There are 6 books in this series currently. I think the story is kind of choppy in the first 2 books - the timeline seems off and rushed at parts but, the story line is very entertaining and overall I think they are worth reading. The characters are fun and the sex is hot. Just when I think there is too much sex, the author mixes it up and keeps it very entertaining. The stories in each book vary and kept me amused.

I recommend this series and enjoy it more and more as the books develop; however, I also recommend that you start with the 1st book and go in order otherwise it could get very confusing.

Successful gay romance writers Matt and Thomas want nothing more than to enjoy their honeymoon in the tropical paradise that is Hawaii, but it is not meant to be. Or rather, there is lots of enjoyment of the physical kind, but they keep getting interrupted. There are sharks and nightmares, more than one panic about their niece, and then there are various family members to deal with. As usual in this series, the setting is amazing, the food descriptions are hunger-inducing, and the sense of humor made me laugh more than once.

After an idyllic few days at Black Point, Thomas and Matt are now spending the rest of their honeymoon on Oahu with Matt's family. But heated nights don't lead to peaceful days for the newlyweds. Old wounds resurface as unexpected visitors break in on Thomas and Matt's holiday and one disaster seems to come on the heels of another. To make matters worse, creative difficulties have arisen in the film adaptation of Thomas' book, Last Chance. With tension on the rise for all, will Thomas and Matt ever be able to find the peace they once had at Black Point?

Real life can intrude on even the best moments, and this touch of realism adds character to **Black Point Revisited**. In their third story, Thomas and Matt are as engaging and sexy as ever. I loved that their relationship stayed strong in the face of the chaos around them and the two heroes continue to balance one another perfectly. Matt's family plays a large part in **Black Point Revisited**, and while I admit I found them to be a mite too overbearing and intrusive in the first two books, I did find them more likeable in this outing.

By turns tender and erotic, **Black Point Revisited** is an enjoyable installment in A.J. Llewellyn and D.J. Manly's entertaining Black Point series. I look forward to visiting Thomas and Matt again in their next book, *Black Point Surrendered*.

In this book, Thomas and Matt have just had their honeymoon and they are facing a lot of family issues that they must work through as a couple. Thomas' book is being turned in to a movie and Matt is helping with his film production and Hollywood experience. There were not as many new developments in this story as in some of the others in this series, but it was a good, quick read.

3.5 stars

Nice continuation of the series. Lots of loving and sex, family fun and drama and then there's Daphne, the cutest, smartest toddler ever.

There's just so much love in these books, so much heartbreak and misunderstanding, but also so much compassion and support and just plain adorableness. This was a great addition to the series and I love that with each one, I get to know the boys and their families better. The Maui get-away was fabulous, the descriptions so rich and beautiful, until the shark found its way into the scene and everything went to hell.

Daphne has to be the sweetest baby ever, just reading about her makes me smile and giggle, obviously she's wrapped me around her little finger just like she has everyone else. She's a great little character all on her own and brings out the most wonderful tenderness from all the characters. Again, Cole was a scene-stealer for me - I just love him, and I love to see the trust and love growing even more between Thomas and Matt. On to the next one.
