I really loved this book! I enjoyed the writing and the story line. It was sexy and fun without being over the top. I didn't want to like Hayley at first, but she grew on me. She is a divorce lawyer who has some strong opinions on marriage and men. When she is forced to come up with a boyfriend/fiancée to accompany her to their corporate retreat, she has no idea what she is going to do. Chase is on his way to his sister's wedding when he is seated next to Hayley on the plane. What he comes up with next might just help both of their situations. At least until feelings start to develop and lies get uncovered.

I voluntarily reviewed an advanced reader copy of this book.

Miniseries: Wild Wedding Nights

Hayley and Chase both are relationship-phobic so they don't see the danger of falling for each other until it is too late. VBG! Their mixed up plans seem to be rolling along smoothly until, BAM, Ms. Snow messes their world up spectacularly. Fun read, enjoyed. ~ Kim

Wow! Hot, sexy and delicious. Who doesn't fantasize about a holiday fling turned into a stunning long term love. (No offense to my husband.) This hot-hot-hot story drew me in from the start and kept me engaged until the end. I am now a forever-fan of Jennifer Snow.

Fantastic read. It's sweet, hot and steamy. I was hooked from the beginning. The attraction and chemistry between Hayley and Chase is off the charts hot! Can their fake relationship turn into something more? Can they open their hearts and learn to love? I enjoyed the characters and storyline. It's a must read. I voluntarily reviewed an advance copy of this book.

Whether it's sweet or sexy, Jennifer Snow always delivers an enjoyable read with characters to love, and a few not to love. She keeps the reader engaged in fun, lighthearted stories that capture my heart.

Her Holiday Fling is a fast paced, sexy romance set in Hawaii. Not that I didn't want to go before, but after reading this, I'm itching for a vacation. Anyway, back to the story!

Hayley Hanna is a divorce lawyer, and you don't want to mess with her! This trip has a lot riding on it, as a disastrous article in a magazine puts her front and center, and not in the best way. Hayley doesn't have time or room in her life for commitment or love, and it definitely shows in the things she says.

Enter Chase Hartley. They meet by chance, and both have a perfect plan. No harm in that, right?

Haha, but as we know in a good story, there's no such thing as a perfect plan. A little pretend fling between two strangers who don't want anything more in their lives changes them in ways neither could imagine.

I love Chase. That is all. Well no, that isn't all, but *Happy sigh* His back story hit me in the feels, and then hit me in the feels over and over again. I understand his concern and fear, and I love how he steps up to be there for everybody. But in the end, I was so happy he gave in and gave love a chance! Hayley is perfect for him, and it was fun to watch these two fall in love when all they wanted was to get people off their backs. Surprise!

I can't wait for the next book! I so want Kate's story. After what she went through, she deserves an HEA!

Kaylee Nizza says

Smokin Hot!! Another great read from Jennifer Snow. Hayley has to prove she isn't a man-shark to her bosses. Chase doesn't want his family fixing him up with someone at his sisters wedding. Once Hayley and Chase meet the sparks fly and their chemistry is "Oh, so hot." They story is well written and gets you engrossed in the great love story. I highly recommend reading this book.

Misty (Red's Romance Review's) says

After an unsavory interview with a local magazine paints divorce lawyer Hayley Hanna as a man hater who doesn't believe in marriage, the firm she works for begins to have concerns about the image she is putting out there. They want to be known as a family friendly firm, and having someone like her on staff doesn't exactly represent that, so they voice their concerns to her, and she promises them that it was just a bad interview on her part, and that she actually has a fiance and is happily in love and on her way down the aisle... problem is she sent her fiance packing a few months ago. Now she is left scrambling to find a fake fiance to step in and attend the company retreat with her, and show her co-workers the article was a farce, otherwise she may find herself looking for a new job! But the men aren't exactly banging down her door, so she decides to attend the retreat alone, admit defeat and take the punishment given...that is until her handsome seatmate on the plane offers up his services!

The instant Chase Hartley sits down beside Hayley Hanna he feels the sparks arching between them, she is gorgeous, smart and just the right amount of sassy and he wants to know everything there is to know about her... but she isn't ready to fall under his spell. He can tell there is something bothering her, so after some weaseling he finds out that she is in need of saving, she needs a fake fiance in order to keep her job, and with very little thought he offers up his services. He makes her a deal she can't refuse, a deal that is certain to benefit both of them, neither one of them are looking for love or a relationship, so keeping feelings out of their little relationship should be easy... right?

This enticing little tale captured my attention from the first page, and held on tight right up and until the last... it was SO damn good, I devoured it in one sitting!! These two thought they were the perfect

accomplices, their aim was to fool those around them into thinking they'd found love, but what started off as a ruse quickly became something else... something neither of them wanted or expected, and it made for one hell of a story! If you like your heroes in blue, full of confidence and sex appeal then I highly suggest you meet Mr. Chase Hartley, he's sure to swoop in and steal your heart, and have you blushing the whole way through!

