Breathe for Me

Natalie Anderson

Breathe for Me Natalie Anderson

The last thing Chelsea Greene wants is to be rescued, but that's exactly what happens when she's caught wearing nothing but her swimsuit during a midnight emergency evacuation drill. Turns out her 'hero' is a former lifeguard who has no hesitation in offering the kiss of life. So not happening, right?

But for emotionally chastened Chelsea, one touch changes everything. She discovers a desire to satisfy this arrogant, demanding tease. Unable to express her own fantasies, she finds unspeakable pleasure in serving his.

Xander Lawson exudes easy charm. He likes a woman unafraid to match his appetite for unfettered fun. He doesn't do complicated or emotional. But the raw need emanating from fragile Chelsea compels him closer. He can't resist spinning a sensual fantasy world around them.

As passion spills outside their carefully selected boundaries, Xander learns Chelsea's stronger than he first thought. But is she strong enough to handle the intensity he's always kept hidden?

Now that is how you do sexual chemistry.....

During a midnight emergency evacuation drill of her apartment complex, 24yr old Chelsea Greene is swept up and Rescued by Xander Lawson.

"And who are you? Fire services?"

"You mean you don't recognize me?" His baby blues lit up, and chuckle tumbled.

"Sweetheart, I'm Superman, didn't you know?"

Xander Lawson exudes easy charm. He likes his women fun and playful.

Xander needs a woman unafraid to match his appetite.

Meeting Chelsea stirs his need for fun. Experiencing one-look lust has happened before, but never has the pull been so strong.

Just one touch and everything changes.

Chelsea's body says yes but her heart is saying no. Xander can see her internal struggle and offers a one time deal. For Chelsea to give into temptation, he realises her need to release all control over to him and can't resist spinning a sensual fantasy world around them.

"One afternoon. One fantasy. Just one."

Chelsea discovers a desire to satisfy this arrogant, demanding tease. Unable to express her own fantasies, she finds unspeakable pleasure in serving his.

But once isn't enough and soon Xander and Chelsea find themselves in a strictly sexual relationship playing out all types of sexual role plays.

The fantasies were Brilliant. I loved the cat burglar one!

"Cats love to play with their prey.... she said softly. "We love to torment them. We like to let them think they've escaped..."

"But they haven't."

"No." she ran a fingernail down his chest. He felt it edge through his shirt. "They can never get away.

"What else you cats like?" He asked

"We like to lick."

"Alright," he tore his mouth free and spoke in a low, laughing growl. "I'm Tarzan, your Jane and I've just rescued you from some wild beast. I'm wired and there's only one this to ease off the adrenalin. Not gental. Not slow. Sure you can take it?"

"It's your boss. You're in major trouble."

"I'm a mermaid."

"And who am I?" He asked carefully. "A sailor?"

"You're a pirate," she corrected him.

"Oh." His smiled widened.

She put her hand on the tiled edge and pulled herself out of the water a little, whispering.

"You've captured me."

Xander says he doesn't do complicated or emotional, yet Chelsea compels him closer. Never had played like this before, but knowing that Chelsea needs it, Xander finds himself wanting more from her.

She will surrender herself to his every command, but what is she hiding behind the hurt in her eyes?

"You're caught in your inability to communicate. Your family- his family- would be appalled if they knew you were sabotaging your life because of misplaced guilt. It's time to talk. Time to give it up."

As passion spills outside their carefully selected boundaries, will someone be left heartbroken.

"I know you said this would be over if I became attached, but it's your fault I did. It's your fault I've fallen in love with you."

Natalie Anderson did not fail to deliver here. The sensual build up towards the first kiss.....off the charts. The intimacy was at times just the right amount of hot, but then delivered sweet and heartfelt.

"Breathe for me," he said hoarsely. Holding her, rocking her to pleasure. "Breathe for me"

And that epilogue... AMAZING

This was more than just a fun, sweet, erotic romance, it's a journey of recovering from a tragic past and learning to let go of mistakes and regrets.

Breathe for Me is the first instalment of the Be for Me series. Logan is up next and I can't wait for his story.

Jamie says

Nice and Steamy

Really liked this one!!

Chelsea has been living with guilt and trying to find her way back to herself for the last 2 years after tragedy and heartbreak... She's independent and trying to make a way for herself by herself. She doesn't want to be rescued....

Xander..He doesn't know how to NOT rescue someone.. he's got pain of his own in his past and when he helps Chelsea out of their apartment building during a fire drill he see's something in her that needs saving. He doesn't want a relationship.. he doesn't believe in them. But he thinks she needs company, needs someone to talk to.. and lots fucking. Yep, he thinks lots of fucking will help her out and he's just the man for the job.....

