Crimson Sin Trina M. Lee

Spike has never been big on destiny. Too much pressure and it's a little cliché. Spike is a nephilim, half human and half angel. Destiny might as well be her middle name. Like all nephilim, she must choose: serve the light or the dark.

Spike's also the feisty guitarist for Crimson Sin. She's got a werewolf best friend, a penchant for partying and a problem with commitment. She's reluctant to make her choice, until she meets Rowen. The captivating bass player is her competition in the annual Battle of the Bands contest. He's also a nephilim and he doesn't even know it. His only flaw is his best friend, Arrow.

The arrogant, drug dealing frontman is a dark nephilim. It's Arrow's job to recruit Rowen for the dark and Spike is getting in his way. Arrow's shady agenda will challenge Spike to discover who she really is, and it will change her forever. Destiny is a bitch.

Great book

This is set in the Alexa O'Brien world but can be read independent of the series. The book is fast passed, well written, and full of drama. I could not put it down.

DNF 20% 1 I couldn't be bothered star

I found the character's speech/slang (Ex: rock n' roll'ish) overly juvenile & the detailed descriptions (ex: clothing) tiresome. This feels like YA & fans of YA may enjoy this series. If YA isn't your preferred genre but want a light-ish fun read, I'd recommend this author's Alexa O'Brien, Huntress series.

It's my first book from this author and I really enjoyed this first book to this series.

Spike was an undecided nephilim, who must choose whether she wants to serve the dark or light side but struggles with her decision. I also liked Spikes band crew, Jett, who's a werewolf and has a spit fire attitude and her human friends too but really like Cinder, an angel that watches and tries to help Spike with protecting herself without pushing her to make a decision while Koda the dark angel, tries to push her to join the dark side.

Rowan who's in a rival band is also a nephilim but doesn't know it and when Spike meets him things started to get very interesting.

I really want to see how this series ends so I will continue with it.

A great read!

I really enjoyed my first glimpse at Spike's world. I'm a huge Halestorm fan, so I was excited to read a fantasy story about a female rock band!! I was also happy that this book is a complete story with a satisfying ending, despite being Book 1 in a series. I ended the story satisfied, but intrigued about the next adventure.

So great ! All of of these. Oops from this aut are really good.

Reads like you're inside the author's own daydream, and is definitely not suitable for people who dislike constant use of swearing, alcohol, drugs and casual sex. Started out rather shaky, relies heavily on physical descriptions (including clothes and make-up, in details that far exceeded my interest) and I almost gave up on it, but it actually got better towards the end. Or maybe I just got used to all the references to pretty and rock n' roll'ish people being pretty and rock n' roll'ish... I will probably read more about Spike and the rest of these people, but it's not anywhere near the top of my TBR-pile.

A thoroughly enjoyable read

I received a free copy of this book in exchange for an honest review.

I have not previously read any books by Trina Lee. Several reviewers have mentioned that some of the characters in this book were in prior books by Lee. While there were some mentions of prior events which I am guessing occurred in prior books, I had no difficulty in following the characters or the story without having read any of the other books. This is a stand alone book and a complete story [no cliffhangers] but it does allow for further adventures with the main characters.

The story centers on Ember - better known as Spike -- who is a nephilim and has not chosen between light and dark. She plays guitar in a band and is involved in a band competition. A rival in the band competition, Rowen, catches her eye and he's a nephilim as well. The dark side is after Rowen and Spike wants to protect him.

I enjoyed this story of angels and demons with a little romance thrown in. There is swearing, alcohol use, drug use, smoking and some sexual situations. All of this helps set the tone of the world where Rowen and Spike exist. There are bars which oriented for vampires and demons. This urban fantasy was a lot of fun and kept my interest throughout although I was a bit annoyed at Spike's indecisiveness -- as it seemed apparent how she should proceed. I especially liked Spike's mentor/guardian angel Cinder.

As I listened to this book -- the narrator, Heather Costa, did a great job in setting the tone of the gritty world in which these characters live.

Liked

It's a long while since I read one of Trina's books. I liked it. Fascinating story of angels and demons

I like Trina M. Lee. Although her books are a bit young adult for me, and not at all erotica as I've seen it classified by people, I enjoy every page of it. Her world-building and strong characters keep me turning the pages. I grinned like an idiot when Falon from the Alexa O'Brien series appeared, and I appreciated the amount of new characters in this spin-off.

Yes I will read the author again!

Yes I will read the next book!

The concept was interesting. Niphillum must make a chose between dark or light, The story took a little too long to get to the juicy parts. Overall a good story.

Good

This is a very good book. Full of action, friendships, mystery, demons and angels. Strong story line and great characters. So grab your copy and enjoy reading.

Overall: 4 stars Performance: 5 stars Story: 4 stars

My review was based on the audiobook.

I love reading about Nephilim and this was a new and interesting take on them. The world building was great but I felt that character development and back story were lacking. We are told repetitively that Spike is hesitant to choose a side but never really why except she's a commitment phobe. Overall I did enjoy the story and the narrator was on point in bringing the story and characters to life with fantastic inflection and perfect pacing. I look forward to more from this author and narrator.

AJ says

Grabs from the start.

Really well written. The characters and storyline strong and well liked. Had already met some of them through the Alexander O'Brien series, which was cool.

Michele Evans says

Loved it!!!

As I have gobbled up and loved every book Trina Lee has released, this one is no exception! In this series, we get to follow the all girl rock band Crimson Sin from the Alexa O'Brien series. Their guitarist, Ember Evans, nicknamed Spike, is a nephilim, born to an angel father and a human mother. All nephilim have to choose between light and dark and until that choice is made, both sides try to sway them to their side. When a nephilim is undecided, as commitment phobe Spike is, it can be very dangerous. They do not have access to their full powers and they may need them when they are fighting for survival.

The band is up for a Battle of the Bands competition where the winner will win a record deal. On top of that, Spike also feels a strong attraction to bass guitarist from their competition, also a nephilim, although he is not aware of it yet...

Can't wait to continue to read more from Spike and Rowen's story. Will they have what it takes to make it last, while cutting a record deal, going on tour, and fighting off demons and agents for the dark?
