Other People's Weddings Noah Hawley

A modern love story about a woman who photographs other people's weddings and meets the ultimate party crasher Laurie is a wedding photographer who has photographed more than a thousand weddings during the last ten years. At one of them, she meets a man who has sneaked into the proceedings. They share a spark, and then he is gone. She finds pictures of the crasher at eleven other weddings she has photographed and wonders if his propensity to crash weddings is sweet or creepy. She finds herself looking for him at every wedding she photographs. When he appears again, a romance begins between them. Through their courtship, glimpses of her past emerge. Laurie must tear down the walls she has built to have what she longs for.

From Reader Review Other People's Weddings for online ebook

Sarah says

It was fine. You can tell he's a screenwriter. Main character a bit over dramatically broken. Everything very well described yet at arms length, despite that it's written in first person. Maybe I'm too used to third person omniscient?

Susan Libanio says

Noah Hawley, of the Legion and Fargo tv series fame, is a gifted, imaginative writer. Laurie tells her story convincingly: more than once I had to remind myself that Noah Hawley is a MALE author. A very intelligent, philosophical, wise male, who can write a mighty steamy love scene! This was an EXCELLENT read. For everyone who has ever loved and lost, this book is for you. You will identify with the heroine, laugh at her crazy sister, Lisa, and bite your nails in torment over Laurie's walking-wounded love-interest. Will they or won't they? Read it and find out! I was very glad that I did!

Laura says

DNF I'll try again later

Lorna Murray says

I enjoyed this book. the redemptive narrative and the descriptions of overwhelm of emotions, but I wouldn't rave about it. I would however read other books by this author, as I trust the mate their recommender

Susan says

I really enjoyed this book; in many ways it reminded me of The Silver Lining Playbook: scarred people who find happiness together

Gail Sands says

This is not a chick lit book. It is about desperate lonely people looking for love.

Romi says

Where has this author been my whole life? He's absolutely unbelievable. I've now read three of his books

(the only three?) and his writing takes my breath away...and his story lines are completely believable and compelling. Beautifully done.

Sheila says

This is good writing and I consumed it like candy, but it's really a very rich and nutritious meal. Noah Hawley has moved on to success with the Fargo series, but in this novel from 2004, you can see he knows what to do with words. "...the stories that make you who you are, are precious. They're worth being miserly with, worth protecting. If you tell everyone you meet your most private thoughts, your most painful memories, it cheapens them. Turns them into anecdotes." The jacket of my volume says he adapted it into a screenplay and it was optioned, but as a project it must have floundered. If you can find this one, read it anyway. The story is engaging, but the writing is the biggest treat.

Heather Mills says

This wasn't my favourite book of his though I liked that he wrote from the woman's perspective. Not as engaging or intriguing as *Before The Fall*.

Susan says

Do not be fooled by the chick-lit style cover, this is not a beach read. Very dark, very emotional first person narration of a very damaged life. Beautifully written in the way Hawley has exposed his protagonist's deepest insecurities and still has us believing in her.

Carole Landry says

A wedding photographer has worked at her job for almost ten years but lately is becoming disillusioned about love. She begins an art project in which she revisits couples she photographed at their weddings to see how the marriages fared. Now she is photographing them in divorce court, or years later with their children trying to discover that elusive element that makes some relationships work and others not work... all in the effort to try to examine why her marriage failed and how to save the relationship with her new love. This seemingly lighthearted read soon turns deep and serious.

Joe says

Girl meets boy, girl gets boy, girl loses boy, girl gets boy back. But here, the girl and boy are incredibly broken, so their journey is more than a little difficult. An endearing enough story, but one that seems better suited to a TV movie than a novel.

Katja says

Good story, some cringy writing here and there.

Anna Penney says

This might look like a chic flick but it is not at all. It is a wonderful read on how past relationships affect our lives and reinforces your opinion on how ridiculous wedding ceremonies have become

Christi L Ellwood says

So Dang Good!

Keeping this one forever! This book joins the ranks of my few favorites! Noah Hawley is brilliant. Thank you, sir.
