Two wounded souls collide and make for a gorgeously sweet romance! One grew up too fast with loads of responsibility, the other overcame adversity to live out his dreams until tragedy struck and he lived forever more with a guilt ridden heart ... together they allow themselves to see life in a different way. Loved their story!

Surgeon Iolana Haole lives the life that is expected of her. She learned young that she had to be the one to pick up the pieces and live on the straight and narrow path that her father dictated in order to keep a peaceful lifestyle. She has worked hard to achieve all that she has and she's fulfilled ... even though it's not exactly what she would have dreamed of for herself if she had been able to choose her own route. Once again, she finds herself being expected to do something for someone else's benefit, and she's not happy!

Doctor Andrew Tremblay needs a green card to get to stay in the US, and Lana is his answer! He coerces her with the one thing the he knows will win her over! Neither would admit it, but they've both been interested in each other ever since he came to town two years ago, so when they are thrown together on their wedding night in romantic circumstances, the sparks fly! They agree it was a bad idea, and it can't happen again and they settle into their marriage of convenience ... until they find out she's pregnant, with twins!

Dottie says

A lovely romance about two people that cross paths but have so much hurt from their past. Both live with guilt which has crippled them both through life. Andrew lives with feeling he is responsible for his sisters death and the end of his dreams. He comes to Hawaii from Canada and finally finds some peace as a surfing coach and then realizes he will have to go back as he isn't a citizen. He meet Lana though his student and the idea comes that if Lana marries him he can stay and pursue his career. Lana always seems to do what is expected of her and she falls into their plan without even a say in anything her father and stepmother plan the whole wedding. The only thing not planned on was the fact that they get attracted to each other and Lana gets pregnant...with twins. A really lovely story that is what you can always expect from Ms. Ruttan. Don't pass this one up.

"Convenient Marriage, Surprise Twins" by Amy Ruttan is listed under a medical romance but it is also a contemporary romance. There is so much to this story between Iolana, Lana Haole and Dr. Andrew Tremblay. One of those books where you want to sit and keep reading in order to find out what is going to

happen to this couple when Andrew marries Lana in order to keep his green card and stay in the country, but that turns into so much more.

Oh what a great story this one is MS Ruttan has taken me to Hawaii, what a fabulous setting for a moving journey with two people who deserved love and happiness so much, two gifted orthopaedic surgeons Lana Haole who has always done whatever would make her father and everyone else happy and Andrew Tremblay who is Canadian was a keen surfer and top surgeon until an accident changed his life and now he needs help to stay in Hawaii and again Lana steps up to help but this time Lana never expects to fall for the man so quickly and so totally.

Lana is talked into marrying Andrew so as he can get his green card by her younger brother Jack whom Andrew trains for surfing Lana has bought Jack up since their mother left when they were very young and their father always put his career as a surgeon first and Lana has followed in her father's footsteps. She has been hurt before with a past boyfriend and is determined that it will be a marriage of convenience only but on their wedding night she cannot resist the pull that they have and what a night it ends up.

Andrew has been through a lot and the accident that changed his life took away is only sister and he has not been back to Canada since but really needs help to stay in Hawaii and hopefully get a job with the Surfing committee, but he is so drawn to the beautiful Lana he cannot ignore her or the spark between them, making love to someone has never been like this before for Andrew but still he does what he can to keep away from his wife that is until the news of not just one baby but two turns their world upside down.

WOW what a story, MS Ruttan knows how to pull at your heart strings and bring emotions out that are so real I loved this one from page one and can I say that for a marriage of convenience their wedding night is sexy and so very romantic after the glorious wedding on the beach, I think that Lana and Andrew were lost to each other after that night in such a gorgeous way. And it takes a drama to bring them closer and make them realize their love for each other, I did love this one thank you so much MS Ruttan for another keeper your stories never fail to make me smile.

Yet another great book by Amy Ruttan. Convenient Marriage, Surprise Twins is a medical romance where Lana Haole agrees to help her colleague and brother's surfing coach, Andrew Tremblay get a green card...by marrying him! Lana was determined to keep things strictly business, but those pesky hormones got in the way!

This book was fun to read, it had loads of depth and the characters were amazing. I recommend this book to any romance lover.

OMG, there is so much emotion in Convenient Marriage, Surprise Twins! Amy Ruttan has woven quite a convincing plot. The narrative is beautifully written and the characters are so deeply flawed that make you want to reach out and hug them! I can't tell you what I loved most, because there is so much to love. The romantic detail between the two main characters is sweet to intense to spicy. Lana Haole has such a tender heart for a person who has faced trying times in the past. She is a loving, kind and protective woman. I really liked her. Andrew on the other hand came off as broody and uptight for me in the beginning. But, I soon discovered he has his reasons for being that way. Eventually he loosens the knots around his heart and you see a side of him that doesn't go unnoticed. And their marriage which started off as kind of tame soon became...intense and full with sparks! The medical drama sprinkled throughout the book adds extra detail that makes the story all the more appealing. Overall, Convenient Marriage, Surprise Twins by Amy Ruttan is a quick and absorbing medical romance with a sheer charm to it that'll leave you contented after you close the book.

