Uma história que apesar de previsível nos prende para sabermos o desfecho. Aquele tipo de protagonistas que se enfrentam e lutam contra os sentimentos, mas que aquela eletricidade já existe entre eles e não tem jeito. É uma história de amor e intrigas, eu recomendo

Saly says

This was such a typical Marton, hero thinks he is God, comes to clean up after his dead degenerate brother and makes assumptions about the heroine and who can forget the punishing kisses. Heroine is a typical HP heroine, silently suffers her younger sister's antics and even takes on her child, who she adores and pretends to be his mother. The hero takes her with him, she hates him, kisses him, you know how it goes. They fall fast for each other but still she continues to lie, things blow up and then HEA. Honestly, it's been done so many times before.

This is not a bad read if you know what you expect going in, drama and a heroine who melts when the hero touches her, I was just not in the right frame of mind to read this I guess since it is more of a 3 star, typical HP read but the whole monotonicity of it makes it 2 stars.

Not my fav book by Sandra Marton.

I didn't feel any connection to the characters and there wasn't much of a plot or drama in my opinion. I didn't care for either the hero or heroine and I didn't feel the love between them.

I feel like the last few books I read by her weren't as good as other books I read and enjoyed by her but she is still an auto buy for me and I just hope her next book will be better or she won't be an auto buy anymore :(

She's really the sister. He uses his dead brothers key to enter the apartment and finds her there in her flashy underwear. Karim is horrified that this is the mother of his newly discovered nephew. do people, in real life, really fall into bed with a man they just met a week or so ago? that just plain boggles my mind! especially if said man was trying to take your child away from you and didn't really have any scruples about doing so.

I really am a sucker for punishment for picking this book. I've read most of the author's books and she always use the same formula. So if you have read one book, you've pretty much read them all. The hero is still as arrogant as ever, and the heroine is stupid, saintly, and meek. I'm still waiting for her to revert back to the days when her story is enjoyable, i.e The Barons and Knight Brothers.

Tonya Warner says

Sheikh Karim al Safir is the next in line to be the King of his country. He has always done what is expected, what is required, and what is needed for him to become a successful ruler one day. Part of his duty was to spare his father from the self-destructive life his late brother had lead. Cleaning up after Rami's worldwide jaunt before his death leads him to Las Vegas and the one place his brother had seemed to set down roots. Instead, he finds Rami had left behind a son.

Rachel Donnelly had spent a lifetime looking after her sister. When her sister, Suki, hooked up with Rami, had his son, then left him with Rachel, Rachel raised him as her own. Having Karim show up and threaten to take him away was more than she could stand.

I enjoyed the story. Two very different people, but with very similar family histories find that opening oneself up to love is sometimes all it takes.

StMargarets says

He's a sheikh. He doesn't have a heart because mommy left when he was a boy. He's a Neanderthal whose now-dead brother fathered a child.

Heroine is a spunky waitress in Las Vegas who lies and lies and lies so she can keep her sister's baby. Of course, the H/h are instantly attracted to each other. The hero makes threats and throws around diplomatic immunity to intimidate the heroine who lets the hero think she is the mother of the child.

It's been done before.

But – the hero is a quick worker. He kisses the heroine within the first ten minutes of meeting her. Barges in on her while she is taking a shower. Gets her in to bed within a week of living together in his apartment in New York.

He proposes marriage. Heroine accepts without telling him the truth. Once they're back in the hero's home sheikdom, they are greeted by the heroine's sister.

Ooops.

And really that's about it. The H/h have lots of sex and share child care duties. I wasn't feeling the love, but SM keeps the story moving along.

Jacqueline says

Pretty decent typical SM. This is a trope we've read many times. The sister pretends the baby is hers to keep the rich uncle from taking it away from her. Typical arrogant SM hero who falls for the heroine but then there is the requisite break up a couple of page before the end where he finds out she's lied to him and he repudiates her only to come crawling back. But it's a formula that works for me so it's all good. Although I have found with my SM reading that I wish the hero's grovel was just a bit more thorough before the heroine falls all over herself forgiving him.

Missy says

A brave gusty heroine in sparkling showgirl bikini raising a child born of her heart struggles to keep him when his studly macho uncle comes to clean up his late brother's messes. They are drawn together in love for the baby and a growing love for each other. The evil slutty selfish sister comes back & tries to destroy everything but true love conquers all. A wonderful story about how the love of a woman & baby thaw out a man's abused heart to love & trust again.

OH MY GOODNESS, IT IS A MEDICAL MARVEL!!

I've been having a run of modern kinder/gentler/boring HPs lately; all the trappings but none of the crazy. This was just published a few month ago, but thankfully it's classic HP and classic Marton. Cynical tycoon Sheikh Karim meets feisty mother (he thinks) of his dead brother's child and falls in love against his will. Of course Rachel is really just the good sister taking care of the baby her bad sister wanted no part of. All was delightful in its unoriginal way, though a bit light on the humor and a bit heavy on the shut-up kisses. It

would be a four star read except the ending fizzled out.

Tia says

I really liked this book but at the same time I was annoyed. The hero in the story has such a macho attitude that he thinks he's gods gift. He takes Rachel and her baby Ethan away, knowing that Ethan is his dead brothers baby. However what he doesn't know is Rachel is not Ethan's biological mother, her sister Suki is. After Suki abandoned Ethan, Rachel worked her hardest to make sure that he is well taken care of.

Karim, the hero, thinks he can just take Ethan and Rachel and so they travel back to his desert palace. Where Suki shows up, lies her face off about the situation and Karim abandons Rachel. Only learning the truth at the end of the story, then kissing immediate ass and claiming that he's loved her all along.

Of course I loved reading it but the God Complex guys really make me wanna smack em.

Rebecca says

This book could have been so much better than it was. I couldn't stand Karim at first, but in the middle he seemed less of a jerk, but then it went downhill again. Once Rachel realized he wasn't going to take Ethan away from her she should have told him the truth. Still, I felt he could have at least listened to her once he did find out instead of believing a complete stranger.