So neither want a relationship...Chelsea is ready to get her feet wet again (and her hoohah) and if Xander is willing to be the man to bang her back to life, so be it. So they decide to play.. and they play all kinds of ways.. roll playing games.. things get really hot really fast and they can't get enough of each other....

They get under each others skin and each begin to chip down the walls the other has erected around their heart...It gets tough and things of course get complicated when they try to figure out what they want but it was an awesome ride watching them get to their HEA.

This was an easy story to read and yes, the ending was predictable.... but the way their relationship played out was really very different from any other book I've read. The roll playing make it extra hot.. smokin hot. The story flowed smoothly with no drag time. I really enjoyed this one...

The End ♥♥♥

Tessa Teevan says

Delightful! Sinfully sexy, fun, and a joy to read.

Victoria says

It was a game. She got that. Except the sizzle that she felt wasn't entirely playful. It was intense. And as she stared up at him the smile in his eyes and on his lips faded as a predatory look hardened his expression. She raised her hand. Pressed her fingertips on his mouth. To stop him? To touch him? She didn't really know.

He stilled beneath her touch , his eyes locked on hers. In their depths she saw it, the reflection of her fantasy. Of being with him, against this door . Right here. Now. Hard. Rough. Fast.

She felt his breath on her fingers. Then his tongue. Curling around her middle finger. A sizzle shot up her arm. Intense, fierce desire ripped through her. She snatched her fingers away.

"Sorry," she mumbled. Embarrassment burned all over her face. She'd been about to moan in the middle of the hallway.

"S'okay," he softly answered , his eyes never leaving hers. "Anytime."

4.50 RATING- If you haven't read this book and enjoy contemporary romances, you should! It's fun and sassy and sexy. Xander is going on my best boyfriend shelf. I loved him! He's arrogant, charming, protective, and HOT!!! Chelsea is an easy heroine to like. Together, these two characters are fabulous! The chemistry between Xander and Chelsea is instantaneous and believable. It works from the get go and just gets better and better. The sex is playful, their role playing is laugh out loud funny, and everything about this story left me wanting more!

With one hand on her hip and the other in her hair he held her still— so she could never escape. He shouted her name as he thrust into her again and again. Pounding more wildly than he'd ever done in his life. No more words came from her hot mouth, just a raw scream. And all he could see was red. A cloud of passion drowned him in an orgasm so intense he lost all sense of his surroundings. There was nothing but her. Nothing but him owning her.

The writing is solid, the pacing is good. There are some editing issues but nothing that wasn't easy for me to look over, a few missing words, etc. Both obstacles the characters faced were understandable, nothing was blown out of proportion. There was no drama just for dramas sake. This was just a good, solid, sexy romance!

This is the first book I've read by Natalie Anderson but it won't be the last. What a find! I was happy to see there were are more books available in this series. I definitely plan on reading the next book, Beg for Me, very soon!

ONE NOTE: The reading order can be a bit confusing on this series. Some sites have Bared for Me listed as book two in the series. However, Bared for Me takes place towards the end of Beg for Me. Because of that and to keep the series sequential, I recommend the following:

1. Breathe for Me
2. Beg for Me
3. Bared for Me

Just a note: For SCRIBD subscribers, this series is currently available to borrow.

CT says

3.5 stars

Another one with two characters with a troubled past finding each other. Some nice hot scenes between Chelsea and Xander, but oh so predictable storyline. For a freebie this was worth the read.

Nancy Crocker says

Breathe For Me by Natalie Anderson

Still recovering from a devastating car accident, which took the life of her finance Tom. Chelsea doesn't want to feel that kind of pain and lost ever again. She is just starting to get her life back on track, by moving to New York City for a few months while doing an internship and working on a post-grad qualification. But she is finding it extremely difficult to not give in to temptation.

Xander Lawson is the "lets have fun only type of guy". He is loyal, has great friends, self made, flirty, loves to lend a hand, rescues damsels when needed. But when it comes to love, he wants no part of it. Not after the life he and his mother suffered at the hands of his father. He can rock your world in bed and even up against the wall, but don't make the mistake of falling in love, because that is when he checks out.

From the moment Chelsea Greene and Xander Lawson meet you can almost feel the sizzling attraction. Just one touch from the very witty and sinfully attractive Xander, has Chelsea feeling things she hasn't felt for almost two years. Once these two agree to have sex it is with the understanding, that this is all it will ever be for both of them ... Or I'll it ? This is one VERY Intense and passionate read. The scenes were extremely HOT. I also loved Xander's humor in this book, there were quite a few chuckles. I found it very hard to set this book down, until I was finished.

