Clover

Moxie Darling

Clover Moxie Darling

On a mission to bring the love of literacy to impoverished rural children, Clover Willoughby finds herself stranded on a dry, dusty West Virginia back road. Out of gas, out of service, and out of patience, she starts walking. When she stumbles across a quaint cabin in the woods, she's relieved at her good fortune. Her relief turns to trepidation—and anticipation—when the rough, crude mountain man living there offers to assist her . . . for a price.

And he's not interested in money.

THIS BOOK WAS PREVIOUSLY TITLED PENETRATED ON PONETOWN.

This is the first novella in a planned series. It is NOT a full-length book.

(Disclaimer: this novella is for adults only. It contains explicit sex, rough sex, ménage situations, sex with strangers, and taboo elements that some might find offensive.)

Gina says

I received this book for an honest review from the author. The book is definitely smut. It goes from 0 to a 100 really quickly. The main character Clover is a hippie raised love child who isn't afraid of life and the experience it throws to you. Stranded in the hill of west bubba West Virginia she must exchange her body for safety and doesn't bat an eye when the offer of sex for gas to help her make it to her destination. The sex and the two male leads are interesting duo. Want something taboo and fun for the imagination pick it up.

Tink Magoo is bad at reviews says

This was a quick, dirty, slightly taboo read that involves a lost woman, a dirty older man and his virgin son.

Hot

Grace Morales says

****ARC provided by publisher for honest review****

Main Characters: Clover and Jim

Rating: 7/10

So when I review a book vs just reading one, 2 things happen A) As far as stars on good reads go I am a little easier going and B) I am very conscience to rate books for what they are not what I want them to be. This is the author's story to tell, and you can't be mad if that story just isn't your thing. On the flip side what I love about reading in general is that you can make up your own ending / background etc.. So for me this book was like walking in on someone's dream. Dreams often times don't give you the backstory on why someone would be running out of gas in the middle of some mountain men that need a little action. It just happens. Now in real life I would say cover is NUTS, run run as fast as you can. But when you are in a dream, even some of the craziest things make totally sense. Like agreeing to stay and pleasure a man and his son who need a little love. For that reason alone I am going to take the entire book as a dream. I am adding a chapter that has clover waking up feeling satisfied and a little excited, where she walks into town meets the real Jim and the story blossoms from there; on a normal level. With y extra pieces, this is just one part to their entire story. So my rating is based on that. If you want a book that is well written and describes what I would consider to be a very erotic dream then this is for you. If you have to have the backstory and everything laid out, and you don't just want the "good scenes" but everything, this may not be the right one.

Lakshmi C says

Clover was a well written, steamy novella. Clover is stranded in the middle of nowhere. She makes a mutually beneficial deal with a stranger who offers her help. The book surprised me in a good way. The author builds vivid characters and there is unexpected romance as well. It has the elements of fantasy and

Clover is definitely a better title.
I received an ARC in exchange for a honest review.

Crow Gray says

This was different, and very hot. Basically a hot female ends up being a willing sex slave for a hillbilly father and son. The father is attempting to give his adult son a sexual education, and our heroine is more than willing to play teacher. The storyline is slightly farfetched, but this is fantasy after all and still very arousing. If you like things a little different in your erotica this is for you. This is one of those fantasies some women have but probably don't admit to having very often, so give this a shot if you want to walk on the wild side.

I will also add that as a male, I think this will appeal to both male and female readers. So if you guys are having trouble finding erotica to suit you, try this one out.

Taylor says

I received this book in exchange for an honest review from the author.

Let me preface this review by saying i was aware this book didn't focus on much else besides sex prior to reading it, in fact i was kind of excited to read it because of this fact.

SO, Clover by Moxie darling is the story of a woman named clover who has the bad luck of breaking down in the middle of absolute nowhere on a way to a town that is...isolated... to say the least. As luck would have it, she comes across a house on some property. Here's where it gets good, the house is inhabited by a relatively good looking man and his family. I'm not going to ruin the story by saying how this turns sexual or the situation they all get into (because you find out about it in the first few pages), but what i will tell you is that if you are looking for a great erotica novella, this is it. It's HOT! but not just hot, its evocative and the wording is perfection. It is probably one of the better just erotica books I've read, i definitely struggled with trying to keep still while reading, it had rough sex, hot sex, standing sex, fast and slow sex, it had a bit of everything. Not that i'm complaining a single bit.

This isn't a novella you read for a deep emotional connection to the characters, its one to get yourself all hot and bothered and enjoy some light, well written erotica. Fair warning, its got a little taboo aspect (view spoiler) ,but nothing in my opinion that isn't worth reading, in fact i think it enhances the steaminess of the book.

So glad i got to read this, i loved it!!!

Ella Reese says

Clover, a free spirit raised in a hippie commune, runs out of gas in the middle of nowhere. As she is walking for help, she stumbles upon a cabin inhabited by Jim and Eustice. Jim offers to fill her gas tank if she'll let him and his son use her for sex for a week. Seeing as they live out in the boondocks, Eustice hasn't even had

an opportunity to be with a woman, so it's Clover's job to teach him while his father gets a little on the side.

