Sinfully Leighton Riley

Warning 18+ only due to mature subject matter and strong sexual content

Payton wrote a self-published book regaling her encounters with men while visiting Las Vegas. To her horror, life changes in more ways than one when someone finds out her true identity.

Ryder, a successful publisher, is determined to find and sign Reece Edwards. Using what little information he can find on her, he sets out to find her, feeling it will definitely be worth the chase.

While on his search for Reece, Ryder meets Payton and the chemistry is explosive. Payton has done well with not allowing anyone to get close to her, but something is different with Ryder. Ryder can't get Payton out of his head, but he is still on his mission to locate Reece.

With two tragic pasts, Payton and Ryder each have demons to overcome. Will they be able to put those demons to rest or will it be all for nothing?

Brittany Alexander says

Payton Davenport is a children's writer with a secret. She has written a sex book under a penname, Reece Edwards. This book is all about her sexcapades that occur whenever she travels to the lovely city of Las Vegas. It's an Amazon best seller and has caught the eye of not just a publishing company, but a creeper that's bound and determined to make her life a living hell.

Ryder Strom is a publisher for Warrington Strom Publishing Agency. The book by Reece Edwards has caught his eye, and his dick. He's set on signing this author and when she doesn't respond in kind to his emails, he drives out to San Diego from Los Angeles, to make sure she can't say no.

Payton and Ryder meet in a kickboxing class. They become fast friends...with benefits. After receiving some non-threatening but stalker like letters in the mail and Ryder following her to Vegas, she believes he's her stalker and cuts all ties with him.

These two have a connection you can't deny, and those few months that they each tried to let go of the other were tough. Can Payton and Ryder set aside their problems and make things work? Oh, and are they going to find out who sent those letters?

This is Leighton Riley's first work. And she's using a penname. I have no idea who she actually is. So, there's that. Here's the twist, she's really Reece Edwards. No, I'm kidding. I don't know who she is.

This is definitely a great start to her writing career. This book is filled with angst and twists and turns that will make your heart race. She definitely got me at the end... I can't say who or what or why. But it was unexpected.

I believe that Leighton can improve, though, in future works. I can see her becoming an author that will sit up in the ranks with others like SE Hall or Ashley Suzanne. She has talent, that's for sure.

I just didn't feel connected to the characters like I do with other books. And that's the reason I'm giving this novel four stars. I think, though, that the next book she writes, which is going to be about Tristen, Ryder's best friend, that I will definitely connect with him. There's something mysterious about him, and I want to find out what it is... We are introduced to Tristen in Sinfully, and we learn secrets about him that make you just want to snuggle with him.

I must say, the plot of this book is quite original. I haven't read one like this before and I really enjoyed it. I would recommend this to everyone, and I hope that you enjoy it like I did. Great job, Leighton!

Ellen Small says

Holy shiz what a book..... This is not your average romance this has a twist in the tail.....

The writing of this story was epic.... And the characters are loveable if not a little broken!!!!

Payton and Ryder heat the book up to melting point and, so much so you'll be begging for the next book from this great author.... I'm giving no spoilers for this awesome read you've gotta go one click!!!

Jackie's Book Review says

Oh what a tangled little web this book weaves...so to say. I was given a copy of Sinfully from the author for an honest review and to say that this book was a cute romance novel would not be doing it correctly.

The book starts out with the male lead Ryder finding a book written by an author named Reece Edwards who he wants to sign for his publishing company. Well Reece's real name is Payton and she is an author of childrens books also has a little secret she writes about her escapades on her trip to Las Vegas under her pen name Reece Edwards are you with me here? You know what they say "What Happens in Vegas Stays in Vegas" well not when your writing your hot little details for the public to read girlfriend!

So the search begins for Ryder to find Ms. Edwards to get her to go with his company only who he finds is Payton. From here on this is where the book really starts to take off and the relationship between Ryder and Payton goes full speed ahead.

