The Garden Alexie Aaron

The PEEPs team (Paranormal Entity Exposure Partners) has finally taken on a paying investigation. The owner of an isolated mansion wishes to donate the lease of the property to be used as an abuse shelter. There's only one problem, it's haunted. From the maids perpetually making up the beds to a banshee screaming in the upper hall, this house is more than hot with activity, it's boiling.

Mia, Murphy and the team take on ghosts who not only want to harm each other but all those who tread upon the floorboards of their home. They no sooner rest one ghost when two more pop up. It's a whack-a-mole game with dangerous consequences.

A house filled to the brim with paranormal activity is one thing, but then there's the garden...

This is the fifth book in the "Haunted" series.

Another great one

I love, love love this series. I started about 3 weeks ago with book #1 and about to start #6. The haunted house in this book was really different. The house had more nooks and crannies that made it fun and scary. I love the PEEPS and want to join the group. Read this but start with the first one.

This is the fifth book of the "Haunted" series, it follows "Darker than Dark." The setting is a haunted house with a haunted garden. For those who have followed the series, I thank you for your support. If you are picking up one of my books for the first time, welcome. Suspend your disbelief, and sit back and enjoy as Mia, Murphy and the PEEPs team investigate "The Garden."

Very gothic

crazy ghosts, buried treasure, marriage proposal, cold murder cases, serial killer, possibly new characters. this book had it all. loved it.

this Series is so worth the sleepless nights!

I'm a slow reader and started this series about 2 months ago with book 2. I haven't been able to stop reading! The characters are funny, serious, smart and the stories have so much going on there's never a dull moment. I love this series for the ghosts, mysteries, suspense and humor! Staying up late and reading has become a bad habit since starting these books!! :)

As much as I have enjoyed the theory of the series, I'm quitting at Chapter 17. I cannot justify paying for books any longer that are poorly edited/riddled with typos and grammatical errors. The series thus far have been an easy and thoughtless read. Due to the books' lack of editing, I'm disappointed that they are not included in Amazon Unlimited or that there are charges for them period. Although the books have been somewhat entertaining, I refuse to fund this author who utilizes "gate" instead of "gait"; hate to break it to you but "Burt noticed and slowed his gate so she wouldn't be alone" is just awful! I find it rather distasteful to use a vocabulary of besotted, abhor, pedantic, barista, detritus, etc redundantly in the book (okay so far

I've seen "barista" used once) but then write "...you're messing up my hairdo." If you're giving your characters intelligence and a great vocabulary please refrain from "messaging" and properly utilize "mussing". I could go on and on. As much as I'd love to find out what happens to the characters in the series I refuse to pay for the books at the price for esteemed authors. Alexie Aaron has really disappointed me because I was impressed at the first volume in this series. Unfortunately each book there after demonstrates that she is truly an amateur and/or her inability except for a use of a thesaurus occasionally.

I stick by my reviews of every other book in this series; The Garden is a really good ghost story but it is spoiled by awkward character interactions. I assume it is supposed to be some sort of witty sarcastic banter but it comes off (to me anyway) as nastiness.

I hope in the next book the author can get the "people" side right, because the "ghost" parts so far are amazing.

Maxine says

Did I love it ?- Yes!

Am I immediately going to read the next one in the series? - Yes!

Am I becoming a PEEPs bore? - most definately!

These books are so easy to read , and very good fun, it does help if you read them in order though.

house of horrors, the owner is a mass murderer who is demon possessed. but not responsible for the evil entities haunting both the house and grounds. re-read february, 2017..still a fascinating tale of madness, obsession, murder, hatred, perversion...

Awesome as always

I am absolutely hooked on her books. Each one is awesome and different settings. I can't wait to get to the next one. I love the PEEPS group . They are so cute together and funny. They work together like a smooth running machine.

Twist. Turns and burns

What could happen next. A lot. Just when the calm before the storm comes the lightening strikes keep reading as fast as you can don't stop to take a breath. The ghost are watching

Samantha Cordia says

Her stories are always intriguing.

Enough mystery to keep me guessing with enough romance and humor to keep me reading. I don't think it could be better.
