Billionaire: Part 3 & Part 4 Juliette Jones

Lila hardly recognizes herself. Her raging lust for Alexander has transformed her. She finds herself coveting her new lover more than she had ever thought possible. So much, in fact, that she can't wait to leave her painful past behind, move in with him, and allow him anything he wants of her.

Alexander can only hope that a week in Paris, alone with Lila, will cure him of this full-blown obsession. He assures himself that his intentions are purely to pleasure and provide for his new lover, and not to cloister her in a protective cage of his own making. In the past all he ever wanted from a relationship was self-serving convenience. But Lila has redefined every craving he has ever known. He wants to worship her and to own her. How far will he go to gain total control?

Gloria Herrera for As You Wish Reviews says

This review is for the complete series of Billionaire.

Explosive, raw, lustful, erotic and emotional are but a few words that come to mind when reviewing this book. The combination of Lila Carmichael and Alexander Wolfe is highly combustible from the moment he begins to interview her for the job of his assistant.

This is erotica with a great plot line. These two characters literally cannot keep their hands from each other. Some of the scenes are so hot you will think your house is on fire.

They both appear to be as far apart in the social class as is possible. Yet, when they start sharing their secrets, they find they are more alike than they originally thought. They both come from disrupted childhoods where abuse, fear, hunger and finally escape is a reality. They each worked hard to remake their lives and build a future they would be proud of. They are kindred spirits, communicating through their bodies and building a connection that goes deeper than their lust for each other.

Definitely recommended... look for my review of Honey Girl the sequel to this story. This story just gets better and better. The sex is still hot, but the plot line just blossoms into a more gripping story yet.

4 stars!

I don't find her slutty, well maybe a little slutty but not a whore when she wanted to bend over and flash her undies to Alex's friends! Oh gawd! When Alex bit her ***** in front his friends...it was totally arousing! gosh what the hell am I saying!!! I didn't feel any disgust towards her, or about what happened on the poker table. It was very well written, I swear, if it was written by somebody else, I wouldn't have felt that way.

I love how he couldn't get enough of her, that he couldn't stay away and didn't want her out of his sight!

I was actually reading 3 novels, I stop then read another one then stop then switch to the other one, that's what I do when a novel ain't that interesting, so I started with this one and I dropped those 3 novels. None of those could get me to focus, but this novella is just....wow, I got hooked!

There's like 10% conversation and 90% Internal Dialogues, and I totally hate long I.D's but shit! In this book, I don't friggin care! the character's thoughts are that interesting and I didn't get bored. AT.ALL!!! If I could just tell those authors who loves to write long boring I.D's to read this book, I would!!

PWP. Sex, sex, and more sex!

The Book Junkie Reads . . . says

Alex knows what he wants/desire and is more than willing to make it all happen. Lila is an exhibitionist to the core, maybe she was not completely sure of it, but now she most certainly knows. I give her the best of props for taking control of what she wants.

Jones gives me more and evokes provocative desires that can be dreamed about and later experienced.

A definite 3.5 Nutella jars

Like wise the story continues with Alexander and lila being completely consumed with each other . Honestly I can say that the story is slowly progressing which is great and no I'm not gonna rant about the lack of personal conversations they should be having or how fast the book is moving but what I do absolutely love is,how Alexander is in complete awe of lila which as we all know Alpha males don't open up until the second or third book which for me was a HUGE PLUS POINT (I am forever grateful to the author for showing that an alpha male can indeed have a heart of gold and can be absolutely smitten with their respective others)

Alexander was darling and lila my lovely lady was just fabulous, yes they did it on a poker table with 'HIS' friends watching and maybe touching but I wouldn't put her in the category of sluts but instead "I'm completely taken by this man that I don't give two shitts about anyone but him" (I know big category) but she's just you know a women ,we can be strong and bitchy but we're also committed to our respective others which is perfect:D

on that note yes book one and two start off not that interesting but by book 3 and 4 you'll come to love the story :) p.s on that note I will point out the friend should arse whoop our heroine for going MIA on her but besides that it's all good :D

5 holly-out-of-this-world-steamy stars!

That was one of the most impromptu sexiest scenes I've read!

Oh my gosh, I was so excited that this was 2 installments in one. I have currently read up to book 5 and just realized I had only rated one book (book2). So the fact that I can remember what happened in each one is pretty telling. This is like that go to series when you need that little extra hotness cause besides the steamy scenes there is also a story that just keeps giving you just enough to keep you wanting more and that is where I am wanting more and so will you!

Feeling like Lila has done a complete metamorphosis in character here which could be construed as unbelievable in real world...Good thing that this is the world of fiction! I mean seriously...getting down and dirty with his friends after having spent x years as an uptight virgin? I couldn't help but wonder how far would she have gone if HE hadn't put a stop to it. Was she really THAT caught up in the moment? I actually applauded Alexander in this instance for being the good guy and wanting to make matters a bit more private...I do understand that this might be the author's way of getting Lila to break out of her normal shell but I think it could be seen as bit too much too fast? I don't mind getting down and dirty sometimes but the moment should be right and not rushed... Slow and steady is sometimes a bit better than fast and ready:P All in all...still a pretty decent recent read hotness wise:P

This was a ok read and I think it was better than the first two. This book was longer although I think that all the books could have been one book.
