Star Wars Adventures: Boba Fett and the Ship of Fear Jeremy Barlow

The wreck of the Reverie, a four-hundred-year-old abandoned luxury liner is rumored to house an ancient relic of immense value. When Boba comes into possession of a map revealing the ship's current whereabouts, he sets his sights on the prize. But he's not alone two bounty-hunting brothers with a grudge against Fett are now on his trail, hoping to win the treasure for themselves. But neither Boba nor the brothers are prepared for what else is lurking within the creepy corridors of the forsaken Reverie...

Tracey says

little boy returned it today at the library and said it was a good read so i gave it a try..not bad for a children's star wars graphic novel...only took me 5 minutes :)

Hillingdon Libraries says

Find this book at Hillingdon Libraries

Jacob says

Public library copy. The art was really impressive compared to other Star Wars comic books I've looked at, the revenge plot wasn't especially clever or unexpected, however.

Kris says

Recommended for gr. 4-7. Quick read (short graphic novel). Will appeal to Star Wars fans – the reader needs to know who Boba Fett is for it to make sense, I think. Very simple plot, lots of action and spider-like creatures.

Kevin Bogus says

Good read about Boba Fett and how he as always stays at the top of the bounty hunter food chain. I would recommend to other Star Wars fans.

Josh says

Nothing like a quick, fun Boba Fett adventure to break a long string of not great Star Wars comics. I'd also like to praise Daxiong's artwork, because unlike the Leia comic in the Adventure line, it is actually is good. He does a very good job. It shows that just because something is "for kids" doesn't mean it has to be bad, be it the art or the story. And that is another thing this and the Chewbacca one did well was that they didn't play it down when it came things like death, treachery, and revenge. Also, Fett's zinger at the end was a great finish.

Andrew Rose says

Lessons in bounty hunting

Boba Fett takes on two rival bounty hunters struggling with the legacies of their father, something he is very familiar with. Good read detailing the motives of the man behind the mask.

Whisper Poet says

Boba Fett is seeking the ancient ship *Reverie* and the treasure found on it. He encounters two rival brothers along the way, and they all find even greater danger on the ship. There is a nice, unexpected twist at the end of the story.

This graphic novel is high interest with full color pages and illustrations. A very quick read, this will appeal to struggling and reluctant readers. The text is sparse but adequate to carry the story along. The book also stands alone well, as I was able to follow the story without much background Star Wars knowledge. A timeline is included at the end of the book for fans who are interested.

This is a great addition to hi/lo and graphic novel collections.

Sydney Squidney says

An enjoyable Boba Fett adventure that can be appreciated by ALL ages with no prerequisite needed on any backstory other than the SW movies, really. But, I do think this story was ALSO great for loyal Boba Fett lovers; I've *loved* these one-shot stories in the Star Wars Adventures digests and have found them engaging, and sometimes there's connections to the expanded universe.

This Fett adventure **delivers** action and Boba blowing things up but also we get a sense of another facet of his character in that even to Boba, perhaps there's some things worth more than money...

Priorities, Boba has them. Has he at last found a bounty not worth the prize? Read and find out!

I also enjoyed seeing Boba finding himself having to work together with a couple bounty-hunting competitors also seeking the artifact while maintaining a game of wits as they attempt to stay one step ahead of each other.

As much as I love the title *Boba Fett and the Ship of Fear*, there wasn't a whole lot of fear going on, but then again, we **are** talking about Boba Fett.

There are however, vicious creatures, the hair-raising Arachedrons, who guard the valuable ancient relic inside the wrecked starship *Reverie*, which I don't feel we saw enough of that vast interior, but the artwork overall was REALLY good, very detailed throughout. What was shown of the ship was nicely done for sure.

I really enjoyed this fast-read, I found it engaging and I totally recommend Boba Fett and the Ship of Fear to

any SW fans!

Roy Hudson says

Even though the character of Boba Fett has such little screen time in the Star Wars films, he has an incredible backstory in the Expanded Universe. This adventure, in which he seeks a lost (cursed) treasure, gives a glimpse at the nature of a character that casual Star Wars fans didn't get to see in Empire, Jedi, or Clones. I enjoyed it. The art was great, the characters were well-developed, and there were even a few lessons about the pains of family loyalty. These Adventures comics are especially great for beginners since they stand alone and a reader does not need to know any other back story. Highly recommended.

Darren U says

It kinda cool that boba fett survives a whole colony of spiders

Abbie says

Definitely for the younger ones. This doesn't really play down to a lower level, but there is a lack of character development that would be present for an older audience. Not too bad, the art was decent, and I always like seeing Boba Fett in action.

PWRL says

A

Josiah says

Boba Fett. He's the best he is at what he does.
