Kings and Sinners

Alta Hensley , Maggie Ryan

Kings and Sinners Alta Hensley , Maggie Ryan

We don't seek forgiveness for our sins

Prey on the weak –
Defile the innocent –

And you will pay the price

Judgment has been made
Sentence has been decided
Breaking the only law that matters – our law – has but one price -

Death

Their mission is simple, their code unbreakable. To those who cross them, they are judge, jury and executioner. To those who come under their protection – they are more than brothers. More than men whose souls are stained by sin. They are kings.

*Includes complete trilogy of: Maddox, Stryder, Anson

From Reader Review Kings and Sinners for online ebook

Doreen Frantz says

Before I review, please let me say I have grown to love Alta Hensely and Maggie Ryan and individual authors and their collaboration has not disappointed. Kings & Sinners are three books in one compilation dealing with three brothers driven by good to assist the downtrodden. The first book is about Maddox and Adira who he saves after her family is killed. He takes her away to the family farm and tries his best to protect her but also falls in love. The second book is about Stryder who meets Zoya when she is being sold into sexual slavery. She is an innocent who he swears to save. The third book is about Anson who at the same auction sees and vows to rescue Natalia (also being sold into slavery). Out of the three ladies I loved Natalia the most. She wasn't innocent like Zoya. She had a motive and was determined to achieve it. She was strong! The three books leads very nicely into each other but can be read as stand alones. They are fast paced and full of action with loads of mystery and suspense that keeps you turning the pages. And please, let's not forget the explicit scenes...Amazing read!

Gab says

What a family!

The Black Stallion Ranch does not only house beautiful horses, but also a blended family. Drake, the patriarch, his three sons, Maddox, Stryder and Anson, and Jennie, the Hippie-Wise Woman taking care of all of them.

But, buried deep beneath this bucolic paradise is the real mission of those men. They made it their calling to help and house innocent victims of crime and violence. With the help of a world wide net of allies and helpers they operate beneath the radar of official authorities and in countries where the law is just a piece of paper.

And that is where they find their partners. Being dominant protective men, they normally shy away from getting too close to their charges. But there is always the one exception.

Three completely different women, with completely different backgrounds, from three different countries, with one common trait. The strong will to survive in circumstances that would break them were it not for their core of steel.

And to the Steele men they are able to surrender.

This collaboration between two first rate authors in their own right, has produced a series of books that kept me glued to my reading chair until the very end. Suspenseful, hot, sweet, kinky, it's all here!

Enjoy!

April Symes says

All 3 of The Black Stallion Trilogy are together in one book. 3 stories with 3 totally different sets of characters. The men who are brothers have a few things in common - dominant and protective with the need to help and care for victims of violence and of crime. The men make sure to fly under the radar of the authorities and they operate in the most dangerous of places to help. The 3 women that we meet for each of the men come from different backgrounds and countries; women who have ended up being dealt a pretty rough hand by life but have the most extraordinary strong will to survive... These stories will move you, tempt you, have your heart racing...will even steal your Kindle up. This is one awesome read and I hope the author duo of Hensley and Ryan writes more.

MY RATING: 4.6 stars *****

Rebecca Austin says

1) Maddox

Maddox Steele is in the United Arab Emirates as a rancher looking for thoroughbreds for his families ranch, Black Stallion Ranch, with his father, Drake. Yet they are also there as a favor to Hadi Nazar who believes that his family is in great danger and he is proven right.

Adira Nazar is the granddaughter of Hadi and her life explodes in front of her eyes and she loses everyone she loves. Yet now she must put her trust in two Americans whom she has never seen before. Is she safe with them?

Can Maddox and his family keep Adira safe from those that wish her harm and will they find out who is behind everything in time?

This was a great introduction to Black Stallion Ranch and all of the characters!

I thought Maddox was a great character and part way through the book you meet a different side of him when Adira doesn't listen to him! I really liked what his family stood for and how they protected the innocent people from some pretty evil people.

