The Cowbear's Secret Christmas Baby

Liv Brywood

The Cowbear's Secret Christmas Baby Liv Brywood

Sexy cowboy Brady Grant belongs in Rachel's past. But after a final round of chemotherapy fails to cure her son's leukemia, she's forced to hunt down the man who broke her heart. Her only hope of saving her son is to convince his father to undergo a dangerous operation. But before she can ask for his help, she must reveal the secret she's been hiding for four years. Brady's stunned by Rachel's deception, but he can't contain his bear's carnal response to the BBW's seductive curves. While he struggles to forgive her secret, he must risk his own life to save his son's.

This is the first book in the paranormal bear romance series - Curvy Bear Ranch. This is a stand-alone book with no cliffhangers.

Greg Dixon says

The cowbears secret Christmas baby

A very enjoyable read but quick shaping up to be enjoyable series must read the next of the series recommended highly can't wait for the next one of the series

LiLu says

A Feel Good Read

I thoroughly enjoyed reading this book. It's a new spin on a shifter romance. Well written, with a clearly defined storyline. An overall really good story, that was easy to read, and I loved the ending.

Sydney M Neblett says

The longest distance between two people is miscommunication

What an awesome read! This book mirrors real life in the way it portrays young love, the decisions we make, the results of those decisions and the long journey back to where we are meant to be. Rachel was young and under stress and reacted poorly when she spoke to Brady. He was no better, focused only on what he thought he had to do he missed what was right in front of him. With the support of family, these two struggle through a hardship no parent should have to endure in order to find their way back to each other and their HEA. I can't wait to see what happens with the rest of the cowbears.

Patricia Baxes says

What a terrific read!

Oh my gosh...what an amazing read! Great storyline; awesome characters; just the right amount of angst; and a totally kickass HEA. ♥?♥? This is definitely a keeper!

Nancy Williamson says

I received a free review copy of this book in exchange for an honest review. I really enjoyed this book. Brady and Rachel were separated when Brady went into the marines and Rachel was shocked and didn't tell him about the son she was carrying. Now Brady is out of the Marines and their son is very sick. Can she ask him for help when it could mean him putting his life on the line? Will he even speak to her after their years

apart?

When Brady sees her, he wants nothing to do with her and his brothers are very protective of him due to his time in the Marines.

This is a heart warming story about righting wrongs and seeing that love concurs all. I really enjoyed this book and couldn't put it down until I found out what happened. The writer did an awesome job of putting fears, love, and all emotions into the story so that you felt them as well. You will be glad you read this heart warming story. Truly awesome.

Jamie Stephenson says

I really enjoyed this one. it was kinda sad because of what was going on with the son but they put their personal problems aside to help him and it wound up saving their relationship ship and the boy's life. I'm pretty sure I've read another one in this series but I'd really like to read the second one because as gruff and growly as he is I want to see him find his mate.

Roslyn Donohoe says

A great read.

I think this might be the first time I've read this author, (I'm not sure), but it won't be the last. I really enjoyed it. I'll be looking out for more of hers to read.. Well worth the read.

Carol [Goodreads Addict] says

The Cowbear's Secret Christmas Baby is book one in the Curvy Bear Ranch series by Liv Brywood. This is my first book by this author and I really, really enjoyed it. I chose it first because of the cover. I mean, just look at it. I thought it would be a perfect addition to my Christmas reading for this year. And it was.

Brady Grant has been home for just a couple of months from his tour with the Marines. He lives on a working ranch with his brothers. Brady is a bear shifter. He felt so strongly about doing his duty and serving his country. But the things he saw have haunted him since he's been home. Brady has never gotten over the girl he left behind four years ago. The only girl he had ever loved. He thought she would wait for him when he told her he had enlisted. But she was so angry that he was leaving her that she ended things. Over all these years, though, she was never far from his thoughts. And then one day, as he was working a horse on the ranch, he looked up at the sound of a car, and there she was.

Rachel Stevenson was only eighteen years old when the man she thought she would spend the rest of her life with told her he had enlisted in the Marines and was leaving. She couldn't believe he did this, that he was going away and leaving her. There was something very important she had planned to tell him that night. But she couldn't do it. He was leaving. So she walked away and took her secret with her.

Now, four years later, Rachel has a sweet little boy who is very sick. He has leukemia. The doctors have tried everything. He did not respond from the latest treatment and there is only one option left. But for it, they need his father. A father that doesn't even know he exists.

