Restless & Edgy

Kendall Ryan

Restless & Edgy Kendall Ryan

I'm a retired Navy SEAL, not a babysitter. But my former commander's spoiled princess needs somewhere to stay for the summer. How can I say no after everything he's done for me?

When I get one look at Brynn, I know this would never work. She's not a little girl anymore, and there's no way I can resist her while living under the same roof. I want to fill my hands with her supple curves, watch her sapphire eyes glaze over with pleasure, and hear her scream out my name. Repeatedly. She has to go . . . before I do something to tarnish the little princess.

My plan goes to hell when my ex catches wind of the new woman in my life. To strike back at the bitch who ripped my heart out and claims she can get me back anytime, I introduce Brynn as my new fiancée. Now we have to keep up the act. All summer long.

Brynn has her own agenda. She'll play along, but only as long as I help her smooth things over with her dad so she can win back her freedom. She doesn't want to be here, and it's the one thing we can agree on.