I felt for Adira with everything she lost and how she was suddenly brought to a new place with not a lot of say in what was happening. I can't imagine everything she was going through. I liked that she was tough and was raised to be prepared for the worst just in case.

I loved Jenni and how hippie she was. I loved the close relationship she formed with Adira.

I also really liked the foreshadowing that was done so you knew what the next book would be focusing on with the link to the Russian Sex Trade/Slave industry.

The end was a little intense but I loved how it all turned out and I am looking forward to the next book!

2) Stryder

Stryder Steele and his brother Anson have gone to Russia to investigate Vasily Poplov and the Russian Sex Slave Trade. He and Anson are able to get an invite secretly and hope they can save as many of the women as they can.

Zoya Morozova moved to Moscow to try and make something of herself while her family remained back home. Upon arriving she meets Katrina Petrova who befriends her and promises to show her around but soon she finds herself up for auction.

When Stryder wins Zoya, will he be able to convince her that he is one of the good guys and will he be able to keep her safe?

This is another great book in the series and I am loving these brothers and don't want it to end!

Almost right from the beginning Stryder and Zoya enter into a special relationship and I found it kind of weird given that she was just auctioned off as a slave.

Stryder was pure alpha and definitely liked having control over things but Zoya definitely challenged him as well.

At times I almost felt bad for Zoya with her stubbornness and her inability to look at things from a different angle after Stryder tried to talk about Sophia.

The stuff that happened in Dubai was expected in a way but I was still shocked at what Hadi was able to pull off and it was awesome!

The end was awesome and I look forward to seeing what is next for Anson!

3) Anson

Anson Steele will go to any lengths to find Natalia, a woman he first saw at Vasily Poplov's sex slave auction in Russia. He can not get the woman out of his head and he will stop at nothing to make sure she is safe, even if he means heading to the jungle in Argentina.

Natalia Alvarez was bought by drug lord Juan Montez and is now his property. She hates when he has his hands on her but she knows it is only for a limited time.

When Anson tries to rescue Natalia she refuses to go, as she has no idea what he will do to her but soon she finds herself in more danger with Juan. When Anson is able to rescue Natalia will they be able to leave Argentine safely or will Juan come after them for his own revenge?

This is the last book in the series and I must say I am super disappointed as I want more!

I really liked Anson and I can only imagine how shocked he was when Natalia did not leave with him when he tried to rescue her! I was glad she finally came to her senses but it was not without some difficulties for sure!

I was completely shocked at Natalia's back story and I loved it! She was super tough and I completely understood why she needed her revenge!

I liked how this book was a little more unique with how Natalia and Anson had to escape from Argentina and how it brought them closer together. I also thought it was awesome how Anson had to figure out who would be coming for him and where to meet.

I was sad about Anson's parents and how they died but I must admit that I loved the uniqueness of the situation.

The end was great and it ended well but I still hope for more books!!

Cindy says

THE BLACK STALLION TRILOGY

We get all three of The Black Stallion Trilogy together in one book. 3 stories with 3 totally different set of characters. The sexy hot dominant men who find 3 strong, beautiful women and their stories to love.

What an amazing, fast paced, romantic suspense story, full of twists and turns, danger and hot smoking sex!!

Each story Maddox, Stryder, and Anson have an interesting cast of characters, along with some mystery, and suspense. And the fact that these Steele men are dominant, powerful, successful men definitely had all my attention.

This trilogy by Alta Hensley and Maggie Ryan is a MUST READ!!! 5 stars to this trilogy!!

i voluntarily read an advance copy. This is my honest review.

Misty Warner says

I voluntarily read and reviewed an ARC of this book. This is the boxed set of all three of The Black Stallion trilogy.

Maddox -

Adira has always been her daddy's princess. She has just graduated from college and he is throwing her a big party with all her close family and friends on their private yacht. Only she doesn't expect it to end with a big explosion.