“They were perfect together, made for each other. How could she have ever let him go?”

Rachel doesn't know if Brady is back or not so the best place to start is their family ranch. When she pulls in, there he is! He's still just as handsome as he ever was and the feelings all come rushing right back. She's sure she is the last person he wants to see but she has to find a way to tell him he is a father. Will he walk away? Or will he help her?

This was such a sweet book and it had all the elements of a beautiful Christmas story I could ask for. Rachel's little boy was adorable. And I fell in love with Rachel and Brady, and their families as well. They were so sweet together and their chemistry was hot! The story is brought to a conclusion regarding Rachel and Brady but there are still some elements that will continue through the series. Book two, The Cowbear's Curvy Christmas, focuses on Brady's oldest brother, Mack. I definitely look forward to continuing with this series.

Puna says

Rachael was HORRIBLE!!!! She keeps the knowledge of her child to herself even when he gets sick. Making him go through painful, experimental treatments rather than tell the father & his family that there is a child. All with the stupidest excuses, she didn't tell when she first found out because she was young, meek & didn't want the MC to resent the baby. Later it was because she didn't know how to reach him. Umm, he sent her letters and his family lived in her home town. The when the child became sick she wanted to handle it on her own and still supposedly didn't know where he was. Once she comes back to town she acts like SHE's the victim.

Once you get passed all of that BS you have the magical medical stuff to deal. If only every hospital waiting room had nurses handing out pills to calm families down. Who knew you could have a transplant or be in a coma and be out of the hospital making snow angels in barely 48 hrs.

Ann says

Another great book by this author loved this book

PepperP0t says

Single mom Rachel Stevenson got bad news on her 4 year old son's latest test results. The chemo didn't work and with no siblings his best chance at life is for his father to donate his bear shifter bone marrow. But Brady Grant broke Rachel's heart when he went to the marines and doesn't know he's a father. First things first, find

Brady, tell him and save their baby.

Brady told Rachel was obligated to join the marines but her logic didn't accept it. Though Rachel was the first person Brady wanted to see when he got back, their bitter parting made him hesitate. When she shows him their son, Brady guesses he's the father but walks away in anger. While not a fan of the secret baby trope I never warmed to self-involved, cowardly and whiny Rachel in this rushed read.

Rating: 2stars

Alice Boni says

The Cowbear's Secret Christmas Baby by Liv Brywood. I received a free copy in exchange for an honest review. I like the way these are written . They are a not for serious shifter fans. They are light romance reading with the extra element of the bear shifter. A young girl , a dying child,a father who doesn't know he is a father is a great mix.. Add bad storm both physical and weather wise to complicate things and add depth.. Liv manages to pull it all together and give us an enjoyable read. I like the happy ending.

Tesha Moucheron says

New to me

This author is new to me and I have to say this was a great way to start out reading her. I want to read about all the brothers and I'm downloading the next one. This author could potentially be a new one click author for me. Very excited for the next book.

L M says

Have read this book ages ago. Once I started reading it I remembered it had annoyed me due to Rachel's weak attitude.

You do anything for your child and go even further when he is dying. She was too slow in not telling Brady about Jimmy's sickness. As a single mother with a very sick child she should have been portrayed as tougher than she was. You don't survive things like that without inner strength. She allowed Brady to treat her badly again when she went to tell him about their son.

YES, she was in the wrong for not telling Brady she was pregnant and she was very wrong for not letting his family know about Jimmy. Yes, she said some nasty things but she thought he was her forever and he just went off and joined the Marines.

Brady was a bit of a meany and it seemed to be all about him and what he wanted, needed. He HAD to join the marines. Rachel never even had the time to tell him she was pregnant before he was gone. Yes, he had written to her and been ignored but she was only a child herself struggling with being pregnant, believing he didn't love her when he left her. He never once thought about what Rachel was going through, never asked his brothers to check on her or anything.

He was very nasty to her when she came and tried to tell him about Jimmy. There was no apology until right at the end for upping and leaving Rachel. Then he says I FORGIVE YOU. OOOhhh I was so wanting to kick him where it hurts.

This book wound me up so I did not have that feel good vibe at the end. These two idiots deserved each

other.

Wild_irish_rose says

Loved the story, but then I love secret babies and add in a bear shifter--I am in reading heaven. I plan to read the rest of the series! This is my favorite of the series. Learning you have a son is traumatic, but hearing he is dying is devastating and Brady definitely was that.
