Royally Bad Nora Flite

Getting close to an arrogant bad boy like him is dangerous. Too bad it's her only choice.

Kain Badd looks great on paper: rich, handsome, and he's even a prince. But after spending a few minutes together, Sammy sees the real him—arrogant, possessive, and too hot for his own good. If she hadn't agreed to help plan his sister's wedding, she could have avoided him. Instead, she's waking up in his bed after an unforgettable night she definitely wants to forget. But he won't let her.

When Sammy thinks her life can't get any crazier, the wedding is raided by the police, and she spends her first-ever night in jail. The irresistible Kain isn't just bad in name—his family is connected to a dangerous underworld. Now she's mixed up in a power struggle between his family's empire and their rivals. She has no choice but to put herself back in this filthy prince's extremely capable hands.

Sammy must trust Kain to keep her safe. She's just not sure she can trust herself to resist temptation.

bookmarkbelles says

I couldnt feel the connection between the two main characters ?? I almost "DNF" it at 20% but switched to audiobook afterward and that seemed to help a bit. The story was just okay with some very predictable moments for me. It had potential but I was bored AF through most of it.

Yvonne Wood says

Something missing with this book. It was just ok. Back to this review now I have made my apple cake and had a think. Kain and Sammy just did not connect for me. Irritated with this wishy washy gang who were not into really bad stuff like drugs and prostitutes so were really doing community service by not being as bad as the other gang. Nooooo. If you are a gang called Badd own it and if at the end you are better people then I can get it but at least run with being baaaaaaad.

Emily says

Sammy is trying to make a go of her business as a fashion designer for wedding gowns. When she meets Francesca Badd who buys a dress and her brother Kain pays a huge amount of money to make sure gown is done in time. One good deed leads Sammy inserted into the Badd family and straight in the line of Kain who has made his interest clear, he wants Sammy. Sammy knows he is a bad boy with a silver tongue and Sammy is having a hard time resisting. However, things get shaken up and Sammy wonders when she can get her life back and not under the careful watch of the Badd's.

This was fun and thought it was filled with intriguing characters. I liked Kain and Sammy but had a couple of times where I scratched my head on things like her business. I would check out more in this series to see what happens with the rest of the characters.

DNF @ 25%

I got a signed copy in my romance reveal box so I figured I'd give this one a try, but I'm just not feeling it. The pace was way too fast. The chemistry between the H/h was nonexistent and I'm not sure how I feel about the storyline. It wasn't realistic, it was kinda silly actually and the heroine is blindly naive. I wanted to like this one but oh well moving on....

Nora Flite says

The Bad Boy Royals are coming... April 1st 2017, meet Kain Badd.

DNF 20%

This one isn't for me.

I don't like the pace, I don't like the heroine and I really don't like the hero. He can't decide if he's a romantic or a raging ass****. One second he says something resembling a compliment but then tops it off with a crude sexual remark. Pick a side dude. I'm just not feeling it.

It takes the heroine forever to figure out she's in a royal palace and she still hasn't figured it out by the time I dropped this book. But she did manage to get a quick nookie, so there's that.

Sorry, I tried. But I'm outta here.

Great book! Really enjoyed reading this one. A little different then I was expecting, but in a good way.

Kain Badd looks great on paper: rich, handsome, and he's even a prince. But after spending a few minutes together, Sammy sees the real him—arrogant, possessive, and too hot for his own good. If she hadn't agreed to help plan his sister's wedding, she could have avoided him. Instead, she's waking up in his bed after an unforgettable night she definitely wants to forget. But he won't let her.

When Sammy thinks her life can't get any crazier, the wedding is raided by the police, and she spends her first-ever night in jail. The irresistible Kain isn't just bad in name—his family is connected to a dangerous underworld. Now she's mixed up in a power struggle between his family's empire and their rivals. She has no choice but to put herself back in this filthy prince's extremely capable hands.

Sammy must trust Kain to keep her safe. She's just not sure she can trust herself to resist temptation.

Can't wait for Book 2. Thanks NetGalley for the arc in exchange for my honest review.

DNF at 35%

Sadly, sometimes you just know when a book isn't for you. I tried to power through it, but sadly with feeling no chemistry between the MCs and feeling no connection to either the hero or the heroine, I just couldn't. I'm not sure what it was exactly that made me feel so disconnected. Maybe it was the writing style? Perhaps it was the quickness that Kain and Sammy got together? Kai's sister drove me out of my ever loving mind with the way she talks. And truth be said, the heroine wasn't my cuppa either; she was just too immature and all over the place. Le sigh. So no rating from me on this one.

I do enjoy this author's writing and will absolutely read her future books. This one was unfortunately a miss, but can't love them all.

Find me on:

Nicola says

Royally Bad is a prime example of the old adage *perseverance is the key to success*, and after a bit of a wobbly start when I wasn't so sure about the couple, I actually ended up enjoying this in all its OTT glory.

I'd been thinking of her as my Cinderella. I was already a prince—in a sense—so why couldn't it work? We'd dance, I'd put the shoes on her perfect feet, and we'd kiss and laugh, and all would be fucking sparkles and hearts."

It wasn't the perfect read, but Sammy and Kain grew on me as their story unfolded and by the end I loved them and Kain's crazy extended family. And Nora Flite left enough unsaid to tempt me into reading the next book in the series.

Before you came into my life, things were much easier."

Tessa says

This was cute. I got it despite the almost scary title, (Bad Boy) and the mafia royalty mix because the premise just sounded fun. It was. I thought Sammy was strong and a little rebellious and Kain falling for her was super sweet. I did enjoy the Badd family and Fran was adorable, though like a mouse you give a cookie too.