Now, if you're looking for a story that sizzle and burn up the pages, then grab yourself a copy of Her Holiday Fling by Jennifer Snow. This book—the story, the plot, the dialogue, the characters—everything about it is perfect! Divorce lawyer, Hayley Hanna is in a fix. Because of an article misquoting her words, she must now prove to her bosses she is nothing as she's painted to be and agrees to bring her 'fiancé' to the retreat in Maui. But there is one problem: she has no fiancé! Now what? In walks gorgeous Chase Hartley, thing's click between him and Hayley. Before you know it, their sly arrangement begins to feel real as day. Will they follow their hearts? Overall, this is a stunning story that explores passion and attraction in detail between two captivating protagonists. In the end, what I loved most about the story is Jennifer Snow's writing style. She has a way with words that bring her characters to life. Bravo!

Maria Rose says

Her Holiday Fling by Jennifer Snow is a sexy vacation romance where two strangers find they can help each other out, but get a lot more out of the deal than they expected.

The timing of Hayley Hanna's last breakup coinciding with a magazine interview might have gone unnoticed if she hadn't relayed some of her bitterness over men in general and the institution of marriage quite so publicly. Trying to convince her bosses at the legal firm where she works as a divorce lawyer that she's really not a man-hater, she makes up a fake fiancé, one who is supposed to join her at a corporate retreat in Hawaii. Her plan to go solo and make up an excuse for his absence gets turned upside down when she meets her handsome seat mate, Chase Hartley.

Chase, a career police officer, is not particularly looking forward to his sister's nuptials in sunny Hawaii, knowing that some of her single girlfriends will be on the hunt. When a chat with his attractive seatmate reveals that they have a similar predicament, and are staying at resorts just down the street from each other, they hatch a plan. He'll pretend to be her fiancé for the social parts of her corporate retreat that don't conflict with his sister's wedding schedule, and Hayley will return the favor. It doesn't hurt that there's clearly a good deal of sexual attraction sparking between the two of them. But will their charade be discovered before the week is out? And what happens when they both realize they want more than just a vacation romance?

I have a new book boyfriend!!! I love Chase Hartley!!

A woman who experienced as a child what divorce can do to a family, has built a wall around her heart, but is also totally against marriage. A man, who has seen first hand what it does to a family when a police officer loses his life due to his job, who will not settle down or let his emotions get involved. A chance meeting on an airplane, both needing a fake relationship to get thru the week due to work and family obligations. There is undeniable chemistry, but is that all? Can two people who are both anti-love and anti-marriage have it all?

As usual, Jennifer Snow does not disappoint!!

ABSOLUTELY FANTASTIC!!!

I LOVE Jennifer's dialogue and her characters' thoughts. It's believable. It's something I would say or think were I in a situation like Hayley was (ok, except Hayley is way nicer than I am...)

I LOVE Jennifer's characters. They're realistic and relatable. They act like real people do, which, to me, makes her contemporary romances that much more enjoyable.

I LOVE Chase. Oh my gosh. You will dump your current book boyfriend for Chase Hartley. He reminded me of Top Gun Tom Cruise, if that's a helpful parallel ;)

This story was different than any I had read in that Hayley and Chase weren't really looking for a happily-ever-after (or were they?!), but rather they were content with their status quo...until said status quo involved some smokin' hot Hawaiian nights...

It's one of those books that could easily be made into a blockbuster movie. I couldn't put this beautiful story down, and I'm looking forward to MANY more books from Jennifer!

(I received a copy of this book in consideration of an honest review)

Dawn ♥ romance says

An entertaining little story with an interesting plot twist near the end. It was fun watching the hero and heroine doing quick tutorials getting to know each other. Attorney Hayley needs to convince her boss she isn't a man-hater and makes up a fiancé to take on a company retreat in Maui. Cop Chase offers to be her fake fiancé while he is in Maui for his sister's wedding.

Suze Lavender says

Hayley never wants to get married. She's a successful divorce lawyer, but after a disastrous interview about men her bosses think some damage control should be done. She comes across as hateful and heartless in a magazine article and that isn't the kind of publicity they can use. To convince them she isn't just harsh and cold she lets her bosses believe she will bring her fiancé to a business retreat in Maui. There's only one small issue, she isn't seeing anyone.

Chase's sister is a wedding planner. She's a big believer of true love and thinks that's exactly what her brother needs, so whenever they meet she's trying to set him up. She's chosen Maui as her wedding location, as she has fond memories of the island. Chase doesn't want to be the victim of another one of his sister's matchmaking schemes. When he meets Hayley on the plane on his way to Maui and finds out about her problem he's offering her a deal that will be beneficial to both of them. He will play Hayley's fiancé and she will be his date for the wedding. It's a perfect arrangement, but what will happen when their time together starts to feel real instead of fake?

Her Holiday Fling is a sexy feel good story. Hayley is independent, sharp, smart and determined. She sometimes speaks before she thinks and that often gets her in trouble. The situations she lands herself in are pretty funny and her personality constantly made me smile. When she's dug a hole for herself she also needs to find a way to climb out again and she has a creative way of doing that. She needs someone to impress her bosses and Chase is her savior. He's a heroic policeman and he's always there to help people out. There's only one area he doesn't excel in and that is relationships. He's a gentle and generous man and a lot of women like him a lot, but he doesn't want to get married. His job is dangerous and not many people can handle that, which is why he never lets anyone come close again. When he meets Hayley he instantly likes her and their chemistry is amazing. They are both adamant they don't want to get married, but fall very much in love. I couldn't wait to find out where that would lead and flew through the pages of this hot sunny book.

