The Witch Rescues Her Werewolf Cate Dean , Kristen Painter (Foreword)

Lidia Reston's magic is fading.

She hopes that a move to Nocturne Falls will help her find out why – and maybe get some of it back. But when a sexy werewolf crashes into her life – literally – she realizes that the quiet life she had planned just flew out the window. And she learns that there's more than one kind of magic.

Harrison Grey has always been clumsy, and has been the star of many jokes since he tripped over his first branch. Now, as the owner of a shop selling interesting keepsakes to the tourists, he can at least go about his day without embarrassing himself. Until he tumbles at the feet of a beautiful new resident.

Her humor, and her acceptance, restore his belief in himself. When he learns of her recent loss, he helps her find the person she can be, with or without magic.

The Witch Rescues Her Werewolf by Cate Dean

A sweet romance between two broken souls trying to heal in Nocturne Falls. Together they are strong and whole.

A complete story which can be difficult to manage in 100 pages. Complex issues dealt with and resolved. I look forward to more stories by this author.

I love the Nocturne Falls series by Kristen Painter and am excited by expansion of the NF world by Painter to invite author authors to write books set in the NF universe. There are some excellent additions; unfortunately this is one is not one of them. Good but not great. Although the characters elicited my sympathy, I found my reading experience tripped up by the numerous typos, the plot predictability, and the sudden stupidity of the characters to get themselves into trouble just to make the plot work. On the plus side though, I like the fleshing out of a male love interest that is not the alpha male, vulnerable, unsure, and clumsy and yet deeply loyal, protective, sexy, and loving. I love Nocturne Falls so much that it was still a pleasant enough read. I'd recommend it if you need your NF fix and are waiting on series progenitor Kristen Painter to come out with the next one.

I really enjoyed this latest in the Nocturne Falls Universe. The story centers around a witch who is losing her magic and a werewolf that can't shift. These two lost souls find a kindred spirit in each other. The story was a sweet romance, very enjoyable. I was left with an unanswered question at the end - looking forward to her next book to discover the answer! Enjoy!

Tiffany PSquared says

A cute, quick addition to the Nocturne Falls Universe with a lighting quick romance between a witch and a were-shifter that comes along with more than a few strings attached.

I have to say that after Cats and Wolves and Magic's Song, this book was extra disappointing for several reasons. The writing was not up to standard and it was not as smooth and flowing like other books. It did not fit into Nocturne Falls in any way. The story was inconsistent with what we already know and the essence of the place was wrong, dark and negative. Sheriff Merrow was portrayed and incapable of keeping peace. There was a horrible villain and his three buddies terrorising women in Nocturne Falls and his father was so powerful that he got away with everything he did??? I don't think so.

First of all, no one is more powerful than Ellingham family, they practically own the place, and the whole idea is that they created a safe heaven for all supernaturals and Sheriff Hank Merrow upholds the peace with iron fist. They are not human and they do not adhere to human laws. If there was a person that powerful in Nocturne Falls, Kristen Painter would have already mentioned them. And if there was a villain who preys on women, Merrow would have dealt with him after the first time, in whatever manner he saw fit, and no powerful father would be able to interfere or threaten.

Moving on to other issues, physical intimacy, for example. Couples in Nocturne falls never go beyond a toe-curling kiss or naughty thoughts in relation to a particular hottie, and that is why I like to suggest them to my friends teenage kids. Don't get me wrong, I very much enjoy occasional erotica, but Nocturne Falls is not the place for it.

So I tried to look at the book as a standalone, outside of the perimeters of Nocturne Falls Universe. That made it a bit better. The writing is still not amazing but the story became better. The two characters Harrison and Lidia are both broken in a way. He is a shifter who was unfairly injured, had no support, other shifters avoid him, he is clumsy and has no luck with women. Lidia is a witch who escaped to nocturne Falls from an abusive relationship and to find answers as to why is she loosing her powers. They meet and instantly feel connected and as the story progresses, they become more confident and stronger and better because of each other. Unfortunately, there are still some inconsistencies and the story feels a bit forced.