Cue the banjo from Deliverance.

There is just so much wrong with this story. The writing was decent, but I cannot imagine a scenario where being caught in the middle of nowhere by some mountain folk who wanted to bone me would turn me on (except maybe if one of the country bumpkins starving for a woman's touch included Chris Hemsworth or Scott Eastwood ... then maybe).

I'm going through a smutty phase, and this was a Kindle freebie, so I thought why not? Now I'm questioning why. Just doesn't do it for me.

Cristina says

So this book was pure porn :D I don't normally read "porn books" anymore but once in a while I enjoy a good one and when Moxie Darling asked me if I would like an arc for her novella I read the blurb and suddenly I was in the mood for some kinky stuff :P

And men it was some kink :P The author warns us that this book "contains explicit sex scenes, rough sex, ménage situations, sex with strangers" and despite the fact that this type of novels are usually pretty predictable and come on...read the title :P...this one managed somehow to surprise me a little.

How?

Well first off all I was not expecting her to be propositioned by two men who where (view spoiler) and for one of them to be actually a (view spoiler)!!!

But don't worry...there is no (view spoiler) and no ménage so it's not that dirty :P

Once we start the book we get a little bit of this...

And a little bit of that...

And lets not forget some of this too :D

Not necessarily in that order :P

So when you find yourself in need of something a little filthy you know where to look ;)

Carmen says

I received this book from the author in exchange for an honest review.

Clover has taken a sabbatical so that she can travel and bring her love of literacy to children. On her way to her destination, she gets lost and her car eventually breaks down when she runs out of gas. Clover is herself lost, on foot, and carrying books while searching for someone to help get her car back on the road. Instead of finding a store, she runs into two burly mountain men who are happy to assist her in exchange for a week of sex.

This was a short read that introduces everyone to the characters in the series. If you are looking for some burly lumberjack-like mountain men in your romance collection, this is a novella that will interest you. As an erotica novella, the story is pretty straight forward: sex, sex, and more sex. However, it's well written and Clover's free spirit hippy life and Jim and Eustace's hardworking mountain men life out in the boonies are floating in the story. If you're looking for a story that includes a woman in control and more than one character having a sexual awakening of sorts, this is a series opener for you.

Victoria says

3.5+ RATING- Short and sexy erotic story. Not a lot to work with because of length but the writing was good and the steamy bits well done. Not what I was expecting and I mean that in a good way. This is a new to me author but one I'll be following going forward.

Katrina says

This novella contains explicit sex, rough sex, ménage situations, sex with strangers, and taboo elements that some might find offensive.. * warning via the author *

However - for those who love erotica , and a bit of kink - this book is filled with dam smoking hot sex scenes, sexy mountain men and an array of all things hot, raunchy and dam right delightful. Even a tad bit of romance who like there sexy stories with that edge of sweetness.

A quick read at just under 50 pages, but enough to get your loins tingling and the pages briskly turning. The story was well written and kept me engaged through the entire story. I enjoyed the authors writing style and the way she wasn't afraid to hold back on the goodies. :D

A little indepth with descriptions in the intial start but otherwise , my only complaint I wanted more haha.

Clover is a open minded woman, with a penance for good sex, spur of the moment scenerios and hot dominant sexual men.

I enjoyed all the characters in this short novella. The older dad, and sexy son made quiet the enjoyable menage :D The combination of innocence and maturity made this read - enticing and dam right hot !

A quickeee read for all those wanting a quick fix .. but I warn you it will leave you wanting more .

A??ela W. says

This was a short quick somewhat taboo read that I liked. Clover found herself stranded while driving through West Virginia on her first World Literacy assignment when she got lost and run out of gas. When Clover comes across Jim he offers to trade gas for sex with him and his son. This book had some very hot sex scenes and the father and son menage was not shocking to me. This book was well written with no errors in spelling or grammar I wish that it was longer. This is the first book in a new series for me and I am looking forward to reading the next book in this series.

Kate's Corner says

4 '48 pages of pure smut' Stars.

First of all let me say that the title of the book 'Clover' is a lot better than 'Penetrated on Ponetown' with that title I would have skipped it. Sorry but it is the truth.

Clover is out in the Boons to teach young children to read but gets lost and she runs out of petrol. Until she stumbles across a cabin with an older man and his son. They are mountain men and they don't get a lot of women out in the sticks.

So they have a deal, a week of sexual smuttiness in exchange for petrol. I guess it is slightly taboo with Clover getting it on with the father and the son. But all in all I enjoyed it very much.

It is hard to write a review for a novella of 48 pages.

Book received by the author in exchange for an honest review.

Aly says

This book is smokin' hot! I enjoyed it. It is a short quick read but very much for adults! * I received this book from the author in exchange for an honest review*

Charlie says

This was a smutty short story about a woman who's stranded in the woods and agrees to trade sexual favours for a way home.

I was really in the mood for something purely smutty but unfortunately this just didn't do anything for me. There wasn't anything wrong with the story itself it just wasn't to my taste. I prefer dominant men and subby women and that just wasn't the case here.

If you enjoy the student/ teacher trope with a strong heroine then this might be for you, unfortunately it wasn't my cup of tea.