This was the first book by Natalie Anderson for me, but I look forward to reading many more in the future. I can't wait to read Logan Hughes story in Beg For Me!

5/5 stars

Cathy M. says

I picked up Breathe for Me as an Amazon freebie several months ago and am so glad I finally read it! As

soon as Xander and Chelsea met, the sparks flew. Their chemistry was intense and their sexy fantasy play, which is what made this novel stand out to me, was playful and so much fun! Both of the characters were emotionally damaged and there were a few sad scenes yet I didn't feel dragged down by all of their drama and found them to be so endearing, Xander especially of course! It was an unexpectedly entertaining, enjoyable, sweet and sexy romance and I look forward to reading the next one in the series about Xander's cousin Logan.

ZARIA (Sheldon Cooper lover) says

Wel Hello Dr.Lawson

Hunky hero, rescuing distressed women, i wish so badly he was real and i could get to know him.

it was lust at first sight, the chemistry burning up between Xander and Chelsea

And the roleplay, woohaaa!!!

Here kitty kitty....

welkom aboard....

be my naughty secretary....

This book is so good!

***J* Too Many Books Too Little Time says**

3.5 Stars!

This one was okay for me....it was a quick read. I never really developed much of a connection with either the heroine or the hero.

Chelsea is trying to make a new start in NY, after surviving a near fatal car accident. A fire drill finds Chelsea being "rescued" by Xander. Chelsea and Xander both don't want a relationship....but hot, meaningless sex? Why not??

But of course, feelings and emotions get in the way and lines get crossed. But will both Xander and Chelsea be able to trust each other and open up about their pasts in order to have a relationship??

This was a rather predictable read...and again, I didn't have much of an emotional connection to the story or the characters. I didn't find the fantasy sex (or any of the sex for that matter) to be very hot...it was just okay.

I don't know...I didn't love it, but I didn't hate it. It is going to be a series, but the other books in the series will be about other characters. This was a standalone with a HEA, which was a plus. I would consider reading the other books in the series.

Jenny Q says

Revised! What I originally wrote: DNF. Is it just me, or do all of these "new adult" romances seem to be carbon copies of each other? There's nothing wrong with this one; I'm just in the mood for more story than sex. I may give it another go one day.

What I think now: 3.5 Stars. I decided not too long after making that statement that I was in the mood for some sexy after all and picked this back up. I'm glad I did because once the story really hit its stride I realized that it does stand out from the morass I complained about earlier. I don't want to go too much into the plot because the author did a nice job of surprising me a few times and I won't spoil it for anyone else. Even though Chelsea and Xander are initially ensnared by extreme insta-lust and don't waste much time fighting it, the feelings that develop between them later on as they attempt to have a "just sex" relationship are very realistically portrayed, and I ended up really liking both characters. I was wrong about Xander; he turned out to not be such a man-slut and he was very noble and compassionate. And I loved how tough Chelsea was as she struggled to move forward past the accident that left her damaged, and as she attempted to distance her heart from Xander. Oh, and that "just sex" relationship? Super hot, humorous, and sweet as Xander concocts night after night of fantasies for Chelsea. It gets bumped down for being too typical in the early part of the book and for having lots of errors, but I would check out future books from this author.

Anna Patterson says

Five Stars

Book Review by Anna Patterson

I received a copy of this book from the author in exchange for an honest review.

Breathe for Me, By Natalie Anderson, a work of fiction and first of a series.

I approached the reading of this novel with some trepidation since I personally felt I might find it a little daunting since it hinted that it was not only a little longer read (something I liked to see), but it also was a little hotter. This I wasn't sure of for me.

I have joked with friends about wanting to read Fifty Shades of Grey, but actually haven't done this. I am an avid reader, and love romance, but when the heat levels turn up, I usually bow out. But I have read many of this author's other novels and I like the sheer fun and delight of romance I find in her books. I wondered, would I find it in this hotter version, or not?

So I got out my cup of coffee and decided to see for myself. Unfortunately, for the housework which was waiting for me and the list of to do things, once I started reading the novel, I couldn't put it up.

Xander Lawson and Chelsea Greene are compelling romantic people from the first. She was breaking the rules when she met him. And she had many reasons she was striving for independence. But she was going the wrong way.

He was extremely helpful and playful in an interesting way. They were caught in some kind of game, old as time, right in front of everybody.

She was an artist trying to get her life back after it nearly ended for her. I liked her spirit, her independence, but I also liked her joy for living which includes a zest for romance. She could not go back because of the death of Tom Holt and the car crash.

Zander admitted to himself he was used to the "fast but fun game" but something was drawing him to this complex girl before him.

