Nothing quite like taste of death to make the heart grow fonder...

Urenya has been conditioned to be the best version of herself. As a healer, she is held in high regard. As the closest friend of one of the most fearsome generals in the Brion armies, she has a delicate role to play. Not only must she be wise and with hands that can heal any harm, but she must also act as a moral compass when the bloodlust of great men around her drive them wild.

But where does that leave her desires? And what if she needs her own damn warrior to fight and bleed for her, instead of standing up for herself on her own all the time?

Narath knows one thing - any problem can be solved with a spear. And not just a spear, but a spear in his very capable hands. Battle has always been in his blood and he could have never imagined that it would not be enough... Until laying his eyes on the sexy, curvy healer of the *Triumphant*. After that, he wants nothing more to use a very different spear, but with the same intent - to solve a problem.

Will Narath and Urenya realize what fate has in store for them at the right time, or will war tear them apart before they can ever really taste happiness?

Alien Warrior's Wife is a **standalone novella with a happy ever after ending and no cliffhanger**. There's plenty of steam in this book and unless you love mindblowingly hot sex, you might want to keep away... Or at least brace yourself for a hell of a ride!

Roxie's Reviews says

"This is an Awesome Series!"

The story line is so intense!. The characters are amazing!.

This series is of the race called the Brions. They are a warrior race. In this book we read about Urenya who is training to be a Healer. For where you have battles you also need healers. Before training Urenya's finds her soul mate which is called a Gerion only to lose him in battle before they can even get to know each other. So she goes to stay with her best friend Diego who is training to be a warrior. Urenya knows Diego will be a great commander some day. After her training Urenya gets assigned to Diego's Fighter ship as he has become the commander of the Triumphant. Before she was assigned there she had met Diego's best friend Narath. When Narath goes to the healer on the Triumphant for a wound on his leg he discovers the healer is Urenya. For some reason he is highly attracted to her. Urenya has never felt the way she feels towards Narath could it be she will be given another Gerion, and another chance at happiness?. You will love this intense, funny, suspenseful and scorching hot Romance! It is a 5-star must read book!

I wanted to like this book, but...well it was a bit boring. The story was a bit cookie cutter and there was little character depth. I felt like there was no challenge to the characters. Overall not as good I was hoping. Still I have a few other books already by this author that I will get a chance to and hope the writing is better in them.

Good for a short. Better than the first book in the series. Have to question whether if fate takes away a fated before anything could happen- because fate, were they really ever fated. I swear that makes sense in my head.

Michelle says

not what I thought it would be but still cute. a little on the short side

Eya says

Pretty horrible. Uninspired.

This one was fairly short as well.. Again, it felt like a prequel but the feels! Gah! It tugged the heart and it was a sweet story between Narath and Urenya. I like that Urenya is a gentle healer but still strong in the Brion way. And Narath, while is huge in build is like a gentle giant. Very sweet story.. =]]

Wow, how could a short story have readers so intrigued and rapidly reading? Brion people are chosen for their skills, some healers, some warriors, etc, Urenya had only met the man she was to be bound to as his mate only once, but then he died in battle. No one would tell her anything about the man she'd seen only once so why should she grieve for him? I loved both Urenya and Narath from the very first! Both tried to fight their attraction to each other as Urenya tended to his leg wound, but it took the chance of losing her as his enemy dragged her away to kick in to know how fighting for more than his country meant!

Momentum Builds

This is really a 3.5 for me, and is a momentum building book leading to the real awesome books in the series. Narath and Urenya for me are more representative of what the Brion Bride series feels like in general and they are a further momentum builder to what I felt were really great books. The prequels are good, they are, but they don't have the same character and world building the full novels do, obviously. I do recommend people read them though because 1st, they're good, 2nd you really do need to know how the world works and these prequels show you how it is supposed to work. Besides, you respect and know these characters later, I know I do.

