Okay no one tell Diane but I kinda envy her ability to get inside these guy's heads. Jared shows his vulnerable side, Alex turns eighteen, we have private moments, public moments, family, and the usual supporting characters that weave in and out of the story seamlessly. Add in the Stevie story and I couldn't put this damn thing down and I may now need more chiro for my shoulder...

On a serious note, I always say Diane is a poet when she writes. The images she creates in her words always leave me wanting more...

Good thing I get first dibs on her writing when she is doing her WIPs, otherwise I would go MAD wanting to know what the next chap in these guys' lives could be...

Well done my friend, awesome chapter in their lives...

Well I'm on my journey with these two guys and I'm starting to dread the finish line. A friend told me these get better as they go along and she was right. In this part of the story Alex is 18 and Jared starts the story (after the usual present day prologue) by surprising Alex at his prom * sigh * but this is also the night he lets Alex know that he is ready to take things further! The love scenes hot up in this volume but certainly not in a smutty way and for me the love and sexual tension is so palpable it made me tingle - many times! There are still some issues to work out and there's a sad episode for Stevie and Clark but once again this beautiful love story pulled me in and kept me reading catch up
Into the early hours! :)

This was definitely the best of the Making of a Man books yet. Alex is now 18 and legally an adult in every way. Jared arrives at the school to take Alex to the prom then to his hotel room for their first night together. All of the characters that we've come to know and love or hate are woven into the story perfectly. What made this book the best to me was that Ms Adams showed the reader Jared's damaged, more insecure side. It is Alex this time who took control by supporting and loving Jared through his dark time. Alex and Jared finally became equals. The scene in the cemetery and the scene with Jared's Mom and Alex were particularly well done and touching. If you have been avoiding this excellent series because you think it's a twink romance, get over it. The sex sizzled in this book and the depth of the characters that Ms Adams has created rivals anything has been written by the more well known authors lately.

First I hate the facial hair on the guy in the background. Looks a bit creepy IMHO

That said I flipping **Love** this book and **Love** these characters. I cannot get enough of them. This is the best story so far IMO and i love watching these guys develop and grow as characters and they feel so real to me it is like I know them. I loved getting to know Jared better in this one. He really frustrated me a bit with his reluctance to reveal his secrets but the story was great and we got to see a more vulnerable side of J.

This book had some darker moments but it was also had some of the sweetest too. As much as J frustrated me at parts he would say the sweetest most heartfelt things that would leave me crying. Yes i was crying with in the first few pages and cried most of the way through it. Mostly because it was a sweet good cry but there were a few angsty sad cries too.

I cannot recommend this series enough. If you haven't read them you are missing out...I just love these guys and am excited we get four more books to get to know them even better.

Third book and its still going strong. But WOW wasn't expecting the story line off shoot. Still loving the two main characters, had a few tears but of the good kind as well as the sad. The whole prom thing was so sweet, and the whole not being able to say the words thing was so adorable. But the bit that really choked me up was Jared at his dads grave. The emotions felt so real. Sorry I really don't want to put out any spoilers. Can't wait to read more. Longing to find out if Alex's mum followed through on her threats or not.

Waiting impatiently for more lol.

Second time around and this story loses nothing, I'm ready now for Clarks story. I'd forgotten what a great character he was, after all its not his fault he's not gay LOL.

Oh and Jareds growl? Sooo hot and yet soooooo cute lol.

ETA Still a tissues needed read. Jared really is bloody perfect lol

[And it's not just the fact that "yay! Alex is finally 18! Let the sexy times begin!" (although not gonna lie, I LOVED it all. And I kinda loved that they didn't do the all the way on prom night cliché, but later on and making their own perfect moment like how Pi Day is Thei

Jared and Alex's story is:

I loved this 3rd book. Alex finally graduated from high school. I loved when Jared surprised him on prom night, Alex's reaction was priceless. He was not expecting it and finally other students believed that he truly had a boyfriend.

Their first night together on prom night was so enjoyable to read. The sex scenes were sensual without being smutty and when these two got their hands on each-other they went all in.

I've been kissing you for three years. That's enough foreplay even for a chick. Tonight, I plan to suck your brains out through your dick, and I hope like hell you won't mind returning the favor"

The writing style is different it includes their present day relationship and the beginning of their relationship and how they grow together.

