The Last Judgement (Harker Chronicles Book 3) R.D. Shah

The dead are rising. The world hangs in the balance...

A man holds a gun to Professor **Alex Harker** in a Cambridge University lecture room. He wants to know about the mysterious **Codex Gigas**. But before Harker can learn more the man shoots himself, threatening Harker's girlfriend Chloe as he does so.

Soon Harker is deep in a life or death struggle that takes him to Berlin, Italy and France. It seems that, thanks to the Codex, the dead are rising. It can only mean one thing: Judgement Day. Or does it?

In a game of crosses and double crosses, Harker doesn't know who or what to believe anymore. Behind the lies, behind the Vatican, behind the Codex, is the most terrible puppet master of all...

The third book in R.D. Shah's Harker Chronicles is a white-knuckle thriller perfect for fans of Dan Brown, Scott Mariani and Chris Kuzneski.

Sue says

This was never going to be great literature but it is entertaining and a rip-roaring action adventure which requires rather a lot of belief-suspension.

It is certainly fast-paced and could be described as a page-turner in the Dan Brown / James Rollins style. However, it is fantasy and anyone who imagines that the 'biology' featured in this book could actually happen must have failed their GCSE Biology exam dismally. But never mind - it's fiction so who cares!

The story revolves around our hero - Alex Harker - and several of his friends, chasing after some missing pages from a 'codex' supposedly written by the devil, and able to bring the dead back to life. They are being chased by not one, but two shady organisation, both highly secretive, one good and one bad.

The main characters all have back stories and personalities. Almost all the characters are male except for the girlfriend Chloe - a largely absent 'damsel in distress' - and two female baddies who don't feature for long.

The plot is mostly over-the-top fun and has quite a few twists along the way; it's a bit gruesome in places though. This is book three in a series and there are many references to the two previous books, so although this could (just!) be read as a stand-alone book it would be better to have read "Relics" and "The 4th Secret" first. In summary, it's a rollicking adventure and well worth the time if you are willing and able to suspend belief. 3.5 stars.

Michael T. McCabe says

A captivating close

Nice to have answers while guessing through the last printed word. Remaining questions leave earned possibilities. Left wanting more without feeling anything was omitted.

Doug Bane says

Book 3

As the story goes on. We learn more twists and turns. Fast paced and keeps you wanting more. .looking forward to the adventure

Steve barclay says

Good read

Enjoyed the story , as always there is a good ending for the hero the details were enjoyable and makes you think how much it is based on fact

John R. Dailey Jr. says

A GREAT ADVENTURE IT IS....

Hello, I really like these stories. However, I'm a little disappointed in them at the same time. I would like to see a good dose of magic, sorcery, divine intervention and/or something along those lines. I think it would do all the characters a lot of good. Just my thoughts. Thanks.

Dwight Weatherford says

Intriguing concept of good vs evil

This book even though fiction makes you think about the hidden battle between good and evil in today's world. Is there some unseen war going on right under our noses and we are either too stupid to see it or we don't want to see it. I personally believe that is in fact happening, so the true question is this. Is the book really totally fiction?

Roger Dufresne says

The Series is Over? Say It's Not, Please

Each of the 2 books following the introduction, just got better and better. Each of the books had new characters introduced that seamlessly fit into the whole series. The only character, albeit, a minor character named Albert, had an inconsequential role.

Loved the Series and I initially purchased the first book because it appeared to deal with one of my favorite groups, the Templars.

After this review is written, I'm going to be looking for books written by R D Shah. And to think I initially thought that his first book would be like a Dan Brown book. Was I ever pleasantly wrong.

Hamish Brown says

Page turning finale.

The book hurtles from one set piece to the next and leaves the reader breathless. Gripping and satisfying. A good read.

Den says

I am reviewing this book for R.D. Shah, Canelo, and NetGalley who gave me a copy of their book for an honest review.

Despite being the third in the series, it can be read by itself. It does refer to other events but these can be glossed over. It is a fast paced adventure book

The main character, Harker, is searching for some missing codex pages and obviously baddies are also trying to discover them. Quite a few twists and turns to keep you thinking.

Barbara Hogan says

Wrapped Up

Very imaginative and intriguing. It kept the reader looking for the next chapter. Mr. Shaw has a diabolical mind and shared it well. He wrapped up the story line with just enough to keep I the reader wondering. what's next. I trust we'll see less grammatical errors in new works.

Suzanell says

Next in a creative series

Good story-

Nice plot twist but again frustratingly weak copy editing. Character of Chloe was a bit thin. But good for a summer book.
