Her Cowboy Groom Trish Milburn

A PLACE TO HEAL

When Linnea Holland's plans for her dream wedding collapse, she flees to the safest place she knows: Blue Falls, Texas. At her best friend's family ranch, nobody asks for details. The Brody boys just welcome her with open arms and a whole lot of brotherly love.

Trouble is, the feelings between Linnea and Owen Brody are a little warmer than that. They practically grew up together, but she has suddenly noticed that Owen has grown into one hot cowboy. And his protective instincts kick in when he sees how much Linnea is hurting. He's the perfect antidote to her lying ex-fiancé. But can their feelings be love—or is Owen simply a guy she can rely on for the rebound?

Heather andrews says

Linnea that girl is bossy in the bed, "she nipped his ear with her teeth. "Stop talking and take me." She also has no problem letting her man know she's ready for more:

She skimmed her hand across his flat stomach. "And I wouldn't be opposed to having more." When she cupped him, his hips lifted to press against her.

"And I'm more than happy to oblige."

Owen was so sweet and I loved him I liked this book.

Kayla Eklund says

Typically I'm not a big fan of Harlequin novels. Granted, I've only read two Harlequin novels in my life. They were Harlequin Blazes, and I read them when I was a teenager, which was quite a long time ago. I remember I was impressed with them. Cowboy novels aren't usually my favorite genre either. However, I wanted to read Her Cowboy Groom because I loved Trish Milburn's Coven series. I'm glad I took a chance on this book. Not only did it change the way I think about Harlequin novels, it also changed my feelings towards cowboy novels too. I absorbed every word of Her Cowboy Groom within a few hours, and wanted more when it was over.

I honestly don't even know where to start with how much I loved Her Cowboy Groom. As I previously stated, typically I hate cowboy novels. It's almost to the point where I will refuse to read them. This book made me see how cowboy novels in a new light. Trish Milburn has a crisp, wonderful writing style that had me captivated from beginning to end. I loved the interaction between Lin and Owen. I felt like I was right there in the book with them, watching their relationship develop. Trish Milburn made me feel immersed in the world of Blue Falls. It makes me want to read not only the Blue Falls series, but more of the Harlequin Western Romances as well.

The characters that Trish Milburn wrote were fantastic. They felt more like family to me than fictional characters that I was reading about for the first time. I loved Linn and Owen's chemistry. It felt genuine from the beginning. I also loved all of the side characters. I hope to see more of them in the other Blue Falls novels. There was only one thing I didn't like about the book. The final confrontation at the end surprised me, and not in a good way. I thought it was going to be more violent, or physical, and it wasn't. It was kind of a letdown. It just felt very anti-climatic.

Despite the anti-climatic confrontation, I loved Her Cowboy Groom so much. It made me not only look at Harlequin novels in a different light, but cowboy novels too. I will definitely be reading a lot more of both, starting with the rest of the Blue Falls series. I am looking forward to devouring anything that Trish Milburn writes in the future. I also plan on reading the rest of the Harlequin Western Romances collection. Trish Milburn has restored my faith that good romance novels are out there. I recommend this book to anyone looking for a good romance story. Even though it is part of a series, it can be read as a standalone.

Donna Repsher says

I received an ARC of this novel in exchange for an honest review, and here it is:

This was an okay read that started out to be rather promising, a bridal shop owner, weeks away from her wedding is surprised when the current wife of her fiance shows up to inform her that her groom is already married. She flees to the home of her best friend to deal with the trauma and regroup. All well and good, but then she suddenly takes an interest in her friend's youngest brother, someone she's known for years. The concept was good, I liked the characters, I simply wanted more--more character development, more growth in the budding relationship, more meat than bare bones. The writing was fine, with the usual ARC issues of typos, etc., but what started out interesting simply became a rather one-dimensional romance, and when I finished reading it, it left me wishing for more depth and more insight into both main characters.

Wendy Keel says

I received this title from NetGalley for the purpose of an honest review.
Review will be cross-posted at www.MyBookAddictionandMore.com

I have to say I LOVE category romances they are usually very quick easy reads. I was a little hesitant to read this one, the blurb made me think it was too quick. But once you start reading HER COWBOY GROOM, you'll be pulled into the story. The characters are well written and realistic. The story is believable and keeps you quickly turning pages. I am eager to read more from Trish Milburn and to see more from these characters. I'm hopeful we'll see them again. If you need a quick easy fun read, then pick up Her Cowboy Groom!

