Gates of Hades

Gregg Loomis

Gates of Hades Gregg Loomis

Jason Peters works for Narcom, a company that handles jobs too dangerous or politically risky for U.S. intelligence agencies. But when his house is attacked and he barely escapes the smoking wreckage, he knows this new case is out of the ordinary, even for him.

Jason will travel the globeï¿½from Washington, D.C., to the Dominican Republic, to the volcanoes of Sicilyï¿½in a desperate race to uncover the ancient secret that lies at the heart of an unimaginableï¿½and very deadlyï¿½plot.

Davie says

My first book by Loomis. Pretty good.

Barbara says

Another great novel from Loomis.

Jennifer Eckel says

Meh, I think this was an early work and he was still figuring out the genre. Russian Ecotourists and secret organization shoot it up all over Italy and the Med. I could take it or leave it.

modish says

Great easy reading. Full of suspense

I would recommend it to anyone who likes to read anything related to espionage and history. Easy and quick reading

Susan says

Another fantastic read by Gregg Loomis!

Steven Raszewski says

Good read.

Claude Dancourt says

This is the first book I read from Gregg Loomis. I like it, though I would have loved a bit more "treasure hunting/historical mystery". The characters were great, and very realistic. Also, who ever heard about a spy who'd rather be Gauguin than kill people?

Jenny T. says

Jason Peters is like a one man "A Team" who faces eco-terrorists in this novel. The action, which includes a lot of shooting and blowing things up, spans the globe from Carribean islands and Washington DC to Italy. Ultimately I found this book was entertaining enough, but the plot was a bit simplistic.

PROMete says

Mara?l? v? yum?aq ?s?rdir. Dedektiv sev?nl?rin xo?una g?l?c?yind?n ?min?m.

Erin says

Very anti-progressive and propagandist. I was disappointed because I liked the characters, but after 100 pages and 4 anti-civil-liberties rants I skipped to the end and read the last 2 chapters to see how it all turned out.

James F. Stiles IV says

Good read

Story line was believable. Characters well-defined. It was an action story that was enjoyable to read. I will look for more of his stories in the future

Cyndi says

Not a bad book, but not even a single mention of Lang Reilly though Amazon has it tagged as a Lang Reilly thriller...

Glen says

I really enjoyed the book. Jason Peters is a character that continuously keeps you turning the pages. Peters does whatever it takes to get the job done. Filled with action and suspense. A great read.

Mick says

I've read a couple of other Gregg Loomis books (The Pegasus Secret and The Julian Secret), and both of

them were much better than this one. The writing just seemed really uneven in this one. Also, there were several spots where I felt the story was weak and that the author was just filling out pages. Also, when the journal of Severenus is first introduced, it just comes out of nowhere.