There is mystery along with suspense in this book and with pasts that haunt both Ryder and Payton and together they must face decided if they can have a future together.

Brianna at Renee Entress's Blog says

4.5 SINFUL STARS!

This book was sinfully delicious and really different from any book I have ever read. I really enjoyed it and would recommend to anyone who likes romance, mystery and some seriously steamy scenes!

Ryder has a publishing company. He happens to stumble across an erotic book by the author Reece Edwards about sexual encounters in Vegas with various men and wants to find her. He just knows she is going to be the next BIG thing.

On his journey to San Diego to find this writer, he meets Payton. Payton is a writer of children's books. She did happen to write one steamy book under a ghost writer name but only her BFF Chloe knows about it so her secret should be safe, right? Well Payton has a stalker who knows her secret and will do anything to get her.

As they get to know each other, Payton and Ryder get close, feelings start to develop, lines are blurred, and secrets are threatened to be revealed. Ryder is still searching for Reece and Payton is trying to keep her secret safe from Ryder.

When Ryder finds out who she is, he thinks he has won the jackpot. But he is so wrong! When secrets are revealed, both Payton and Ryder get hurt but love has a way of setting the record straight and bringing people back together. As they both try to move on from their intense, rapid feelings with other people, they know it will not be accomplished.

Will Ryder get Payton back? Will Ryder find out who Reece is? Who is stalking Payton.. is it Ryder or someone else? Will Payton and Ryder get the HEA that these two deserve?

I LOVED the mystery and secrets in the book. Normally I want to shake the crap out of characters hiding things but I think it added something to this book. I mean once the stalker secret was discovered and revealed, it was a big WTF moment... I didn't see that coming at the end.

I loved Ryder. He was sweet, charming, sexy, and a total dirty boy who could talk dirty to me anytime. I also liked Payton. She felt broken and cursed. I admired her strength and resiliency. Both of these characters had been closed off but when you find that one it is like the steel walls that have been built burst wide open. The

chemistry between these two was OFF THE CHARTS!

I can't wait for Tristan's story and I'm hoping Chloe and possibly Tate will get one too! :)

Read this book! It is hot, steamy, sexy, quirky and totally original!

Shweta Choudhary says

bold

This was quite different book from other books I have read. It was related to books and I love when the characters talk about books and see a publisher and author relationship. The characters fell in love too soon but I still loved how they went on with it. The author have written this mystery in such a way that you can't guess what's going to happen next. I loved the story line and it's really good for the debut author. If you love sweet, hot guy ---because guys reading books are hot and an author love story you are going to love it!

The pace-Perfect

The cover-I like it!

Plot line-mysterious/you will keep turning the pages

Characters- realistic is what I loved a lot!!

Jenn says

After hearing the title of this novel, I knew that I would absolutely love it!

Ryder is a successful publisher, who is always looking to find the next big author and next best seller. Ryder does not want a simple, sophisticated author. He wants someone with edge, who also has is professional. Reece Edwards captivates Ryder from the beginning. She thrills him so much that he emails her an incredible offer to publish her book with his company. When he never gets a response back, he flies to San Diego to find her and get her to change her mind.

Payton is a self-published author. She has had a rough childhood and never lets anyone get close enough to her to hurt her ever again. One thing Payton does love is sex. In order for her to enjoy this, she only has one rule, do not get attached. In order for her to fulfill this need, she frequently travels to Las Vegas. Once there, she meets up with men who are generally there on business. After realizing and thinking about all of her encounters in Vegas, she decides to write a book about them. She writes under a pen name, Reece Edwards. This proves to be dangerous after someone mysteriously starts sending her notes.

“All alone in this suite.

What a shame don't you think?”

Payton and Ryder meet each other for the first time in a kickboxing class. Ryder went to this class with the hopes of finding Reece, instead he finds Payton. After the class they end up going to Starbucks where the instant attraction and chemistry is shown. As they continue to hang out with each other, their feelings for each other grow stronger. This causes Payton to run away due to her being scared.

