Jim C says

A book set in the world of Dragonlance. This is a tale about two women who are caught in a seized city of Haven. One woman finds companionship while the other helps people flee the city. The problem I had with this book is that it spent too much time on the companionship story and not enough on people trying to escape. If the stories were reversed, this could have been a welcome addition to Dragonlance. To me, this novel was geared more towards romance than fantasy. Not the best Dragonlance book.

Christina says

Dezra and Usha Majere are in Haven when dark knights takes control of the city and are forced to stay much longer than planned because the conquering force closes the gates. This forces the women to act in two different ways: Dezra joins an underground society trying to help people leave Haven and Usha settles down as a painter to earn her own living and because of this, she meets up with one of the city's leading men, both in regards to power and money. But even though the two paths seems very distant from each other, it turns out that they are very close indeed and suddenly, danger lures everywhere and nobody knows who to trust. Although I enjoyed my stay in the Dragonlance world as always, this book was a little disappointing to me. Nancy Varian Berberick is another of my favourite Dragonlance authors but this book didn't quite do it for me. I only felt it really picked up the pace in the last 100 pages - and those pages were good, but that's not enough... - but they did change the book's score from 2 to 3 stars.

Kevin Potter says

Honestly, this was a decent story, but yet another case of Nancy Varian Berberick blatantly ignoring established Dragonlance facts.

Rob Frazier says

A quasi romance novel with little to no point. Infidelity from time to time is assumed even in the fantasy worlds... I however don't feel that we need to have the hero shove it in our faces. Seriously disappointing.
