Smh

The apple doesn't fall far from the tree. Definitely a page turner. I'm glad I bought the entire series. Worth the read

Rise says

Book 2 was definitely a lot more interesting than the first one. Noki is one hell of a woman killing ppl and now she done gone & plug info into her home girls ears about killing the husband and his mistress. I'm looking for book 3 now. Now I need this 3rd book.

Latiqua Smith says

Lord

Nova is stupid. She should have just left her cheating husband instead of putting her life and freedom on the line. I hope things work out for Skye she is really a good kid lovestruck. Tyriq will always be a dog. He deserves to be alone. I don't know what to say about Quan. His wife should just count her losses and walk away. She damaged their marriage.

Nicole says

Another good one

Man! This just keeps getting better and better. I hope book 3 sums it all up and ends this series with a BANG!

Gretchen Lewis says

It's like that Nova?

Just when it was getting good it ended..

I don't really know how to feel about Skye and Quans relationship because I feel like if a person is as unhappy as they claim to be there would be NOTHING that could keep them there..forget cheating..just leave

Andrea says

Good read

This is a good read and makes you keep wondering what's going to happen next... although I would suggest the author seriously considered an editor one of the chapters had me lost I thought it was one character speaking but it was another due to the title of the chapter.

This book this book this book.....What a great read. I couldn't stop reading it. I have the kindle app on my phone Lord knows I couldn't put it down. Read this series now.

Courtney says

Storyline started getting lame

The first book was much better. The characters were more developed in the first story. You had the wife who had no idea her husband was cheating, the wife who knew he was cheating but needed his money and the proud side chick. Part 2 didn't resolve anything from the first book. Nova turned into a unremorseful killer while her sister Skye went from being a good girl to a proud mistress. The storyline became unrealistic and lame. I'll still end up reading part 3 but I hope it's better than this book.

Natasha says

Ha

This was soooo... good.. I mean the way the drama seemed to fall back on each other. Everyone is connected in one degree or another.. Funny how Skye talked about Aoki but in a sense she was doing the same thing.. Can't wait to see what's next..

Passion Medcalf says

Yes !

I've read book one and just finished book two a few minutes ago. I just started reading the series this morning. About to start reading part three. So many questions to be answered.

Tanisha Stewart says

Wow. I literally read all three of the books in this series in one night. As soon as I finished the first one, I needed the second one, and as soon as I read the second one, I had to purchase the third. None of the books disappointed. These two authors are surely a "Dynamic Duo". I would DEFINITELY read another book or series by them. The story was crafted so perfectly, with each character being multidimensional, a perfect combination between clear fiction and reality... I could go on and on, but for anyone looking for a well written story, which is unfortunately rare in many subgenres these days, GO FOR THESE BOOKS. I look forward to any further collaborations or individual works by these authors.

Shaveta Brock says

Pretty good!

I gave it 4 stars because of the grammatical errors and mixing up names, other than that this was a pretty good book

Kiaeisha Charkes says

It was a page turner!

Great book to read to kill time. The men in this book are a mess and the women are even worst!!

Tosha says