For a debut novel, Leighton did a phenomenal job! The sex scenes were hot and had me constantly wanting more! I will definitely be reading more from Leighton in the future as well as rereading this book! This is a 5 star read for me!

Stacy says

This book was given to me in exchange for an honest review. This book took me on a wild ride of seduction, but what kept me interested was the dual lives of Payton. Payton was a children's author by day, but could be a wild woman at night. In fact she often goes to Vegas to get her "wild" on. What she doesn't see happening is Ryder blasting into her world and making her question her choice to not have a relationship. Ryder is on a mission to find an elusive writer that he wants to sign for his publishing company. It brings him in contact with Payton, he is interested immediately. This novel leads the reader on a merry chase that is Payton's strange (but normal to her) life. Can Ryder break through Payton's barriers and make her see she needs him? Throw in some old loves, a best friend, and a crazy stalker and you have a novel you can't put down.

Kailie Sarkissian says

When i first saw the cover i thought to myself i HAVE to read this book. I'm glad i really enjoyed it. Ryder!! Ryder is a publisher and always looking for the next best seller. He comes across Reece Edwards hot book about her adventures in Las Vegas. He wants her not to just sign but also wants to know if all her adventures are real. When he receives no contact back, he decides to take a trip and find her with nothing to go on but her name and city; San Diego. He never counted on meeting Payton there and the feelings she would bring him

Payton has been through a lot that most can never even fathom. She doesn't let people get close to her for fear of them being ripped away. She has her close friend and that is it. Payton self published under a pen name and never dreamed someone would love her story enough to want to publish it. When life gets to hard she escapes to Las Vegas as Reece Edwards. Payton also has to deal with a Stalker sending her letters which she tries to deal with privately till she thinks its Ryder who is sending them. I did not see the real stalker being who they were!

Payton and Ryders story isn't cupcakes and sunshine. They have to overcome a lot to be with each other. False accusations and poor communication is what puts a halt to their relationship. For a debut novel i really enjoyed it. I gave it 4 stars because for some of the book i found it slow and wanting something anything to happen. With that being said i can not wait for more from this author and Tristens story!!

multitaskingmomma says

Original Blog Post: <http://www.multitaskingmommas.com/201...>

When your writing prompt says, "Narrate something interesting that happened to you today," and your favorite activity is meeting hot guys, you'd end up with a book like Sinfully. Of course, author Leighton Riley ups the hot and sexy factor by 200%, making her main character Payton hide behind a pen name, Reece, in order to continue her, er, enjoyable pastimes in Vegas.

Payton really is a writer, but she pens children's books, not erotica. However, when she wants to cut loose, she takes trips to Vegas and looks for hot guys she can shed inhibitions with. It's never a permanent thing, just hot fun. Those times are so not run of the mill and could make up a good book, which she did!

It's so well done it catches Ryder's attention. Now, what's a man doing reading tell-all erotica? Not really his

preferred fodder but Ryder's a publisher and is looking for new authors with works climbing the charts. He knows he's onto something when he can't put her story down and finds himself fantasizing of those very same situations. This is a writer he just needs to sign up.

After some digging (stalking?), he finds out she lives in San Diego. Period. Polite refusals through email frustrate him and the hunt is on. As luck would have it, he bumps into Payton while in search of Reece in San Diego and the sparks fly. Both of them aren't interested in anything long term but this encounter is a pull neither can seem to ignore.

Their game of chase-and-pull back fills this light, fun, and hot read. These two have some heavy problems, which hinder their ability to want a forever with anyone, but for the first time make a try at facing and solving them because the person they lust after deserves more than just a one night stand!

