Chief's daughter, but no longer a child.

While her warrior sire Cutter battles in a distant land, Ember leads her splinter tribe of Wolfriders - the Howling Rock pack - deeper into unknown territory. Each day brings new challenges to her skills, as a fighter, as a planner, and as the leader she knows she must be - for she has her father's legend to live up to.

How then to deal with the mysterious elfin stranger who can make himself invisible to even the keen senses of the Wolfriders. Can he aid Ember in her struggle against the evil of Winnowill? Or will he lead doom right into the elves' midst?

Shira says

Part of my great ElfQuest reread. So far I think this is the weakest of the bunch, you could really see the growing pains with new artists and authors struggling to find their footing.
