Fall Dark

Zoe York

Fall Dark Zoe York

Until two weeks ago, Vince Nash was a Navy SEAL.

Now he's just a guy with a failing family business and a very specific skill set, and if he can get through a job interview at Camo Cay, he'll be all set. But when he's greeted on the island by beautiful Larken White - sharpshooter, cynic, and Vince's first love - he realizes his plan was missing one very important, very pissed-off woman.

Problem is, Larken wants nothing to do with him.

The SEALs Undone Series

Fall Out - Drew and Annie

Fall Hard - Jared and Cassie

From Reader Review Fall Dark for online ebook

Cheryl Sanders says

Twelve years ago, Vince Nash and Larken White had an amazing summer together while they were in the Army. At the end of the summer, Vince left to join the Navy and become a SEAL. The problem was that he left without a goodbye. 12 years later and they meet again, unexpectedly. For Vince, all those old feelings about their summer fling came rushing back. For Larkin, it was so much more than a summer fling. All she could remember was that she was so love with him, he left without so much as a goodbye and crushed her teenage heart.

Another awesome SEAL story in the SEALs Undone series. Vince is a super sexy Navy SEAL who likes to talk...a lot. He talks during EVERYTHING! Larkin is awesome. She's a smart ass, an amazing sharpshooter, and she has such a hard time resisting him. He knows what he wants and he's determined to make her his. Fantastic read! I am super excited to find out what's next for the SEAL's Undone series!

I was not compensated for my review.
I was not required to write a positive review.
The opinion expressed is my own.

Aarati says

Zoe York never disappoints. And she always has a second chance romance in all her series. Vince and Larken's story is one such. I loved reading this book. I fell in love with Larken from the very first page when she pulled a gun on Vince. Things have just been fun from there. There is some bad blood between Vince and Larken, and she doesn't like him very much, but their chemistry is still as hot as ever. Larken was hurt by Vines's decision 12 years ago, and now Vince is trying with all his might to win her back. He came to Camo Cay to get a job, but after meeting Larken his priorities change. All he wants is to win back the girl he loved and lost.

i loved Larken and Vince working through their problems and getting back together. Like all Zoe books, it has sexy times and lots of fun.

Carrie Franks Fink says

I received an ARC in exchange for an honest review. When I read the first part of chapter one and died laughing. How can a guy be so cocky, and I mean so cocky to a woman who is holding a gun to his head that he flirts with her at the same time as picturing her being impressed by his cojones. Then there is the pickup line...the best pickup line off all time: "You on the hiring committee? 'Cause I am happy to oblige you in any way I can."...I laughed so hard when he realized that the blond hottie was actually Larkin, his ex-girlfriend who he had hurt. They start off with Larkin despising, not liking Vince and Vince trying to prove that he is now a man. Going back and forth with the banter filled with sexual tension to spending 24hrs together alone on a "spooky island". This book has you rolling on the floor, feeling you are actually there as you read this book feeling the sexual tension between the two. I highly recommend this book. Zoe you have gone and done it again and I now want to read all of your Seal series. Thank you!

Nikki says

How can you not love a second chance at romance? I love seeing couples find that perfect balance that they couldn't find the first time around. This is the perfect example of a second chance, it shows the true struggles of life and leaves a great message. Larken does not want this man on her territory, especially after the way he left her in the dust when they were barely adults. She's never gotten over the man who stole her role and her heart, but that doesn't mean she wants him. I mean she's in paradise getting sunkissed every day, why does she need an asshole? And Vince, he can't hide his attraction to the beautiful woman he hasn't laid eyes on in over twelve years. When he arrives to the island for a chance at a new job, a new life, he never expected to see the spunky girl from his past. He's going to do everything he can to impress the boss man in order to this wonderful job that'll get him a ride out of the SEAL life, and maybe a woman, too. A woman he didn't realize was the one he'd compare all the rest to. Both running (somewhat) from an unwanted path, it's fun seeing these two try and find a way work together with all that steam. You'll be on bated breath waiting for one to blow(in a good way, of course). Love love love this book. Anyone looking for a heart sparking second chance at love, will fall in love with Vince and Larken's story. Did I mention I love her name? It's so cool! Ooh, and Vince, yeah, he speaks spanish, and it's hot(with a capital H). Smokin'!

Sheryl says

4.5 stars

****Read as part of the SEALs of Summer 2: A Military Romance Superbundle anthology****

Debbie says

Vince and Larken dated years ago right out of high school. Larken thought it was more serious than it was and when Vince left for Navy Seals training she was hurt. Now that Vince is older and sees Larken again he is determined to convince her to give them another chance. But Larken has been hurt by two men in her life so her ability to trust is almost non existent.

Fall Dark was really short. I liked the story that we got, just wished it was longer. This was more a \$.99 story than \$2.99. The characters were good and the ending was nice.