Convenient Marriage, Surprise Twins by Amy Ruttan

Iolana (Lana) Haole has become a surgeon as that was what was expected of her by her father. When her mother took off she was expected as a young girl to take care of her brother Jack. Her father Dr. Keaka Haole, was chief of staff and expected Lana to take that spot over when it came time for him to retire. Lana did what everyone but herself wanted to her do. That is just the way Lana handled life.

Jack her younger brother, whom she called Keaka, got to surf and be on the surfing team. Dr. Andrew Tremblay was his surfing coach. Jack's real name was Keaka Haole, Jr.

Andrew was involved in a serious accident which made him give up so many of his dreams. He could at least still see patients and although he could not do surgery he could still be a doctor and a coach.

Andrew never talked to his parents as they disowned him, as there was an accident one evening as he and his sister Meghan was driving home on a snowy winter night. A moose came out and the car they were in and the moose collided. The moose pretty much landed on Meghan and a metal signpost impaled into Andrew. A northern Ontario old school doctor did the surgery and messed up his arm, hand, shoulder. He was not going to be a surgeon any longer and his sister died.

Andrew was from Canada and was now in Hawaii and needed a green card so that he could stay in the states. As coach for Jack they decided that one way might be to talk Jack's sister Lana into marrying Andrew long enough for him to get his green card. So, then he could move to California and pursue the job that was made for him. A position with the International Surfing Committee.

Finally, Lana said yes but again as this was expected of her by her brother and by her father. The wedding was planned by her step mother, Sophie and she did not even pick out her own wedding dress.

The wedding took place and as the night progressed they fell into the whole wedding deal and consummated the wedding. Although a condom was used, it failed and as luck would have it Lana became pregnant.

Not only did Lana become pregnant but surprise, she was carrying twins.

Amy Ruttan has always been one of my favorite authors and this book did not disappoint me. I enjoyed it so much and would love to give it more than 5 stars I am allowed it also made me cry, laugh and 100% could not put it down.

Convenient Marriage, Surprise Twins is exactly as the name suggests: a medical romance with a modern day marriage of convenience and the super happy bonus of not one, but two surprise babies on the way.

I had a really great time meeting this cast of characters and just breezed right through this story. Amy Ruttan had a nice flow to her writing, where the emotions came across loud and clear and even the drama felt real—not melodramatic. I'm usually more of a fan of marriage of conveniences in historical romances as they seem more plausible, but this was a rather convincing situation. I'm sure this type of marriage takes place more than we realize, for someone to stay in the country and get their green card. And even though it seemed like a tricky idea, there were definitely feelings already between Andrew and Lana, although they tried to play it off as disliking one another. [Read More](#)

I read this on the kindle

This was a nice story, don't think that the reason for them to marry held up especially as quick & knowing that if found out it would ruin their careers

But once married the pattern follows as most Mills & Boon books but it was a good one

CONVENIENT MARRIAGE, SURPRISE TWINS by author Amy Ruttan is a July 2017 release by Harlequin Medical Romance series.

Lana Haole had been made fun of on her engagement broke off. So she was in no mood for another engagement or marriage. But when her only brother beseeched her to marry Dr. Andrew Tremblay so that he could get a green card to stay in USA, she said yes.

Could this marriage stay in name only after the way she was attracted to Andrew? Because passion flared

and they gave in to the temptation on their wedding night. But what about the consequences of it?

Would Andrew stay with her for long after his green card is approved? And would Lana say yes to long-term just for the sake of the babies?

CONVENIENT MARRIAGE, SURPRISE TWINS is a roller-coaster of an emotional read. Read why Lana is so close to her brother. Read why Andrew is against being a father. And read what happens next!

Highly recommended for all readers of medical romance.

Amy Ruttan writes stories that hold me captured till the end and develops characters that I believe in and want to be together and where I follow their path with huge hopes they will get their happy ever after.

I always love a unique plot. The skeleton of a story may be similar but it's everything else that makes it unique and memorable and it's that I love. I thought the challenge Andrew faced was unique and I loved how it all played out. I enjoyed the background of Lana and how she reached her decision that for once in her life she was not going to do what she was supposed to do or expected to do!

I adored this story and award a whole star just for the cover!