New to me author. I actually liked this short novella. It was funny, cute and Narath was oh so yummy.

This is my second book to read by Vi Voxley. I must say that yet again I wasn't disappointed. She is a very good author and one that I will continue to follow. "Alien Warrior's Wife is a well thought out and well planned book. She grabs your attention at the beginning of the book and keeps your attention till the end of the book. The story line and the characters all work well together even the minor characters play an important part in the story line. You have a warrior hero, a heroine that has lost her mate, a best friend who is a fearless general in the Brion army, war, and fated mates. What more could you ask for in a book? Oh yea, I almost forgot the mind-blowing sex!!! You do not want to miss this book.

"NOTHING QUITE LIKE THE TASTE OF DEATH TO MAKE THE HEART GROW FONDER....(Direct quote from synopsis)

Urenya is a healer who has just lost her mate to war. Everyone was sympathetic to her loss. They were known to be the most caring and nurturing species. The worst part of this is she is tired of everybody telling her that it will be okay. So, she runs to the one place she knows she can be herself, and that is her friend Diego who is a great general in the armies. He knew her well enough to help her through her time of grief. She had to be wise with her hands that could heal any harm. She must also keep her morals so she can withstand the bloodlust that can drive men wild.

Narath is a warrior who believes that everything can be solved with his spear. Fighting was in his blood and he always thought that was enough especially with his spear in his hands. Well that was until he met Urenya, the sexy healer of the Triumphant. Now that he has met Urenya he wants to use his other spear (wink, wink). Will Narath and Urenya get their chance at love? Or will war get in the way of their love and tear them apart?

This is a fun entry into the Science Fiction Romance World. I especially like that along with the matching with women from earth there are romance between the Brions as well.

The hero is just grand. The heroine is wonderful grows through out the book.

This is a very sweet and touching love story with good world building.

I loved Vi Voxley's style of writing so nothing was unexpected for me to like this book. There was also nothing exciting though. I just liked it. I think what I liked the most was the whole concept of Brion Race. I really love the whole biological description of it. They seem to be an ideal warrior race. They fight hard and love hard. I liked it.

Why is that when you find a series where the first book is really great and the next thing you know your attacking the whole series. This was my epiphany when I started this book. And as I usually have more than one book going at once it is no wonder I am so behind in my reading but I am catching up.

Alien Warrior's Wife takes place primarily on the ship so them leaving the ship turned out to be my favorite

part. The good news is I really like the characters but it seemed like Vi Voxley spent more time fleshing out Urenya than she did Narath so as you read this book you will get to know Urenya a lot more than you will Narath. Then of course there was the very hot sex that happens once and the masturbation in the shower was pretty steamy.

The storyline had lots of potential but given that this book was so focused on Urenya and Narath that the world that the author is creating with her series seems pretty two dimensional unlike the three-dimensional series that Lauranne Dohner writes, in her New Species books not every scene has the main characters that are being focused on adding to dimension to the series.

Wow so much happening in a short book. I loved it though, I am especially interesting in the world building in this book. Alien books always keep things interesting.

Character breakdown;

Urenya; always easier to push everything aside than to face the pain of reality. But doing so only brings more pain at the wrong time like she found out in the book. But I loved her determination to try and keep going, that she found her happiness was a bonus.

Narath; how did her fear become his? The sympathy in this bad assed warrior was surprising but oh how I enjoyed it. And the man was describe as a huge (literally) hunk.

For a short story it was surprisingly full and inviting. I am definitely getting the rest of the books.

3.5 Stars. This is an entertaining sci-fi romance book. I like the world that the author is starting to develop and the Brion people and their ways. I think this book was actually better than the first book and I'm really looking forward to reading the first full length book in this world. The characters are as well developed as can be expected in under 100 pages and the plot is interesting and fairly complex considering the length of the book. I don't read a lot of Sci-Fi but I'm a fan of this series so far and look forward to more.