Maria Rose says

This is another great addition to Zoe's Navy SEALs series (easily read as a standalone) and features one of my favourite tropes - reunited lovers. Vince and Larken were together as young adults but Vince didn't

realize how much Larken cared for him, so when he went off to training, he lost contact with her, leaving Larken with a broken heart. Now years later, he wants a job that just so happens to be with the security company Larken is working for. Seeing her again, he realizes what he's been missing - but is she willing to give him a second chance?

As always, I find the plot of these stories and the chemistry between the characters to be spot on. Both characters are likable, friendly and easy to see together. But what I really appreciated about this one was that Vince, while being apologetic over hurting Larken's feelings when they were younger, is also aware that he can't change the past and can only move forward. They've both changed and matured in the intervening time, and had they stayed together when they were younger there was no guarantee they would have lasted long. They are better suited now and Vince wants to be with Larken, appreciating her more now than he did then. So instead of making it all about him making a big mistake when he was younger, it wasn't a mistake for him. He needed the time apart to appreciate her. Once Larken realizes that he is serious, and that this time is different, it makes for a really sweet story (and the sexytimes are great too!) 4 stars.

Alexandra says

3.75/5

So, I wasn't really feeling the love interest at first because he seemed a little too cocky and asshole-ish for my tastes BUT the author pretty quickly revealed both characters have softer, more sensitive sides, as well as an emotionally fraught history. Vince, the love interest, uses his cockiness as a façade while Larken uses her hard, tough exterior to mask a broken heart and bitterness toward Vince over how their past relationship ended. At a few points, Vince pushes a prickly Larken's boundaries encouraging her to be vulnerable and emotionally open with him, which isn't something I'd expected from a book in this genre of alpha Navy/military heroes. I liked having a heroine who was prickly and nursing old emotional wounds, while the hero tries to get her to open up and be vulnerable, and trust him. (Also unexpected was Vince going on a mini-spiel about appreciating rather than objectifying Larken. Maybe I just have low standards these days, but it was kind of nice to have an alpha hero talk about respecting the heroine.)

I ended up liking both Vince and Larken, and how their romance blossomed (and was resolved). I just wish it had been a bit longer because I wanted to hear more about Vince's background (he's Cuban-American, I would have liked to have gotten more on that) and the family business he's been tasked with running.

I knocked .625 of a point off for my initial reaction to Vince and another .625 of a point over the fact I wished the novella was longer. This was a solid read and enough to get me interested in the author's other work.

(I read a different edition than the one listed on Goodreads, so I added it. The paperback cover is the same as the kindle one found on Amazon.)

ETA: One more thing! There was the trope where the hero spoke in Spanish when he didn't want Larken to understand what he was saying, BUT she learned some Spanish since the last time they saw each other so she knew all the romantic stuff he was saying about her. ??? Totally my jam.

Jessica Alcazar says

ARC provided by the author for an honest review

From the moment I first saw the cover to this story, I **knew** it was going to be **HOT** . And it didn't disappoint. The first thing that popped in my head was ... "oooooooo, a Latin guy!, that's gonna get feisty". I didn't even know the lead's names, but I still **knew**. And feisty it was. But not exactly for the reasons I predicted. You see, I'm a Latin girl and I **know** Latin men. I was expecting machismo (strong or aggressive masculine pride) fireworks, but what I got was a firework display of **strength, friendship, love, equality and sexy hot sparks** ... **BOOM!!!**

Twelve years ago, two very young kids had a fling. Neither really *left* each other, life just happened. They were *really* young and in true typical **19 year old guy** form, Vince let Larkin slip through his fingers. And in typical **19 year old girl** form, Larkin let it happen. So I'm not sure I would label this a **second chance romance** as much as I would label it a **right time ~ right place romance** . And what a beautiful place and time it is. They both needed to go out in the world and do what they were meant to do in order to come full circle and be who they were supposed to be for each other. And it worked out perfectly. The universe always does :)

This is the story of Vincent Nash, Navy SEAL recon specialist and Larkin White, expert sharpshooter and sexy as heck ex-girlfriend! Vince has just finished with a tour in the Middle East but needs cash in a bad way to help his family business. He turns to Rik Amundson for a job. And hey, guess what (lol) Larkin's also one of his employees. so the past catches up with the present and we have ourselves a *fireworks extravaganza!* Both Vince and Larkin are **passionate, alpha, determined, prideful and SO hot for each other that even THEY don't know how to handle it**. But their boss does he sends them off to a deserted island for a day to test their teamwork ! And they pass that test with flying colors **huge grin**

As he laced his fingers into hers, he whispered again in her ear, "Te amo."

This time there was no hesitation before she said it back. " Te amo, mi corazón."

Mona says

In Book #7 FALL DARK : SEALs Undone Series by Zoe York....we have Vince Nash sexy Navy Seal ,and Larken White a sharpshooter..What happens when the two meet after 12 years... is just fun, hot, steamy,, sweet...A little trouble in a good way..