She saw him and knew right away he would be a challenge. But unfortunately, he took her breathe away.

If only the nightmares of the past would set her free.

I have read several of this author's works previously. I especially enjoyed the novel "Waking up in the Wrong Bed."

I found to my own surprise, I did like this hotter book, and I found it a fun read with depths of feeling which were surprising and a pleasure. I look forward to other books of this series. It hooked me and I want to see more.

Desere says

The expression 'Everything happens for a reason' has always been a favourite of mine but never has it been so perfectly depicted as in the new read from Natalie Anderson.

The read is about Chelsea, after her fiancée being tragically killed in a car accident and she severely injuring her leg, her life tumbles to the ground and she loses her independence. Letting others help her is the one thing she hates most, so she fights her way back to the top, making sure she can and will do things for herself and she does a truly great job at it.

She doesn't count on ending up in the arms of don't-deny-your-attraction-to-me-or-I'll-have-to-prove-it Xander. Soon there is a blazing hot passionate affair between them but this is only sex to the both of them, Xander lives for fun and fun only, and Chelsea does not need some hunky do me every-way everywhere you want lifeguard to save her, she does things on her own or not at all.

The character of Chelsea was for me as reader was one that showed courage and strength in fighting to get her life back on track, a strong heroine is always remarkable, but at the same time this heroine was something else. She goes from strong and independent to a complete helpless mess and back to her ready to fight mode and yes back again to complete mess.

This might sound like a see-saw character that no doubt will turn you off, but the reasoning behind her actions were so stunningly depicted and explained by the author and it brought me the understanding I needed into her fears, the more I read the more evolved and remarkable she became.

The character of Xander was a true hero, not the usual kind a woman dreams of, more the 'I will only be using this sex on legs for a good time' kind. He is hot with a capital H and is guaranteed to bring every female reader to her knees.

But at the same time he is the understanding kind, the man is able to draw out pleasure and at the same time he is able to tell what Chelsea needs on an emotional level. That is not something we always see in romance reads, as it goes from meeting each other to the hot sex and then the I love you's comes, with no real depth into the in-between and the what he or she is able to do for each other. The fact that the author let him be so in tune with Chelsea and her emotions, slowly but surely drawing her out from her shell made him the perfect bad-boy hero, and gave me as reader the true level of depth for this read that most reads completely miss.

The backdrop settings were fun and exciting, but mainly very wild and oh so very sexy! From the very wild and controlling 'office sex' scene to the anger overload aquarium scene the entire read was filled with wild, crazy, hot unbridled passion.

The author packed so much emotion behind the sex that it brought tears to my eyes it was truly as if I could feel not only the very raw heat between Xander and Chelsea but I could almost touch the emotions of joy, anger, fear, lust and pain.

The dialogue was flirty and extremely sexy, you will be squirming in your seat when you hear the things Xander says to Chelsea, and I am willing to bet there isn't a woman alive that would be able to resist. But the author also gave it her all on the emotional front.

She took the characters dialogue from flirting to wild in seconds and to kind and caring in a heartbeat. Yes a few curse words were used here and there, but not to the point of overuse or to the point where the curses were killing off the romance element of the read completely.

No more to the point of it being real life depicted, as in certain relationship moments today's couples do actually get to the f@#% you point in their conversations This to me as reader showed that the author really created remarkable characters that were realistic and that many readers can connect to. Fantastic work Natalie.

Now if your thinking that because of the high level of sexual content in this read as I mentioned that this is another 50 shades erotica you would be very wrong, the difference lies in what the author has done with her characters, giving us a stronger more believable hero and heroine, a better and more powerful message and a more in depth look into the characters, their emotions and ultimately what can save them.

I highly recommend this read for lovers of realistic romance with a sexual content that is pushed from vanilla sex to vanilla with sensory overload of drizzled strawberry syrup topped with whipped cream and covered with a blanket of true soul-mate found love.

I am very much looking forward to the other three books in this series, as the author let me in on the friends of Xander and I can tell that we are in for one heck of a ride with these boys. I fully anticipate this series to hit the best sellers list.

The message am taking away from this read is that sometimes you need help and letting others breathe for you will allow you the become stronger that you have ever been before.

5/5 star review

"Learning how to breathe by giving the kiss of life"

Melissa Levine says

This was an okay story. It was kinda boring though. There was way too much fluff for my liking. All the sex and making out started to get boring after a while also...especially, with all the inner thoughts (usually from Chelsea) prior to engaging in any activity. In all, there wasn't really much going on.

There were a lot of grammar issues. I'm not the best when it comes to grammar, but even I noticed some mess-ups here and there. Either sentences that didn't make sense or there were missing/added words or the punctuation not used correctly.