Tiffany Willams says

"How could she go back to peddling the dream of wedded bliss when hers had been snatched away in the most awful way possible?"

Linnea Holland had a huge bomb dropped on her not too long before her wedding causing her to question everything in her life. Having to run a bridal shop didn't help either. When her best friend, Chloe, tells her to come to her family ranch to take some time away, she sets out for Blue Falls.

Linnea was so heartbroken and fragile when she arrived in town, and the one person that could calm her is the one she never thought...Owen Brody. Chloe's youngest brother was known around town as the ladies man. He never settled down to just one woman. He never cared to. Until now.

"Something new and honestly a little scary was stirring inside him every time he was around Linnea. It was as if he was seeing her with a different set of eyes, ones that looked beyond the fact that he'd known her for years to the fact that she was a beautiful, desirable woman."

I loved Owen's humor and his way with words that made everything better. I loved Linnea's vulnerability and how she could bring a man like Owen to his knees just with one look. They understood each other when they thought they were alone in their feelings. They were each other's strength and weakness.

"You really don't know what a good person you are, do you?"

"It's not the first thought that pops into people's heads when they think of me."

"Then they're blind."

I really enjoyed going back to Blue Falls and seeing how the Brody family was doing. This story was funny, sweet, sexy, beautiful, heartbreaking and wonderful. I couldn't get enough! I can't wait to read the next in the series!

"You make me lose my mind."

"I could say the same about you."

Sara says

good

Harlequin Books says

"The Brody family is back, but this time Cupid's arrow is aiming straight for the youngest Brody's heart. This is a sweet and engaging friends-to-lovers romance with a hint of intrigue and suspense" (RT Book Reviews, 4 stars).

Miniseries: Blue Falls, Texas

Rita says

Her Cowboy Groom was a very enjoyable book with great characters. After finding out the man she planned to marry was already married, Linnea needed to escape. So, she heads to the ranch owned by her best friend's family. On her way there, she suffers a flat tire and is seen by her friend's younger brother, Owen. During the ride to the ranch, Linnea opens up to Owen about what happened, and I could tell immediately that there was a connection between them. Owen was a wonderful man, and I loved how he tried to protect Linnea. That doesn't mean that Linnea was weak – because she absolutely was not. She was a strong woman who needed exactly what she wanted, and she got it.

I have not read the previous Blue Falls book, but after reading this, I do hope to read the previous one. I also look forward to the next which I assume will feature the oldest Brody, Garrett.

*I received my ARC from Netgalley and the publisher in exchange for an honest review.

Jessica Figueroa says

Linnea owns a bridal shop and sells the whole dream wedding thing. Day before for her very own wedding a truth reveals itself that ends up running to a best friend's house until she got things together. She's always felt comfortable with her friend's family and seems to be getting a little too close to one of the brothers Owen. Who is well known for his player ways and he just might be what's good for her because now she isn't

interested in a long term relationship not after she ran from a broken heart.

I thought that this was a simple and lovely book with a bit a steam thrown in. I loved watching the attraction I loved that Linnea was what Owen needs to have a bit of faith in himself to push the barriers in what people always thought him to be. I loved how protective Owen was towards Linnea. I loved that this book was enjoyable with a bit of suspense wondering when the ex-Fiance would show up and what he would do keep things interesting. There was a bit of every thing to make this short and sweet book interesting and I recommend you lovely readers to check it out.

Isha Coleman says

A heartbreaking revelation leaves a bride reeling. Needing a place to collect herself, she finds solace at the home of her best friend. Along the way she may also find love where she least expects. Her Cowboy Groom by Trish Milburn is a story about finding the courage to get back up when you feel you like all is lost. This is a beautiful read about finding your heart in the least expected places. Received this book for an honest review.

Kame says

4 Stars

Linnea is about to have her dream wedding and then it all comes crashing down. Needing to find her new normal she goes to one place she knows she can heal, her best friend's family ranch. Chloe's brothers and father have always treated her like family.

I read the book before this one and really fell in love with this family and couldn't wait to spend more time with them. Owen had screamed out to me as someone who needed some love in his life, not just a bunch of hookups. Owen has lots of pain he is trying to keep buried inside and Linnea is the perfect woman to see it. Maybe it took someone in so much pain to see his pain. I liked the attraction they fought for so long. I also liked how they each saw things no one else did.

I am really liking this series and I hope there is a book for the oldest brother Garrett soon. I received this book from the publisher via NetGalley and this is my honest review.