She brings us all this and more....these two heat things up big time...

The last thing Larken expects to see is Vince Nash in Camo Cay. She is not liking it one bit..

When Vince see's Larken after all these years he isn't sure exactly what to say...He knows one thing..he need's this job..Larken makes it pretty clear she wants nothing to do with him? She makes it clear to there boss Rik too..

The plot thickens as Vince wins a poker game, and things heat up....but that's just the half of it. There boss wants them to go on a deserted island, but there is something to say about this place... He needs to make sure they can work together, and there past will not be an issue...Can they make that happen? The minute she saw

him..she wasn't very excited to see him...so he has reservations, and so does she...

24 hours on the HOT beach...

Amazing novella. Zoe knows how to excite like no other. Keep watch out for the next book in awesome series..SEALs UNDONE...Must read..

Paula says

Fall Dark by Zoe York has the cocky Vince Nash finding the one love who got away a dozen years or so ago. Though from Larken's viewpoint Vince is the one who left, switching from Army to Navy. Fitting with Vince's brash personality this novella is crude, sometimes rude and completely honest.

The more I read, the better I like Vince and hoped that Larken would too. Because just about the time I have Vince pegged the same as Larken does, Vince blows that perception out of the water. For her part, Larken can be argumentative and cantankerous. Vince is the perfect one to appreciate that characteristic. Together these characters smooth off the rough edges of each other, or melt them since they are hot, hot, hot together.

Only Zoe York would take flawed characters and make you love them. This is an outstanding story. It is heavy on the romance without the life and death situation of a mission.

Maura says

Vince is out of the SEALs to take care of some family business and applying for a job with Rik Amundson's operation on an island in the Carribean. There he runs into Larken White, a woman he had a fling with as a teenager while both were in the army. She's just as hot as ever, but with a chip on her shoulder. He's interested in knocking it off and finding out where their attraction will go. Larken is a bit more bitter, since Vince broke her heart when he left without a word to join the SEALs and never got in touch with her again. But she can't resist his charm either.

This was pretty cute. I kinda wish it was a little longer because even with the history, it felt a bit too much like insta-love. And also, Larken got over his teenage douchebaggery pretty quickly without him ever really acknowledging that what he did wasn't very nice. I think I also would have liked for them to draw out the angst just a bit more...especially after the shooting competition. I still really liked the characters and as immature as Larken's reactions to Vince usually were, I could totally understand them. The author did a great job of sucking you in to Larken's emotions so as much as I liked Vince, I wanted to smack him at times.

Lynn Lim says

What a way to start a new anthology. I just bought a new series of books called SEALs of summer to boxed set. I was gifted an ARC of one of the stories in the series called Fall Dark by Zoe York. Believe me she has done it again! She knows how to bring the reader into the story and making it very real. She takes you on the same emotional roller coaster that her characters are going through. This is what, in my opinion, makes her such a great writer.

This story is about Vince Nash a Navy seal and Larkin white. They met in basic training both sharpshooters 10 years ago. However, Vince left Larkin and went on to be a Navy seal, and Larkin stayed where she was. Although at the time, she was very pissed at Vince for leaving.

10 years later Larkin is still pissed at Vince for leaving. He comes to Camo Bay for a job interview, where, by the way Larkin already works. OH, OH!

I refuse to give any spoilers. You really need to pick up SEALs of Summer, and read Fall Dark for yourself. This really is a great story, and I bet the rest of the stories in this anthology are just as well written. I cannot wait to read them as well.

Thank you for reading my review. Have a great day, and enjoy your reading!

Cally says

This book is about second chances in love. Vince and Larken were young adults when they first started dating but Vince never realised how much Larken felt and cared for him so went off and done his training leaving a broken hearted Larken behind.

Years later Vince goes for a job interview at the same place where Lark en is now working. Larken has tried over the years to forget about the man who broke her heart even when she sees him and her heart and head are telling her different things but as we know you never forget your first love. Vince in the meantime has also realised what he has missed out on after seeing Larken. Vince does everything he can to get his girl back.

This is a beautiful love story about second chances in love. You will find yourself falling in love with Vince and Larken's storym

Trisha says

You found the perfect place to try to live your life in peace and maybe put some broken pieces back together. What happens when one of the biggest pieces, in the shape of a big ol' sexy Latin guy, walks right straight into that peaceful refuge? You have to decide to either pull up your big girl panties or fight it every step of the way with some spicity snarky attitude! Humeantes libro caliente!

Vince is looking forward to a change of careers and hopefully something that allows him the freedom to assist his family form time to time.

Larkin works for a company that utilizes her special marksmen skills in a way that has not been appreciated in the past. larkin also enjoys the opportunity to be detached from the ties of her past lives.

The second-chance romance of Vince & Larkin is one that you won't want to miss out on.

This story has it's HEA and has no cliffhanger. There are characters referenced from previous books that if you read the series in order, it might be a bit clearer.