Maddox and his dad are in the middle-east on the pretense of buying Arabian stallions. Also to get a closer look at the Nazar family. They have been hired by Hadi to protect his family. Word has spread that someone wants to take out his whole family.

Stryder -

Zoya has just moved to Moscow on her own. Soon after arriving she meets Katarina. She makes Zoya feel welcome and quickly become her friend and takes time to show her around. Only Zoya quickly learns she doesn't end up being a friend at all.

The Steeles learn of a sex slave auction going on and make it their mission to rescue them. Stryder and his brother get an invitation and ready to place their bids. Now to make sure their save knows she is safe.

Anson -

Natalia is the daughter of drug Lord Bautisto Alvarez. When her entire family is gunned down by Juan Montez, she makes it her mission to make him pay. No matter how long it takes or what she must do to get close to him.

The Steele family has rescued all but one of the woman whom were sold as sex slaves. Anson has not been able to get Natalia out of his head since he lost bidding war to Montez. Who knows the hell she has had to pay but he will make sure she is safe and Montez suffers. Only once he tries to rescue her she quickly let's him know she is there on a mission of her own and doesn't need his help.

I have loved all the Steele brothers and hope one day we get Jennie's story.

Joyffree says

Three great stories that will warm your ♥heart

“Love causes the deepest pain and sorrow but also gives us joy and contentment too wondrous for words.”

The Black Stallion Ranch is home to the Steele family. Ranchers, protectors and covert operatives.

Maddox and Adira - A Warrior and a Princess - Tragedy, and Loss collide in this first story
Stryker (this is my fave of the three) and Zoya - To bring down the enemy he must become that which he loathes - Will his "save" forgive him or will she be forever scarred?
The final story is a lot of fun - Anson, and Natalia - We knew from Stryker's story Natalia was next on our list of "saves" How do two dominants work together? Can they? What if she doesn't want to be saved? Wait, that can't be right or can it?

♥?Fantasy Land Blog Book Reviewer♥? says

So I was kind of confused when I started reading this story. I felt like I was missing something. But it did not take long for me to get into it and find out that I was not missing anything and that everything would come together.

Maddox-

We get Maddox first who is the oldest son. Their family is known in the underworld as saving people (mostly women) and bringing them back to their horse ranch. When the Steele family goes overseas to pay off an old family debt they find themselves in a big problem.

Maddox is now in charge of getting the only survivor- Adira home to the Black Stallion Ranch and finds out who is trying to kill her.

Adira gives Maddox a run for his money in and out of bed. These two were awesome to read about and I really enjoyed their story.

Stryder-

We are on to our second story. I enjoyed Stryder in the first book. But it took a bit to get into his story. It was probably halfway or a little more until I really got into it.

Stryder has had a hard upbringing and was adopted into the Steele family. When he has the chance to save Zoya from human trafficking he jumps at the chance. Not only will it help him try to catch the bad guy they are going after but Zoya calls to him.

Anson-

I liked Anson through all the books. He is the youngest and also adopted. When he and Stryder went and saved Zoya they were unable to save others, but one really called to Anson and her name is Natalia. But unknowing to Anson Natalia is exactly where she wants to be. She has a vendetta and she will what she has to and nobody will stop her.

Now that Anson knows who she is and what she is doing, he will do anything to help her. I really enjoyed this story.

All together they make a great story and the family works well together. They find and protect women which you have to love. This is a must read story!

Tish Cocktails & Fairytales says

3 very fabulous and fast paced stories that are full of suspense, super hot sex and so many twists & turns. They are each very well written, each one just as good as the one before it. Once I started reading I didnt want to stop.

This book was given to me at my request and I provided this review voluntarily.

Badh says

Maggie Ryan and Alta Hensley have co-written 3 great books that they've decided to put together in one box set, which makes it easier for us to get ahold of the books and read them.

