Allison says

I liked it. Sibyl is smart, self-sufficient and learning from her past mistakes. I loved the folks living in the home next door, especially Mr.Buttons who is dealing with some issues of his own. And speaking of dealing, he pulls a Tarot card for everyone every day and who knows what the results of that might be. An interesting mystery and a possible love interest along with some fun characters makes for an enjoyable read.

Britney says

What a delightful read. A cozy mystery that takes place in a small Australian town. It has a little "if you could call it "paranormal in it.

A couple characters were eccentric but added character to the story. I loved the local and characters. If you are looking for a cute quick read this one is for you.

Shelly Tarsky says

Good Mystery

Nice mystery with an unexpected twist at the end. The characters dare eccentric but likable. The mystery was believable. Looking forward to book two.

Elizabeth Dodd says

Very clever.

The main character comes from a long line of family women who have visions of future events. Fortunately for her, she pays attention and it saves her life!

There are marvelously eccentric characters to add to the entertainment and a future romantic possibility. The solution was not what I expected. It was quite a surprise, but worked perfectly. What nasty people!

Sadie says

Cute and cozy mystery. Can't wait to jump into the next book of the series!

Anne says

I so enjoyed this book. It had a great story. Sybil was believable and smart. The whole cast of characters

were just plain fun. I hope to read more of this series. This book proved to me that books can be totally enjoyable without the language and sex that seems to be stuck in some mysteries for no apparent reason. Read this book. You won't be sorry.

Cheryl Landmark says

This was not the most exciting cozy mystery I have ever read, but for the most part it was enjoyable, pleasant, and fun. And, the paranormal aspects added an intriguing touch. I loved the dog quotes at the beginning of each chapter and the idea of a mobile pet grooming business. I just wish we had seen a little more of Sandy, the adorable rambunctious pup that Sibyl acquired part way through the book.

There were certainly plenty of eccentric, quirky characters in the book, but they could have been a little better developed. Perhaps they will be in future books.

One major issue I had with the book was the author's constant translating of Australian terms into their U.S. counterparts. The terms weren't that difficult to interpret, and this habit became very annoying after a while.

The mystery was quite light and predictable, but it was fun, too.

Sara says

First of all, why did the main character find it necessary to point out when she was using Australian English (as compared to any other English, I guess)? Not once, but at least 5 times. I know she's Australian, and I understand she's going to narrate in Australian English. And even if I didn't know the words, that's what dictionaries are for. I don't need Sybil to "translate" for me.

Anyway, the mystery was weak and not particularly interesting, the characters were quirky but predictable, and the main character was a bit on the oblivious side. The narrative was clunky (a whole page dedicated to Sybil making oatmeal in a microwave - just riveting), and I just didn't feel any spark to the story.

Allison Kohn says

An interesting murder

This murder takes place in the Australian mountains. I never read anything in that particular place before. Most stories I have read about Australia have been about cattle ranches or the coast. I thought it was very interesting and she saw visions warning her about danger, which is something that has happened to me more than once so I know it isn't bogus. I believe anyone who likes mysteries will enjoy this book.

Mary Tumele says

This is a perfect representation of a "cozy mystery".

As a cozy mystery, this book was exciting and enjoyable to read. I will look for other books by this author!

Melissa says

This book tried to be too many things at once: modern gothic, cozy mystery, and chick lit. Add in the info dumps about life in mountainous/rural Australia, weird characters, and stilted dialogue, and you got a not so great reading experience. Finally, get a copy editor stat! I won't read another book in this series or anything by this author.

Molly says

An absorbing read

I love a book that I can get truly lost in, and nothing does that better than a good mystery. From the beginning of the book I was struck by the descriptive narrative that pulled me in without boring me. I could vividly see the scenes and characters in my head. I could also feel Sibyl's discomfort at everything being thrown at her. From literally walking into a murder scene to trying to adjust to this new town and life.

The author definitely knows the quirks that are only found with a small town and she has artfully worked the character of the rural community into the story. As the story unfolded I found myself laughing at the comical antics performed by Cressida, felt frustrated for Sibyl, confused by officer Blake, and in love with Lord Farrington and the rest of the crazy cast. As this town and its cast become the new normal for Sibyl she finds she might actually enjoy it here, well besides the fact there's a murderer at large...

This is a very fun and captivating book and I look forward to reading the rest of the series. I was able to lose myself in this world, and to me that's the sign of a good book.

Robin says

A quick read. Not sure if the lead character is American? There were several references to verbiage being different in Australia. Also, found the plot difficult to follow - it seemed muddled in places.

Linda Cole says

Good

Enjoyed the story and the characters are likeable. Plot was entertaining and kept my interest. Will read next in series

Chris says

This was one of the cutest cozy I have read. The characters were quirky enough and the story tied everything up at the end. Will read more by this author.
