Another great 2 volumes. I just love how fun this series is. It truly is the right blend of humour, romance, and nerdiness to put a smile on my face.

I can't wait for the next two volumes to be released in English.

Review : Loved this volume so cute this is one of my favorite manga series . ugh the cliffhanger from the last vol with Ko and Naoya that Ko is a girl but they end up talking it out and still hang out Naoya is so adorable I ship them . Narumi finally cosplays . they all go on a work trip Kabakura ends up getting put in charge of that . I can't wait for the next volume . I love Narumi and Hirotaka's relationship so cute .

I just got this today and devoured it in 30 minutes. Ahahaa, I have no self control. (^3^;)

Considering the cliffhanger left from Vol. 2, it was nice to see the development in Naoya and Ko's relationship friendship; although that matter did get resolved rather quickly, so hopefully I get to see more in-depth of them in the upcoming volumes.

As for the main-main two love birds, Narumi and Horitaka... it's still a slow build. Lol. But, hey, that's their relationship. They're so cute and still awkward, and they have plenty of moments together where I can tell their feelings for one another are grower a tiny bit deeper. *Looking at you, Hirotaka.*

Just keep the story coming, Fujita-san! I'm eagerly waiting, aaaand I WANT THE ANIME SEASON 2 ALREADY!! \(\QoQ)/

I love this series; my only complaint is that the translations aren't the best. However, it doesn't impact the story at all, it's just a matter of "oh, that's supposed to say 'Always wanted to try it' but it says 'Always wanted do try it.'" (Actual example.) Loved the company trip arc, and I'm eager to see how the relationships grow.

I pre-ordered this book but then Amazon had so many problems getting it to me that I had to cancel my order! Luckily I found it in Forbidden Planet, because I have been dying to read it since I've finished Volume 2! The cliffhanger at the end of volume 2 had me pre-ordering volume 3 asap, and I am so glad that I have managed to get this book and read it! I had forgotten how this series made me feel. It made me feel like I was coming home. I relate so much to these characters, and I like the reinforcement that my hobbies are not weird and it is okay for me to like what I do like. The relationship between Narumi and Hirotaka is also so heart-warming because of how sweet it is!

I liked the plot of this volume, but more so because I didn't know what was coming. With the previous volumes, the manga was almost identical to the anime. This volume is the most different, so I really enjoyed reading new things about the same characters. I am looking forward to reading the future volumes, but I know it will be a while before they are out because it will have to get published, and then translated into English. I am hoping that through my continued support of this series that this will happen fast!

I love the characters in this series too. They are all my children in my eyes. My favourite character has to be Hirotaka, followed by Narumi and Nao-chan. I love how closed off Hirotaka's feelings are, yet Narumi brings them out of him. I hope their relationship develops more in the following volumes. It will be interesting to see them take a few more serious steps.

I love this series, so I would highly recommend it to everyone!

I love this series. It's the definition of a slow build romance and I am here for it. The budding friendship/relationship between Ko and Naoya is a favorite of mine. They're adorable and Naoya must be protected at all costs. Seeing Ko slowly begin to hang out with the group and socialize with them is great, and I look forward to reading more about them.

The ever continuing adventures of Narumi and Hirotaka being awkward and adorable is consistently fun, and in this volume we get to see them attend a work trip together with Kabakura leading. Hanako also finally gets Narumi to cosplay with her, and we gain more insight into the work relationship of our four main characters.

This whole series is just cute. It's simple and enjoyable and fluff and I all about it. At the time of writing this, I've only just discovered there is an anime version available on Amazon Prime so I guess I know what I'm watching this weekend!

While this one has the usual light comedy of always (which i love), it also took time to develop even more the romantic part of the story.

we find out just how much narumi means to hirotaka (since they were KIDS!!!!) and how he really wants to be with her more, but is kinda shy and awkward about it.

Plus, his little brother just got his own love interest! And even though it's a girl (not gonna lie, I wanted it to be a boy lol), they're still pretty cute together.

Wotakoi is still the best romantic comedy i picked up to read lately (excluding ouran, bc i started that a while ago lol)

This manga series I started after I watched the anime however I still love It so much. I really love all the

characters. I am so invested in it

Bentgaidin says

This was a good palate-cleanser, a cute manga about a pair of otaku couples and the balance of their lives between their fannish interests and their adult 'normal' lives. It's nice to read something so free of drama, that's just about adults living a decent life and dealing with the occasional bump that comes up. There's not much of an overarching plot here, just continuing relationship stuff, a work trip, and a convention, but it's a lot of fun to just slip back into their lives for a while. I'd love another volume or two of this.

Jaed Beck says

This is such a cute story! ?

Cate (The Professional Fangirl) says

Hiroataka's inner monologue about Narumi and his feelings for her is so damn adorable.

Rebecca says

Waited soooo long for this and was a bit disappointed. There were some really cute and funny moments, but overall it felt like the mangaka didn't really know where to take it so there was a lot of pretty boring filler, IMO.