The boys of Black Stallion Ranch may be cowboys deep in the heart of Texas, but that's not all they do. Drake Steele and his sons, Maddox, Stryder, and Anson run an unofficial witness protection program. There are always people who need to disappear who the government can't or won't help, and that's when the Steele boys come in. They are going to do what they can to help those people, keep the innocents safe, and get rid of the bad guys. Whether that means they are going to need to go to Dubai, Russia, or Argentina or it means that they will go deep into their own Batcave in order to search through computers, they are going to keep their promises and keep people safe.

The first book is Maddox. He and his father go to Dubai for a horse auction, but also to meet up with an old family friend whose family is at risk and he wants them to get his family out so that they can be safe. Sadly, the only member of his family that they are able to rescue is his granddaughter, Adira. She was thrown clear of the explosion on the yacht that killed the rest of her family. Maddox becomes her rock in a difficult time, and eventually her lover.

Stryder goes to Russia with his brother Anson so that they can track down the man who was in charge of Adira's family's destruction. He's a human trafficker and they are going to go to an auction he is holding. While they are there, there is a woman who catches Stryder's eye, Zoya. The boys manage to win her, and they take her home to Texas, where she manages to settle into life as part of the Steele family and helps to find more missing women who were sold.

Anson is in Argentina tracking down Natalia, who is Zoya's friend. She is also the woman who caught Anson's eye at the auction, and he's been wanting to find her ever since. What none of them know is that Natalia has her own agenda and she's not willing to give it up until she's finished her mission.

The women, including Jennie, are all very strong in these books. I really like them, especially Natalia. She goes through so much and she stays as strong as possible throughout everything she went through, even though she is brutalized. But all the women have had terrible things happen, so I'm not going to judge one as worse than the other. The guys all have terrible things in their past too, which makes it easier for them to understand what the women have gone through, so I think that's helpful.

Each of these stories is great on its own, but being able to read them all in one place is just so great.

Tanya says

Book/Part 1 Maddox:

Former military, now cowboy/mercenary Maddox saves Adari to settle an old family debt.

Adari, an educated and independent Arab woman, is an innocent woman caught in the middle of her families dirty dealings.

When these two come together we experience a man needing to break his wild, independent arabian woman while she struggles to fight her submissive side and keep her passionate storm brewing

Book 2: Stryder

We knew from the end of book 1 that we were headed to save Zoya. What we didn't realize how close to home this was gonna hit for Stryder. Zoya may have started out naïve but she doesn't stay that way long nor does she stay as fiesty. I do love that she keeps he sass throughout and learns her needs to release her guilt and settle her anxiety

Book 3: Anson

Although still Alpha, he likes his Natalia sassy. Unlike the other women from this book, Anson got a woman who isn't afraid of the consequences and pushes her man to his limits.

These 2 are gonna have some exciting missions in the future.

Kathy Heare Watts says

THE BLACK STALLION TRILOGY

Now, all three of The Black Stallion Trilogy are together in one book. What an amazing fast paced, action packed, romantic suspense story with power, danger, and desire, which keeps the pages turning. There is an interesting cast of characters, along with mystery, suspense, murder, and revenge. The Steele men are dominant, powerful, and know how to accomplish the nearly impossible. For Maddox, Stryder, and Anson, they will not only be heroes, but they will also find love.

Maddox

REMEMBER, I'M THE COWBOY WHO KEEPS HIS PROMISES

Sometimes in life, a debt is to be repaid, and Hadi Nazar has called in his marker to Drake Steele. Words have it trouble is brewing, and his family is in danger, and he needs the Steeles to help protect them.

The Steele family run a safe house of sorts called the Black Stallion Ranch. It is similar to witness protection, but many of those they protect are part of the underground. The Nazar family has their share of dirty dealings, money laundering, and corruption. From the horse auction to the yacht, the bombs, and mass murder, Drake and Maddox must do what they can to protect the lone survivor, Adira Nazar, and bring her back to Texas without anyone knowing she is even alive.

