Fowl Play R.J. Blain

Instead of a quiet dance retreat where she could escape the insanity of being the daughter of an angel, a succubus, and a lycanthrope, Emma Sansaul plummets into the middle of murder, mayhem, and mischief. As becoming the next victim of a crazed serial killer is not on her itinerary, she's left with no choice but to join forces with Agent Kenneth Bernard to find the murderer, the one man on Earth capable of making her hissing mad one second and in need of a cold shower the next.

Warning: This novella contains humor, romance, magic, puns, bodies, and a short detour from reality. No plots were harmed in the making of this story.

Brilliant as ever

I can't recommend this series highly enough. Well thought through but a constant surprise to the reader. Really, truly funny, with some of the sharpest dialogue.

Fowl Play

A quick and fun read. A FBI investigator who can dance, a heroin with a triad for parents (an angel, a succubus, and a lycanthrop swan).... add in a serial killer and you have a magical romantic romp with a satisfying body count.

R. J. Blain is a very hit-or-miss author for me. When she's writing about crazy situations that the characters get themselves into, the stories can be hilarious. When she's writing dialogue, they are torturous. And when she tries to explain how the magic works, the contorted explanations don't always make sense. I like the world she's built, and I like the slapstick, crazy-mishaps humor. I HATE the repetitive dialogue. If two characters have a conversation, then one of the characters calls a third character, under no circumstances should the reader be subjected to the first and third character having the exact same conversation the first and second character JUST HAD. The author does this ALL THE TIME. It's infuriating to read. Every time I read a passage where she makes this mistake, I waiver on whether it's really worth it to keep buying and reading the stories in this series. When she does focus on action, they can be really funny, but ONLY when she cuts down on dialogue and focuses on action. Her dialogue is MUCH too repetitive and all the characters have the exact same sense of humor. I'm on the fence.

This one is a murder mystery at a dance retreat in a fancy hotel. The heroine has 2 moms and a dad who are top-tier meddlers: an angel, a succubus, and a swan shifter. The heroine hasn't shifted yet, but will eventually. The succubus mom took her out to a bar and doused her with high-grade pixie dust prior to the beginning of this story. At the police station, a hot detective met her while she was high. Here's a problem with the writing: this hilarious scene is described briefly as something that happened before the story. It should have been the beginning of the story, and spelled out more. The author takes shortcuts like that too often, favoring bad dialogue over funny action. Anyway, the heroine is a professional dancer and both she and the detective end up at dance camp, but don't get to do much dancing because dancers are dropping dead left and right, and all of them resemble her. She gets recruited to help solve the mystery.

What a treat to wake up to. As always these make me laugh and there's one released a month? Yay, although I missed the owl one so gotta fix that. The humour and character creation is perfect. Could've been a little longer but apart from that it was a great, fun read. A parental triad of angel, succubus and lycanthrope, a serial killer and a provoking FBI agent. Can't wait to see what combinations come up next.

Great Story!

Great story! I really enjoyed every aspect of this story. The characters are extremely amusing, the mystery had me guessing right up until the end and seeing how everything wrapped up was extremely gratifying. I hope we are more books with these characters!

Kathryn says

We're still on serial killers but this book gets back to the humor I loved in the first books.

Can the daughter of an angel, succubus and swan lycanthrope find a way to live her life without her interfering and overprotective parents butting in? Emma's dad wants her to be a lawyer like him but her joy is dancing. On the way to a well deserved break at a dancer's retreat, she runs into the FBI agent her succubus mom had embarrassed her with. They keep getting thrown together but then a murder pulls them away from fun and games.

Love this series ... each and every one

Denise Fisher says

Any book that's what she calls a romcom is wonderful funny! Her other books are really great.

This was another book I could not put down. Read fast right after finishing yesterday's. I don't know or care when I get something done. I love all the ways she's enhanced the paranormal world her own way. Some of it is just hysterical! I loved everyone but the expected bad person. I'm glad she publishes a book a month, but I'm greedy. I want one a week!!

An angel a succubus and a swan... sounds like the start of a joke

I do truly enjoy the interaction of characters, the way the storyline flows. I like the fact that the world knows about all the supernatural beings

Have you ever wondered what it'd be like to have both angel and succubus as a mom with a lycanthrope as a dad? Emma Sansaul can tell you all about it. All Emma wants is to have some alone time from her family and dance at her week long retreat. Instead she's stuck helping an annoying FBI agent solve a murder, dealing with her folks trying to sell her off to said agent and keeping her own hands off of said agent. I did find the story a bit jumpy and had to read two of the scenes a couple of times to see where the author was taking us. I do enjoy this series and find them a nice departure from every day life.

This series is irreverent, full of snark and the laughs are contagious, much like the virus that runs rampant through the stories.
