Doctor Who Fan says

Good

I enjoyed the book. Getting to know the Lane boys. A little predictable but worth it looking for more from the author

Beryl Fishbone says

Lovers and Action

I'm not certain where the mafia is but it doesn't matter in this box set of love, action and adventures of absurdly wealthy retirement eligible under thirty year old veteran seals. It's pace is fast and filled with descriptions that make you alternate between gasp, wonder and smirk. I just wanna play with some of the gadgets for a while. I might read this set again.

Pinky Hewitt says

Fab

Every family has its f#@+#! Up members and the lanes are no exception but they have an extra little crazy they didn't know about

Ermelinda Djalo says

Loved the brothers and how's the mum gave the rings to all of the brides I love it was like making them feel welcome inside the family

Ashley says

Lane

Let me start out by saying wow. Each book in the Lane Brothers series comes with there own problem. Which they have to figure out while getting their girls and keep them safe from the crazies intent on making their lives hell. These 5 brothers are all looking for the strong women to their alpha male. Someone strong enough to handle the man and the mama! You will fall in love with each tough boy and the mama to!

Becky Gates says

Awesome

This is an awesome series of inner connected stories with very sassy independent women and the very sexy, totally Neanderthal men who love them to the roots of their souls. It's a keeper to reread a couple more times down the road. Loved it.

Lane Brothers

This family is crazy, full of love for each other, the brothers know what they want and go for it and there is one that wants to do harm to the whole family.

I really liked that each book picked up where the last left off. I was a little disappointed in the way that the bad guys were caught but over all a pleasant read.

Gripping story

Enjoyed the story but it was spoiled by numerous typing errors, either that or it was not proof read. Such a shame.

Jennifer Smith says

Action packed

Family feud, danger at every turn n more surprises than Christmas morning! Great storylines n good continuation, blends smoothly n no holes I could find in it. New to me Author and so pleased I couldn't put down

Letitia Day says

Pleasantly surprised

I have to admit I like all the books in the series and I especially liked Roman's story. The last book was a great ending to an already good series! I loved how the family had each other's back through everything , especially mom and dad! Good read !

Ida Oakes says

LOVED this set! I could not stop reading it. The suspense, the romance that was sweet but not too sweet & the way the characters interact is so dynamic it makes you want to be a part of this family, I mean after a while you kinda feel like you almost are. The action & mystery surrounding the whole unknown evil leader...just great! I almost couldn't function at work the day after reading the last one because I stayed up until 2 am to finish it...I just couldn't stop myself! Really a great series! There were a lot of typos which is a pet peeve of mine (I would love to be your proofreader) but the stories were so good I could overlook them. A must read for anyone who likes romance, suspense & HEA :)