The story will take many twists and turns with this covert operation. Maddox has never become involved with a client, but there is something about this exotic spitfire, Adira, that stirs his ire and his blood. They have many run-ins, that will land her over his knee. She keeps some secrets from him; that will come to light as their tête-à-tête plays out.

“He had full control of her heart, her soul, and her body.”

“Why did she like pain, to submit, and to be dominated?”

“He taught her that to truly live was to embrace life to its fullest.”

The chemistry and interaction between Maddox and Adira sizzle on the pages. The story is explicit in sex scenes.

Stryder

YOU'RE HIS WORLD, AND NOW YOU'VE ONLY ADDED TO HIS UNIVERSE

The second part of the story will pick up with Stryder and Anson going to Russia to a privately held sex slave auction conducted by Vasily Poplov, the man who was responsible for the annihilation of Adira's family on their yacht. As with the first story, it revolves around mystery, suspense, corruption, greed, power, and this time, young women kidnapped and sold into sexual slavery. The Steele family know that can't save them all, but are hoping to learn who the other buyers are and from the woman they buy, more about the other women.

Sweet, young, and naïve, Zoya Morozova left her family farm and moved to Moscow only to be befriended by Katarina Petrova, a plant for Poplov. Drugged, kidnapped, and held captive along with twelve other girls, and to learn their fate will include being sold into sexual slavery, she will capitulate when they threaten the lives of her family.

Stryder sees something in the eyes of Zoya and knows she is the woman they must bid on and win, no matter the cost. Leaving the auction with their purchase has them on pins and needles. The first order of business will be to get Zoya safely at the ranch, and then the next plan will be learning more of their operation.

The plot is intense and keeps the pages turning in this life and death challenge. It takes the reader into the seedier world of human sex trafficking, and the men who buy women. The Steele family uses money, brains, skills, and power to make things happen, even if it is to go to a slave auction and buy a woman. Getting Zoya safely away is the first order of business, then identifying the men buying the women is next. Between Anson's amazing skills with computers and Zoya's talents as an artist, this family works together like a well-oiled machine. Zoya and Stryder develop a connection, but her trust level falters with her fears.

“He believed in consensual. He believed in firmness followed by tenderness. And he believed in pleasing even more than in giving pain.”

“Every living thing needed comfort at times.”

In spite of the intensity and seriousness of the subject matter, there are so many times that something said, or a scene back at the ranch had me laughing out loud. The story has a great cast of characters, many from the first story, and I am sure they will also be carried into the next one.

Anson

I PLAN TO MAKE YOU MY TEXAS PRINCESS

Strong, dominant men, who care about human injustice, wanting to rid the world of corruptions, and when it involves a damsel in distress, they will do whatever it takes to make that happen, no matter what part of the world it takes them to. If in the process, they fall in love, that makes it all the sweeter.

What a conclusion to this amazing series and for Anson to find the woman who has been haunting his

dreams for the past six months. He made a promise to Zoya and himself that he would not stop until the last of the victims of the sex slave auction was found and rescued.

There is so much more to Natalia Alvarez than sex slave or victim. She is a smart and cunning woman, is skilled, and she has an ulterior motive behind wanting to be purchased by Juan Montez at the auction in Russia. Wanting revenge and being able to carry it out are two different things. Now that she is his property will she ever get out alive?

Anson Steele is an adopted son of Drake Steele, but he didn't come from an unhappy situation as Stryder. Instead, he had two world famous parents who both died doing what they loved and were heroes in the process. He has been raised alongside Maddox and Stryder, and this is a family that has a military background, are off the grid and have backing to help them in their worldly endeavors.

The plot will have many intense moments, life and death situations in the jungle and the city. How will Anson convince Natalia he is on a mission to rescue her from Montez when she realized he was also at the slave auction and even bid on her? The mission to rescue Natalia from Montez will take place in Argentina, and will deal with the corruption of drug cartels. It will also have flashbacks of the horrors Natalia witnessed as a child that claimed most of her relatives, and her grandmother's dying words to her.