For a book with such a light beginning, I wasn't prepared to be going into something with a very complex draw! A main character with two personas would be one clue, but weaving a complicated web between the two mains and several supporting characters made this read truly enjoyable. There is even a twist near the end that I didn't predict. And I really liked how, during the introduction to the next installment, Payton's past comes back to bite her in a place she didn't know existed. Plus, that precious dirty tummy moment is something that had me laughing for quite a while after I was done.

Leighton Riley's made Sinfully into such a fun book: it's a perfect steamy read for the beach, a take-along novel for any vacation, or just for any time your brain craves an escape - like Reece!

Jennifer Juers says

What I loved about this book is that there seemed to be so much going on, so it was a fast-paced read. Nothing makes me happier than finishing a book in a day.

I wasn't exactly keen to Ryder, I actually thought he was a woman when I first started reading. The thoughts he had about the book just came off as what a female would say, not a man. Once the story started moving along I warmed up to him and the loss he has suffered.

I loved Riley/Reece!! She has had a pretty rough life and the escapades she had I think help her escape for awhile. She is a strong person regardless of her past and her future can only get brighter!

I would recommend and plan to starting reading Regretfully soon!

Tera Chastain (Co-Creator of The Book Bistro) says

Ryder is a sort of a HOT "book geek" ...Peyton is leading double lives..Ryder starts off wanting to help publish her book ..but ends up wanting so much more..You find out so much about these characters and their journey..their back story .some ups and downs ..some good and some bad..They each have their own issues and struggles..as they come together they help each other through them..took me a bit to really get into it..but as they come together..and things get more heated it really flowed well.. . was a good solid read..with steam.. Card game anyone? HOTNESS..

Deanna says

****4.5 Stars****

Judging by the title I figured I would get sucked into this book and I did!!

Ryder is a successful publisher always looking for the his next new author. He doesn't just want any author, but someone "edgy". He finally finds one, Reece Edwards, that he is very interested in and emails her an amazing offer. He never hears a response back. He is determined to meet this author and get her signed so he sets off to San Diego to find her.

Payton is a self published author. Payton didn't have the best childhood and that has made her decide not to let hardly anyone get close to her. She loves to have sex, but she has her set of rules for the men she's with. The main one is to not get attached. She travels to Vegas often and when she's in Vegas she has flings with men that are in town on business. She decided to write about her sexual encounters using a pen name that is not known to anyone but her best friend, Chloe. Or does someone else know? Payton has been receiving mysterious notes from someone who seems to be watching her.

"All alone in this suite.
What a shame don't you think?"

Ryder and Payton first cross paths during a kickboxing class that Ryder went to in search of Reece. They end up going to Starbucks afterwards and there is a definite attraction and insane chemistry between the two. They continue to hang out and their feelings towards each grow stronger. This scares Payton and of course leads to lots of drama, passionate encounters and running away on Payton's part. I was so surprised to find out who was sending Payton those letters. I was not expecting that at all!

For a debut novel, I think Leighton did a great job! This was a quick and fun read. The characters were great and the sex scenes were HOT! The only thing that kept me from give the full 5 stars is that I wish there was a little more action throughout the book. (Not just sexually. Get your mind out of the gutter!) Leighton is definitely an author I look forward to reading more from in the future. I am recommending this one.

I was given a copy of this book in exchange for an honest review.

Hooked On Books says

I received this book free for my honest review.

Sinfully is the first book I have read by Leighton Riley and will certainly not be the last. In this book we meet Ryder and Payton. Ryder runs a publishing company. He has come across a book written by Reece Edwards and he really wants to sign her on. Reece is a carefree women who writes about her trips to Vegas and her nights filled with men. Ryder goes to San Diego to find Reece but before he can he meets Payton.

