## **Keeping It Real** Annie Dalton

Mel is thrilled to be sent on an urgent angelic mission back to her old school. She always jokes about her old school being a hellhole, but when she arrives she's shocked to find that this is literally the case! Graffiti, disobedience, bad behavior, and terrible grades aside, this school has problems. Invisible beasts from hell roam the corridors, and the students have completely lost sight of their dreams. When she finally sees her three best friends, she's horrified to see how much they've changed. One has almost totally gone over to the Dark Powers, and worse still, this whole nightmare might be all Mel's fault!

### Sally says

I liked this one much more than the last! Mel is sent back to her old school and gets to see how her three best friends have changed in the year since she died. It's a very gritty place, the characters are not that likeable, and they also act a lot older than 13 at times. I liked that much more than if they'd all been total Mary Sues in a place that's all sunshine and roses! But no, they go to a crummy school in a shitty area and do some very dodgy things. It'd be more believable if they were four or five years older, but age isn't mentioned much so it's easy to just pretend.

### Ceasars says

This is one of the first books I read in english. It was hard. And it was only one year ago I read it. And look to what I'm reading now!!! I actually improved in reading.

[ This book was so good. I couldn't put it down. Really. I actually could not bring myself to put the bookmark inside the book. I'm a bit confused as to what happened to Sky in the end though. But Brice was so sweet in this book <3 (hide spoiler)]

### Mariam Abood says

I bought this book on impulse as a little kid after I found it in the bargain bin at Woolworths. As a naïve eight year old I was kind of expecting a lovely fairy glittery story since I saw a pink book, with a girl with wings on the front cover. Instead I read a dark children's book that romanticised the idea of dying and the after life.

It's not the darkest book I've ever read but for an eight year old it was up there. This book follows the story of a girl who becomes an angel after she dies, but decides she wants to visit her family, despite being dead. Even though she was visiting them as an angel, and not a ghost, it felt a bit like a ghost story because she was visiting her past life but her family didn't know she was watching over them. I found this book quite dark because while she visits her family as an angel she watches them still grieve over her death. It's really not that bad for an adult, but it was bad for a little kid.

There were cute scenes though, good for the target market but still creepy.

## Tara Calaby says

This series has been drifting from Junior Fiction towards YA Fiction in my opinion, and this was the book that completed the jump. It's a lot darker than the others, largely because it deals with the current era, rather than the usual historical location. For the same reason, it's not one of my favourites (personal bias) but v.well done, particularly in terms of suspense.