This truly is a wonderful series. I would love to have friends like Jared and Alex in my life. Can't wait to read the 5th book. I will be skipping over the 4 th...too much angst with Clark and Stevie....and it's m/f ...ewww....lol

Oh who am i kidding....of course i will read it ...lol

Ami says

"Takes more than one little orgasm to kill a three-year-old erection."

This is the story when Alex finally hits that age. He's 18 and in Jared's mind, Alex is now legal. With that sentence above from Jared, I have to admit that I'm slightly worried that the story will all about seduction and sex scenes. I have a little issue on that since I have my own preference on what romance should be and that doesn't include sex in every chapter. But I should have more faith to Diane (and apologize to her *grin*) because she throws some curve balls and proves my concern is unbiased.

Jared does show a bit aggression in the beginning, surprising Alex by coming to Alex's prom, taking Alex to a hotel afterwards (the scene where Jared asks permission from Alex's father is one of the most amusing scenes here), then planning to seduce his young lover. I'm a bit surprised with his words ("*Dude, I've been*

kissing you for three years. That's enough foreplay even for a chick. Tonight, I plan to suck your brains out through your dick, and I hope like hell you won't mind returning the favor") but Jared has been patient, and pretty much celibate, for three years, I guess he's entitled to be enthusiastic.

Then the curve balls come, Jared is not ready with sex with penetration, apparently holding a secret that he's not ready to share Alex. In addition to that, there is a shocking event involving Stevie, Alex's and Clark's friend. Plus, Jared's inability to say the three little words, even if he shows it through his action but for Alex, that becomes a big issue.

All of these create a more complex story, rather than simple "Jared and Alex should seal the deal" thing. Because when the moment comes (after Jared reveals his secret), it is that ONE PERFECT moment, that is not only beautiful and heartwarming, but also brings my eyes all teary. And as always Diane opens and closes the story with Alex and Jared in the present time, showing how their love for 15 years is as strong as the first time (if not more)

It's another winner ... and I cannot wait for the next chapter in Alex/Jared life.

PS: I do notice a couple of typos, could do with better editing, I guess *shrugs*

Snowtulip says

Once again, I am so pleased after reading about Alex and Jared. Adams is able to capture the love that is shared and the maturity that each has grown into. Stevie absolutely broke my heart! The method that Jared uses to capture memories is brilliant and made my heart stutter.

The snippets of present time at the beginning and end of the book always manage to sooth my heart and remind me of the happy ending. I truly enjoy learning about the road that leads to that. Can't wait to read the next book!

Diane - you did it again. I will never ever get tired of Jared and Alex.

Craig Sharp says

Stronger in Your Hands (The Making of a Man, #3) by Diane Adams is another wonderful story in the series. Diane has a remarkable talent for intermingling the history of her characters with the present-day story line.

Elsa Bravante says

Sigue la historia de Alex y Jared, con los mismos clichés y los consiguientes ojos entornados. Pero a estas alturas ya no lo puedo evitar, quiero saber qué pasa con ellos, y son tan dulces...

Bev says

This series is getting better and better. I love the fact that the two guys are just **head-over-heels for each other**, and although there is a slight problem because Jared can't bring himself to say those three little words, his many actions speak louder than words, and for the time being, that will suffice.

This book tells us what happens when they do finally have sex because Alex is now 18 and has graduated, and they've both waited long enough. We discover why Jared isn't keen to have full-on sex, and whose fault it was. We find that Clark and Stevie are still working for Jared, and things are just about treading water for them, Clark loves her desperately, but Stevie keeps him at a distance, even though she apparently loves him too. We discover that unfortunately Alex's mum is still alive, but as stupid and ignorant as ever. Alex's dad is still marvellous and Jared's mum is as sympathetic, loving and helpful as she can be, a complete opposite to 'the hated one'.

Stevie is once again attacked by her mother, and is so badly injured that Jared takes her into his own home after her release from hospital, because she has nowhere else to go. She wants nothing to do with Clark or Alex, and only trusts Jared, which of course is doing zip for everyone's love life. She eventually admits to herself that she needs professional help, and goes off to a sort of 'halfway house' to get that help. Clark is sent away by Jared to do some work away from their little town, and get his head back on straight.

Alex moves in with Jared, and we leave this particular instalment of the story with them finally having had the courage to have full-on sex, and surprise, surprise they both enjoyed it.

Lovely series of books, and are already in the favourites on my kindle.