Jennifer Snow has written a wonderful story that can easily be read in one sitting. Her writing sparkles and her vivid descriptions make both the island and her main characters come to life really well. I loved the romantic setting with the beautiful sea and waterfalls. It's an ideal place to fall in love and I liked the idea of two people who are overwhelmed by it because they are looking for something completely different in life. Chase's job and everything he's been through bring some great extra depth. Together with the light and cheerful nature of the rest of the story this creates a good balance. Her Holiday Fling is fun, flirty and sensual, it's a lovely uplifting read.

The technical stuff: The cover of this book wasn't my favorite until I read the story and realized that it fits this one perfectly. This book contains both cursing (including a few f-bombs and one use of genital slang) and on-screen sex. If those things aren't your cup of tea, you probably won't enjoy this book.

This book has so many things that I like in a story - a fake-relationship that turns into more, awkwardness without being over-the-top ridiculous, characters with unbelievable chemistry, humor, and a hero that is to swoon for.

Although I liked her, I didn't really connect with Hayley and her lifestyle at the beginning of the book. I highly recommend that if you find her off-putting at the beginning, you should give her a chance. Once she got to Maui we got to see more of her as a person rather than the BMW-driving-Tiffany-glasses-wearing-man-hating label snob that she came off as, which was a huge relief. I don't care whether a character wears

shoes that cost as much as a new car, I care about the character as a person, and Haley was actually a really likable person. She was a likable person who was kind of a hot mess, but she was also the kind of hot mess I would want to be friends with. She was funny and quirky, but she was also a seriously good person.

Chase, on the other hand, was ridiculously perfect from start to finish. His biggest “flaw” was that he worked too much and was afraid of commitment after having been burned in the worst way possible. But he even handled seeing his ex and her new husband with total aplomb and charm. Chase was so charming, funny, strong, protective, and so sexy that I found myself wondering how Hayley could resist falling in love with him from the very start. I would have waved the white flag far, far sooner than she did!

If you like the fake-relationship trope, or just enjoy a story about a seriously sexy hero, and two people who just seem to belong together from the moment they first meet, you should definitely read this book.

I was gifted a copy of this book but was under no obligation to write this review at all. I did so because I very much enjoyed the story.

RATING 4.5 STARS

Her Holiday Fling is by Jennifer Snow and is part of the Harlequin Blaze line.

Hayley Hanna is a divorce attorney in Los Angeles. Hayley’s job and her family history has hardened her towards the concept of forever love. She doesn’t believe in marriage or Happily Ever Afters. But, she made the mistake of letting her opinions be known in a magazine article which portrayed her as a man eating shark. Her bosses at Marshall and Thompson Family Law don’t like the way this makes their firm look in the public eye. She and her co-workers are scheduled to participate in a one week company retreat in Maui for team building. Her bosses tell her that they want to meet her fiancé. That they want her to bring him and convince them that she has a softer side. The problem is, Hayley is single. But she didn’t divulge that little detail to them.

Chase Hartley is a cop who lives for his job. He had his heart broken once before and is now convinced that relationships and dangerous careers don’t mix. How could he fall in love with someone when there is always the risk that at any time he could be hurt or killed? He couldn’t do that to someone. So he has accepted that he will forever be single.

Chase and Hayley meet on the plane to Maui. Chase is on the way to his sister’s destination wedding. His sister is forever trying to match Chase up and he is dreading the line up she will have planned for him this time. Could Chase and Hayley help each other out? Chase could be her stand in fake fiancé and Hayley could be Chase’s date for the week at all the wedding festivities keeping all the other single women away. This is a win/win. Except that the chemistry between these two is crazy strong. Add in the beautiful romantic setting and it doesn’t take long for the lines to blur between fake and real.

“With one quick kiss, this noncomplicated plan had just gotten complicated.”

“The simple touches, the kisses on the cheek, the holding hands all evening, had her craving more. More of something she knew she shouldn’t be wanting.”

Not only do their feelings for each other grow, but Hayley really likes Chase’s family and feels bad for deceiving them. Little by little, the walls around her heart crumble. Could it be possible that her feelings for Chase are real? That maybe they could continue their relationship once they were back home?

“Why did it take a fake fiancé, in an impossible, dead-end situation to make her feel something? Something she wanted desperately to explore, despite the inevitable outcome. Was she really that twisted?”

“Now was not the time to start believing in love when the first time she’d ever felt it, it had all been meant as a lie.”

This was such a good book. I loved Chase and Hayley. And the hotness factor was smokin. But these two commitment phobes have terrible timing and just can’t seem to escape their doubts. I absolutely loved the ending, it was perfect. Jennifer Snow is one of my favorite authors. I love that she has taken the plunge and is writing for Blaze. I loved this book and hope you will too.