My issues with it were that they were royals. Really, in the storyline, it wasn't important. At all. Other than telling me they were, I didn't see it. Supposedly the next book should have it considering something said towards the end. My other issue was the ending was too nice. It could have been so much more, but it felt like an "everything is now good, no bad stuff anymore" ending. Something even happened that had me rolling my eyes, though it was foretold if you read between the lines.

So, seriously cute but some bit of cheesiness that wasn't necessary.

3 stars

Maddy's Reading says

A gangster bad boy prince and a strong, hardworking wedding dress maker.

The plot was very intriguing, a combination of fairy tale and mafia romance. The Badd family is similar to a mafia and Kain Badd is the young prince. He meets Sammy in relation to his sister's wedding and soon fate is pushing Sammy & Kain together everywhere.

Their chemistry is amazing, connection strong and soon they are inseparable. Family and circumstances push them apart, can their love hold strong?

It was a nice read though I felt there were too many angles to the plot. I wouldn't mind reading about the other Badd siblings though. Should be interesting.

Zili says

3.5 Stars in my Sky!

The premise of Royally Bad is fun and entertaining. I liked the idea of the gangster prince and the wedding dress maker.

I laughed more than expected, although I have to admit, not all of my laughter was necessarily in places where it was supposed to be. Certain elements were particularly far fetched - BUT this was also what I really enjoyed about Sammy and Kain's romance. The drama and escapism.

Sammy is awkward and funny. I honestly wasn't sure what she was going to do or say next. She finds herself going from dress maker extraordinaire/unwilling wedding guest, to basically being deeply involved with the Badd family and all aspects of Kain's life.

I expected to love Kain but he didn't manage to totally win me over. I wasn't sure about how he treats Sammy at times or allows others to treat her whilst claiming to want the best for her. Don't get me wrong, he does bring on the swoon and I did like him, but just didn't love him.

The story involves twists galore and although I did find some events hugely unlikely, I enjoyed the story and really wanted Sammy and Kain to find their unique HEA together...

I received a copy from the publisher via NetGalley in exchange for an honest review!

Oookay this one is not for me.

I've been tried this more than once, twice but thrice and it's not working for me.

cant feel the heroine and the hero chemistry.
did not excite me the story so I decide that I drop this.. (hate this doing it)

welp! I tried it but cant work it. time to go and moving on

Scrill says

"I'd been thinking of her as my Cinderella. I was already a prince - in a sense - so why couldn't it work? We'd dance, I'd put the shoes on her prefect feet, and we'd kiss and laugh, and all would be fucking sparkles and hearts."

I really had a hard time picking between a 2 and 3 stars on this. I mean, I have a hard time judging truly because this isn't really the genre I prefer to read. Still, despite my low expectations it was surprisingly entertaining - despite the parts that made me laugh out loud and think...come on...really.

So the book is about this girl, Sammy, who becomes super involved in this family's, the Badd's, personal affairs. From making a wedding a dress, to being a brides maid, to being arrested with them. The day they Badds entered her family was the day her life changed from it's boring and quiet ways.

The plot itself was...well entertaining enough. What I mean by that was that it was enough for me to finish the book. There were a few parts that left me wondering...why? Like, the Mr. Badd didn't really know the relationship between Kain & Sammy, but still felt inclined to protect the girl because something concerning her might affect the family.....okay. It wasn't really expected considering his position. The ending was a little predictable, well part of it was, but that's okay.

The characters were so-so. Sammy was a cute little feisty girl, but was a little too trusting. Kain was sort of a d-bag. His third sentence in the book was, *"Don't use the worlds 'little' and 'dick' in the same sentence with me."* I mean serious eye roll, this guy is so into his penis and thinks he is all that. In fact, a lot of the things Kain says is pretty eye roly-y. He's got that macho protector character down. At least there weren't a ton of hits-his-chest-cave-man moments.

All in all, it was a quick and easy read. Funny at some moments with a large dash of cheesy romantic scenes. My biggest problem is I can't get behind a guy who is so fully of himself and having a character change so quickly. Call me a pessimist.

♥ WishfulMiss ♥ says

This was a roller coaster of twists and turns that I'm not sure really worked to make the story flow. Sammy is a struggling dress maker, she recently opened her own shop and the opening scene shows just how malleable Sammy is. Knowing she's taking a dangerous loss (new business owner here!) Sammy caves after hearing a bride-to-be's sob story and gifts her the wedding dress that Sammy worked weeks on and was hoping to charge a couple thousand dollars for. Her spontaneous "put others wants before hers" attitude doesn't stop there either.

Before she knows it she's committed herself to finishing a wedding dress in less than 3 days for Francesca Badd, stepping in last minute as the maid of honor and lastly, being locked in the family mansion for her

own protection - all within like a day or two of meeting this crazy family! On top of all the wedding drama, Sammy's trying to dodge the bride-to-be's sexy older brother, Kain from getting in her pants.

The story didn't start off too bad but I had a really hard time warming up to any of the characters with every additional bit of info revealed. With the exception of Costello and maybe Thorne, I seemed to like everyone less and less.

Sammy was the type of heroine that *needed* to be rescued because she was constantly a) not taking things seriously or b) was extremely naïve to the point of TSTL moments. Kain wasn't bad but nothing memorable either. Aside from their sexual attraction, they didn't have a whole lot of interaction to justify the insta-love thing they had going. Then there was all the weird/silly stuff going on around regarding the Deep Shots and Sammy's stalker that made this more comical which I don't think is what the author was going for.

Would I recommend?

Ironically this wasn't all the "bad" to begin with. I would recommend if you don't mind OTT crazy and a crime/royal family that is more bark than bite. I'm gonna try the next book because Costello managed to intrigue me. I hated the way Francesca and Lula treated him and I need to know what the big ol' secret is.