"No more death. No more war. Peace, my Natalia. Find our family peace."

Before more lives are lost in the war against various cartels, will Anson be able to save Natalia and get her safely back to Texas and Zoya? Anson has been obsessed with Natalia from the first time he saw her picture before the auction, can she be the one special person for him?

"You're carrying my heart."

Hanan says

Kings & Sinners is the complete set of The Steele brothers.

The three brothers, Maddox, Stryder and Anson, along with their dad Drake own and operate The Black Stallion Ranch.

But along with operating this very successful ranch they work another job.

One that is covert and dangerous.

They have their own form of justice and those in their sights are far from innocent.

Maddox is the first book in the trilogy.

In this book the reader gets all the background information on the Steele men and The Black Stallion Ranch. When Drake is called on to return a favor he owes, Maddox helps him take on the mission for his own personal reasons.

They are called on to go to Dubai and help Hadi Nazar figure out who killed his entire family.

The innocent Adira, Hadi's only grandchild and the only surviving member of the Nazar family is caught in the crossfire of those that want her and her grandfather dead.

So it's up to Maddox to ensure she stays safe.

He takes her back to Texas and The Black Stallion Ranch.

Maddox now not only has to find who killed most of The Nazar family, keep Adira safe and hidden but he also has to deal with the growing attraction he has for Adira.

The number one rule of the Steele Men is: Don't get involved with the safes.

But sometimes rules will be broken.

Stryder is the second son and the second book.
He gets ahold of information that has him heading to Russia.
With the help of Anson they infiltrate an underground sex slave auction.
Going undercover they attend the auction.
Their heartbroken that they can't save all the women up for sale.
This being Stryder's safe one young lady in particular gets his attention.
He bids and wins the Russian sex slave Zoya.
He needs to immediately leave Russia with Zoya so that his and Anson's cover is blown.
When they all get back to the Ranch Zoya is having a very hard time dealing with not just what she went through but also she can't get the other girls out of her mind.
Things start getting intense and complicated between Stryder and Zoya.
Stryder can't stay away from Zoya and is basically attached to her hip. He's having a hard time when she's not in his sights.
With the guilt and sadness Zoya feels such inner turmoil she doesn't know how to deal with it.
Once again the rule of not getting involved with a safe is about to be broken.

And finally the third book is Anson.
While in Russia at the auction with his brother, Anson spots a young woman who was also sold.
He can't get her out of his mind. He vows to find her and bring her to safety.
He finds out she was bought by a vile man from Argentina who runs the biggest and strongest drug cartel there.
He goes to Argentina solo to bring back Natalia.
He finally gets a chance to rescue Natalia. Only problem is she doesn't want to be rescued.
Anson gets another chance to rescue her a few days later and again she refuses to go with him.
Not everything is as it seems with Natalia.

These brothers are not only rescuers of the forgotten and unknown but they are also Dominants.
All three are alpha through and through.
They are protectors and they are disciplinarians.
They are sweet and they are commanding.
Read this outstanding trilogy and get to know The Steele brothers.
Their father Drake, the lovable and one of a kinda Jennie and the women they fall in love with.

Jacky says

This is a set of the Black Stallion Ranch books. One book for each brother. I had previously read books 2 & 3. I wonder if a book will be written for Drake and Jennie?

Maddox

The first book in the series gives you the background in how the Black Stallion Ranch came to be. It introduces the Steele brothers, their father Drake, and Jennie. It is also about Maddox's mission and how he meets Adira.

The book has aspects of mystery, suspense, murder, and intrigue. You also get a healthy dose of romance, steamy scenes, domestic discipline, and a little BDSM. If any of these aspects are offensive to you, my

suggestion would be to pass. Not only on this book, but the other two as well.