Ex:

1. "Thanks be the guy was an ex." Poor punctuation and I'm not sure what she was trying to say here.
2. "Somehow that didn't that surprise her..." Adding extra words.

3. "A literally 'living' room." HUH?
4. "What else you cats like?" Wrong word there.
5. "Fuck freaking out." I don't even know what that is? means?

I also couldn't help but notice how the author used some English terms when referring to certain things, like knickers, bloody, and lift. Yet, the characters were all from the US... Who did her editing?

Questions/Comments:

Xander. It was weird how Xander was all about getting laid, and that seemed to be it. Yet, he was the first to realize that he wanted to give Chelsea more. Gotta love his one comment, "What is it you want from me?" I honestly wasn't sure why he was even asking that at the time because there was nothing (in my opinion) that made me think Chelsea was trying for more.

Chelsea. I wasn't a fan of her at all. All the feeling sorry for herself was annoying. I get that she hurt her leg badly but come on. Her comment, "She was going to him. Not just the sex. But him." Right, Chelsea. That's why you barely can even talk to him, and all she ever thinks about is what they'd done the previous time they were together...in the bedroom. I didn't believe that.

Questionable comments made:

1. "...remember the simple sensual delight of warm water washing over skin..." That was when Chelsea was looking at the pool. She showers with no problem, so what is she taking cold showers for some reason?
2. All the guys were getting ready to play water polo. ..."not to trunks, but brief Speedos." Um, aren't all speedos considered briefs technically?
3. "Yesterday's emo nightmare had been more than enough." Huh?

I'm sure Chelsea wasn't living on her floor all by herself. So when Xander rescues her when they have the fire drill, how did he know which apt she was in? Yet, not know her name or anything?

Septuagenarian. The author would really use that word when referring to someone over 70? Instead of old lady? Where did she even get it? Or make her think it was a good choice? Or chutzpah?

Xander comments on Chelsea's "raven locks," yet, prior to that, we're told (by him) that she has brown hair. Which is it?

So Chelsea and Xander are by the pool making out. He's planning on going downstairs on her...how have they forgotten about the cameras? I can only imagine the one gay lobby guy watching the show.

Why exactly does Chelsea do on Twitter? Does she have that exciting of a life to where she needs to keep her fans updated?

Who uses the word "mightn't"? Something about that word annoyed me.

How old was Xander? We know Chelsea is 24 and that Xander has been working "hard for the last eighteen years." Cradle robber?

FYI, Chelsea and Xander's sexual time only took an hour. It's kinda funny how the time length never changed.

After Xander tells Chelsea that he doesn't think the two of them are going to work, he leaves. Yet, not too later, he's back again, and they're going at it. What happened?

Clueless dumbass aka Chelsea. She's so wanting more from Xander, yet, when he obviously is heading to that area, she has no clue. Ex...him telling that if another man ever touched her, he'd basically beat them. Hello Chelsea!! Her inner response? "As if Xander-effing-Lawson would get jealous?"

When Chelsea comes back after apologizing to her dead fiance's mom, things are just weird. First, she's dressed like a dominatrix in a 'fucking suit', but more importantly, SHE'S RUNNING! Much less in spiky boots! Sorry, but with all her limping around to suddenly be running? I don't think so. How long had she been gone? It didn't sound like very long. So she apologizes and suddenly is all peachy keen? Again...I don't think so.

Xander ends up thinking that he's just like his father because he was basically ecstatic that Chelsea ended up coming back to him and because he forgot to use a condom? Seriously?

When Chelsea finally goes in the pool, one second she's in her suit stepping down the stairs...then suddenly she's lost the suit?

Kami Dodson-Perry says

XANDER & CHELSEA

Chelsea has moved to the busy city to find her independence after a horrible car accident took her fiancé Tom's life and left her with a permanent limp, night terrors, and lack of self-confidence.

Xander playboy just living his life and trying to be in control of everything while also being carefree. Xander has made a career in the security area and is doing pretty well for himself.

When a fire alarm suddenly goes off, Chelsea is caught in only her bathing suit & in the middle of the staircase with about 20 more flights of stairs to go. Enter Xander (or as he says SUPERMAN). Xander helps Chelsea and is immediately interested in her.

The two find themselves in an interesting friendship with benefits and their lives became happy and complicated. As their relation progresses the two find themselves more comfortable with each other than they both thought possible.

Chelsea needs to find self-confidence again and take control, Xander needs to give control and find that he can confide in Chelsea and trust her with his past experiences and not be judged.

Together they conquer some inner demons and find peace and happiness TOGETHER.