The Nocturne Falls reading order is: The Vampire's Mail Order Bride (Nocturne Falls #1), The Werewolf Meets His Match (Nocturne Falls #2), The Gargoyle Gets His Girl (Nocturne Falls, #3), The Professor Woos The Witch (Nocturne Falls, #4), and The Witch's Halloween Hero (Nocturne Falls #4.5) in Spell of the Ball Anthology, The Werewolf's Christmas Wish (Nocturne Falls #4.6) in Hex the Halls Anthology, The Vampire's Fake Fiancée (Nocturne Falls #5), A Vampire's Valentine Surprise (Nocturne Falls #5.5), Miss Frost Solves A Cold Case : A Nocturne Falls Mystery (Jayne Frost #1), The Shifter Romances The Writer (Nocturne Falls #6), Miss Frost Ices The Imp : A Nocturne Falls Mystery (Jayne Frost #2), The Vampire's True Love Trials (Nocturne Falls #6.5) in Taming the Vampire collection, Miss Frost Saves The Sandman : A Nocturne Falls Mystery (Jayne Frost #3), The Truth About Cats And Wolves: A Nocturne Falls Universe story by Alethea Kontis, Magic's Song: A Nocturne Falls universe Story by Sela Carsen, The Witch Rescues Her Werewolf: A Nocturne Falls Universe story by Cate Dean, The Vampire Bounty Hunter's Unexpected Catch: A Nocturne Falls Universe story by Larissa Emerald, Reaping The Immortal: A Nocturne Falls Universe story by Pamela Labud and Close Encounters Of The Alien Kind: A Nocturne Falls Universe story by Fiona Roarke. I absolutely love Nocturne Falls! This novella is part of a Nocturne Falls Universe where certain authors write a story with Kristen Painter's beloved characters. This story is a great extension of the Nocturne stories. This story follows Lidia and witch on the run from her past and controlling ex, and Harrison a wolf shifter who can't shift. I loved this story.. I wish it was longer. I want to know more about these characters! I love

how Cate incorporated the already existing characters that live in Nocturne Falls, she was able to keep them true to themselves! I believe I might have found a new author to check out and visit her world for awhile.

Christine Lee says

I received an advance reader copy and I voluntarily reviewed.

The Witch Rescues Her Werewolf is written by Cate Dean in the Nocturne Falls Universe.

This is a fun story about a clumsy werewolf and a new witch in town. Harry and Lidia are likable characters from the start.

Cate Dean incorporates her story into the Nocturne Falls Universe well, and you encounter quite a few regulars from Kristen Painter's series'.

Lisa Guertin says

Lidia and Harrison make a great a great couple since they complete each other. Harrison isn't your typical hero, which makes for a nice change.

Heidi says

This is one of the books in the Nocturne Falls Universe set in Kristen Painter's Fictional setting of Nocturne Falls. Cate did a wonderful job integrating into Kristen's universe and I really enjoyed her characters. There was one character I wished she had given more background to. (Jared).

I look forward to more NFU books from Cate. Hopefully she gives more background into Jared.

Due to the lack of background on Jared I give this book 4.5 stars rounded up to 5.

Suzan says

I really enjoyed this book and loved the characters, although I do wish there was more of a resolution regarding their abilities at the end.

Jaime says

I loved this story! It was sweet and funny. Lidia is a witch who moves to Nocturne Falls to escape a relationship gone bad and to try to find out why her powers are fading. Harry is a shifter who is unable to shift after an attack when he was younger. Neither of them were looking for the other but after meeting neither can deny the chemistry they have or the bond that exists between them. They decide to save each other.

A great story about how no one is perfect and love will find a way, flaws and all.

Sue Brooks says

OMG - these just keep getting better and better. The Nocturne Falls Universe series is amazing!!!

When Lidia Reston shows up at Nocturne Falls, she was getting out of a bad relationship and looking for a new start in life. Her magic was fading and she had no idea why -- but, feared it had something to do with her ex. Then she met Harrison Grey - who was clumsy and sort of landing right in front of her. And boy -- did they connect!!! Not gonna say any more - but, you really need to take the time to read these spinoffs from the Nocturne Falls series.

I was given a copy of this book for an honest review.

Runningrabbit says

Not terrible but not terribly good either. A bit staccato and a very basic romance. The characters are likable although somewhat stereotyped, but no complexity and nothing that leaves you guessing.

Deniz says

Kristen Painter has extended the Nocturne Falls Universe and got a bunch of authors to write novellas. I think they are a must read for fans of the Universe. And also a great way to discover new author- or at least to me they were all new authors.

A cute novella- BUT: Let's just get to my biggest problem: the romance. It's insta-everything. I mean I know this is short and all, but does it all have to be this insta? Couldn't it be a wee bit more slow. I get the insta-lust. I am cool with that. But the one and only vibes... after a few days? Not my thing. However besides that I enjoyed this. It fits right into Painters world. So defo a must read for fans.