Stryder

This is the first Steele brothers book I have read. I could tell some things had occurred with Stryder's brother Maddox, prior to this book, but I felt like there was enough explanation that it wasn't necessary to read Book 1 first.

I was pleasantly surprised to find so much action and suspense in this romance book. This book was so well written, that I found the sex trafficking scenes made me cringe.

After that, I had a hard time putting this book down. I liked all of the characters. Keep in mind that I men in the Steele family practice Domestic Discipline along with BDSM. If those things are not your cup of tea, I would pass on this book.

I will be going back to read Maddox's book, and I am looking forward to Anson's book.

I voluntarily read and reviewed this Advanced Reader Copy.

Anson

A romantic suspense based mostly on the jungles of Argentina. Anson finally had the opportunity to rescue Natalia, but finds it more difficult than originally planned

Their relationship grows as they work their way through the jungle trying to reach safety and the Black Stallion ranch.

I liked that Natalia was a fighter, and trained in survival. Anson respected her and her skill set enough to let her do what she needed to do.

The theme of the book is family not bonded by blood, but by love, support, and loyalty.

I voluntarily read and reviewed this Advanced Reader Copy.

Jessica says

Kings and Sinners is a trilogy of three brothers that are fiercely protective and willing to go through all of the extra steps to save those they love! These books have amazing detail, so much real emotion, and lots of steamy passion! Each book is fully contained, but there is an overarching plot line that encompasses all of the books. As soon as one happiness is found, you'll want to immediate start in on the next book to find out what will happen next and eventually how it all will end! Get read to bring tissues as your heart breaks and mends back together again with each of these amazing stories!

Maddox - Maddox and his father are sent to Dubai in what looks like a horse buying expedition, but their true mission is to settle a debt and save as many members of the Nazar family as possible. Adira's life is completely changed in one night, and the only rock she can find in her misery is Maddox. Adira wants Maddox while he fights his attraction, but his mission isn't fully done and the danger is still present. Is it

possible for this couple to have a future? Oh my, I definitely cried while reading this story, but I loved it! I was amazed at some of the details, I loved their passion and connection, and I was just completely drawn into the storyline. I can't even imagine the pains Adira had to go through, but I loved that Maddox was her support, and Jennie was probably my favorite supporting character! This was a great introduction into this family and I really fell in love with Adira and Maddox's characters!

Stryder - Zoya is living in hell, about to be sold to the highest bidder and forced to be a sex slave. Her new master begins by whipping her, but instead of pain, she feels hope that he will save her. Stryder is on a mission to save Zoya, to crush the men who forced her into this hell, and to save the rest of the women continuing to live in it. Even though Zoya is safe and aiding in the rescues, she feels a crushing amount of guilt. Will her guilt and the monster threatening the Steele's, can Stryker help Zoya and keep his promises? Stryker and Zoya were an amazing team, full of passion and caring and intense desires. Once again, this book rocked my heart by the horrors that Zoya had to live through, but luckily Stryker was there to save her, center her, balance her, and protect her. I loved her fire and I loved his calm, even though he was often described as cold or acting before he thought, he was exactly what Zoya needed. The plot line in this story had me turning pages and I absolutely loved the ending!!

Anson - Anson has thought of little else for the past six months except to save Natalia. Now he's in South America and it's his chance to save her, except Natalia doesn't want to be saved! Natalia is out for revenge, but when that gets destroyed due to a brewing drug war, Natalia and Anson run for their lives. Can Anson convince Natalia to return to Texas with him, or will her need for revenge put everyone in danger? Oh my goodness, this story was sexy and sweet and strong and swept me up on their wild adventure. Anson was this amazing character that was dominant, but also extremely caring and aware of what Natalia needed. I loved that she was such a kick butt character, saving Anson even, but had her really vulnerable moments, too! They made a really great team together and I loved how Anson was just so proud of Natalia! The plot line was fun, the ending was just absolutely fabulous, and I really loved this whole trilogy!
