerle ve da??n?k al?nt?larla doldurmu?. J.F.Holland?n 6 ki?ilik tiplemesini al?p, üzerine Jung ki?ilik tiplmeleri, onun üzerine çakralar, onun üzerine biraz astroloji ve gezegenleri oturtmu?. Bunlar?n hiç biri konusunda fazla bir bilginiz yoksa enteresan gelebilir ama bu ki?ilik tiplerini de pek bir yere ba?layamad?m ben. Çok kötü diyemem, içinde bazen ho? al?nt?lar falan vard?. Ama asl?nda al?nt?lar?n, ?iirlerin de biraz gözünü ç?karm??, sanki kitab?n teorik havada kalan k?sm?n? al?nt?larla doldurmaya çal??m???. Benim için pek faydalı ve de keyifli bir okuma olmad?.

?lk kitaptaki ba?ar?s?n?n üzerine bir kitap daha yazmas? istemi?, ama bi ?ekil malzeme ve içeri?i ayarlayamam?? gibi hissettim. ?leride yazara The Quantum Self ile bir ?ans daha vermeye çal??aca??m.

Amazing book. For everyone who wants to understand what's happening when rationality and emotionality end.