Payton writes children's books, well except the one she wrote under the pen name Reece Edwards. Her best friend Chloe is the only one that knows about this book and she plans to keep it this way. She has no intentions on meeting with Mr. R Storm for her to get her book published no matter how hard he tries to

meet with her. Payton has a disappointing childhood, and doesn't allow people to get close. Of course, that is until she meets Ryder. She feels that there is just something about him that she finds appealing. Payton has been receiving stalking letters that are signed with and "R". Going to Vegas is just what Payton needs to get Ryder out of her system. While in Vegas she gets another letter. Ryder also shows up and reveals his true identity and tells her he knows who she really is. Payton sends him packing and the letters stop. After several months she gets another letter and goes to confront Ryder. He explains that never sent them and would never give up her true identity. Ryder and Payton must face losses from there past so that they can move forward to a future together. The stalker has other plans for Payton. The author had me guessing who it might be. I have to say I did not see that one coming. This book is a definite must read and I would recommend it.

Eye Candy Bookstore says

Every woman that has ever had that 'creepy feeling' down your neck, can relate with this book! What do you do if you are being stalked? Do you take it seriously or is it just playful fun? Payton doesn't know what to make of the scary mystery letters, but can she figure it out before it's too late?

I liked this story line from page one and loved the steamy erotic scenes that Payton has throughout the book! Payton and Ryder's spark left me feeling the heat and I couldn't wait to see how their relationship would work out. This book was exceptional in the details it provided with character development and I was sad to see the book end. I will be excited to hear about Tristen's story and hopefully happy ending *wink*wink*!

WARNING: 18+ ONLY. EXTREME PHYSICAL VIOLENCE & SEXUAL ASSULT

Reviewed by Maggie Wadsager

I only gave 4 stars because there were some areas during the book that were not evenly paced and would leave me feeling a little bored.

Cassia Brightmore says

~4 Deliciously Wicked Stars~

I was selected to receive an advance copy of this book from Leighton, and I'm thrilled to be writing a review for it. Sinfully is Leighton's first novel, and as sure as orgasm starts with "O" - she does not disappoint!

Sinfully starts out with the male lead's POV - Ryder. He intrigued me right away, his love of books and the written word are what I liked best about him - I thought it was refreshing, not something we see in male characters these days. His determination to find Reece and get her signed with his publishing firm was the starting point to a wild, tumultuous ride FULL of drama, passion and maddening moments (seriously I was yelling at my tablet in frustration more than once!).

Payton...what can I say about Payton - besides the fact that I LOVE this character! She is so totally likable and relatable, I completely felt like she was someone I knew. I connected with her right away - the chick is a

Vampire Diaries fan soooo nuff said. She is tough and stubborn, and at the same time very vulnerable. There were many sides to her and Leighton does a wonderful job showcasing them all.

The concept for this book was completely original and I enjoyed that. Payton used Vegas and her experiences there as her escape...she craved it and needed the thrills she found to survive. And seriously, she definitely found more than one delicious adventure - her encounters were steamy and hot and let's be honest, something we all crave deep down ;)

The chemistry between Payton and Ryder is intense and explodes off the page...That Ryder - he had my lady parts working on overdrive on more than one occasion. My fave naughty scene from the book:

Ryder: "I like to come in here when I don't have time to head to the gym. I can knock out an hour in here before or after work and not have to spend the time driving to and from the gym. Makes it easy."
He walked a few more feet and sat me on a large red yoga ball. Steadying myself, I look up at him in wonder.
"So are we....?"

That scene was mind alteringly hot!! You'll be wiping your sweaty brow after reading that part. Payton and Ryder have an undeniable attraction - the question throughout the book is...is it enough? Are they enough to each other to fight sins from their past? Or will something sinister tear them apart?

If you are looking for a hot read with humor, drama, passion and a LOT of steamy romance - this is the one for you. The concept is original and unique, with a plot twist that keeps you guessing till the very end.

Leighton - this book was unbelievable. I am blown away that this is your first novel, this story is beyond all my expectations and I can't wait for more! All I can say is...PLEASE GIVE ME TATE'S STORY!! Oh I didn't mention Tate? Well you'll have to pick up this book to find out more about him ;)
