Wings of Morning

Kathleen Morgan

Wings of Morning Kathleen Morgan

Orphan heiress and Scotswoman, Regan MacLaren, is a bride of but one day when her husband is murdered. As a result, Regan loses her memory and with it her place in the world. Laird and warrior, Iain Campbell, is waiting for the love he knows God will bring him. But a woman near death and without a memory isn't quite what he expected.

With their clans feuding, Regan and Iain should never have met. But, when their paths cross, they come to know and love each other--only to encounter more obstacles in their way. Iain's a suspect in the murder of Regan's husband, and he soon becomes a stumbling block to unholy ambitions that may well lead to more deaths, including his own. Will betrayal and suspicion force them apart forever? Or can their love help heal their clans and their land?

Jen says

Sadly, I didn't like this one as much as the first. It's a stand alone, but with the same characters from the last novel. The language was very much the same. A lot of awkward Scottish jibber which got old fast. Iain didn't feel like the same character as he did in the first book though it was good to hear his story and get his happy ending. I skimmed the last 100 pages of this book just to finish. Oh well. I have the last in this series ready to read, but after this one, I'm not sure I even want to. Maybe a later time.

Rhianna Clawson says

[You know that Iain's not actually dead the whole time, and I found myself just skimming to see when he would show up in the end. (hide spoiler)]

Lisa C. says

As a fan of Kathleen Morgan's writing, I didn't think this was nearly as good as book 1 but it still had plenty of adventure, villains, and a remarkably patient hero. I thought Regan was too mixed up most of the time, flip flopping between believing creepy Walter and her husband. I enjoyed the backdrop of the story and the time period. The story was pretty predictable but not boring. I thought there was more religion than romance.

Livvy says

I really enjoyed the second book in These Highland Hills series- in fact I enjoyed this even more than the first! After reading Child of the Mist I desperately wanted to find out more of the handsome, wonderful Iain Campbell! (I am a sucker for a sexy Scotsman) At times I felt the book to be a bit too preachy- But I have come to expect that in Kathleen Morgan's books, after all they do also fall into the category of christian romance. I continue to read her novels because of the rich details, heroes to die for, and for their love stories. If you enjoy historical fiction set in Scotland, you will not be disappointed. I can't wait to read A Fire Within next!! :)

Patricia says

Rating 2.5 stars.

I have mixed feelings about this story.

When Regan had amnesia, she was such a pleasant person and then with the recollection of her past she became someone else. Someone who was difficult to like at times. It was like a Dr. Jekyll and Mr. Hyde transformation.

Then, there was Iain who was walk-on-water perfect, every second. Even fictionally speaking, he was too good to be true. In book 1 it worked because it created a nice contrast to brooding Niall and Iain had some flaws there. In book 2, it was too much.

Book 1 in this series was the first book by this author that I had read. Book 2 had so many similarities to book 1 that I sometimes felt like "been there, done that."

There were also times I grew impatient with descriptions that seemed to go on--particularly at the end of the story.

Also, knowing that Caitlin's story would be book 3, I was verra disappointed that she received barely any mention in book 2.

Lisa Rector says

I always enjoy a good Scottish romance. This novel was full of misunderstandings and backstabbing. After reading the first novel, I was glad to see Iain getting his chance at happiness, and Anne and Niall came back as well. I loved all the descriptions. The only thing was the whole novel was based on mistrust, and sometimes it became a little too much. And I wished getting to the climax didn't drag out. But I thoroughly enjoyed the ending, once I got to it.

Reader Rated 14+ for mild violence.

Julie says

loved it!

I liked the first book of the series but this book was even better. It kept me riveted to the pages with its page-turning action and plot. Loved it..

Jeni Enjaian says

This story is one of my all time favorites. I got sucked in and couldn't put it down. There's just something about it that obscures the pesky annoyances that (unfortunately) this book still has. It's not the most well written book but the writing is above average and the story compelling. I love it and hope to read it many more times.

Ruthie says

If Child of the Mist moved a bit slowly at first, this one takes off and doesn't slow down! Morgan tells another story of love and betrayal, and the book takes some unexpected twists and turns. I absolutely fell in love with Iain as I was reading. This is a very good read as well, and Morgan's highly effective storytelling makes it all the more interesting. Her characterization in this one is also great, making the characters seem to

come alive on the page--a truly difficult thing to achieve. I can't say too much without giving the story away, but this is a great book for anyone interested in historical fiction.

Erika says

I really liked the first book in the series, but wasn't as impressed with this one. I loved the character of Iain, but thought that Regan needed to redeem herself a little bit more after what she did. One thing I will give the author is that she doesn't recycle story lines. All three of the books in the series have completely different characters with completely different motives. One of the redeeming points of this book is the religious feelings of the characters and how frequently they express that. You don't seem many books nowadays that adhere to Christian values so vocally.

Gloria says

This was really more 4.5 stars. I didn't get pulled into the story until near the end.

The story begins two years after the events in Child of the Mist. The story focuses on Regan, a Drummond woman who grew up in the MacLaren clan's home after her parents left her there - and then died while away. Regan married Roderick MacLaren, but after a rough beginning to their wedding night, she fought him, he fell asleep from drinking, and she hid. Roddy tried to find her, but failing to, left on his wedding night to go raiding - from which he returned, shot in the back. Walter MacLaren accused Iain Campbell (from the prior book) of committing the foul cowardly deed and proceeded after a bit to take some men and try to avenge his brother. Regan condoned Walter's action, but then changed her mind and went after him - but she could not find him and the weather grew foul. Thunder startled her horse and she was thrown off and dragged. When she was found, she was near Balloch, Iain's home, where she was taken in and helped to recover physically, but she had lost all her memories and spent quite a few weeks in recovering.

As to the clan dynamics, Regan is the only surviving daughter of her parents, who were chiefs of Clan Drummond. Her uncle William does not want her pressing her claim.

Walter heard about Regan's recovery in the home of the accursed Iain Campbell - and could not fathom it! Was she bewitched? There had been those rumors about Anne Campbell being a witch, so could not Iain have learned her devilry and used sorcery to keep Regan there? Walter being in the village brought all memory back to Regan. Mary, Queen of Scots, was coming to the Campbell stronghold. Regan, after regaining her memory, brought her suspicions to the queen.

Jael says

I loved Wings of Morning from cover to page to chapter through the entire book. Kathleen Morgan's best written novel yet! It's full of mystery, adventure, hope, passion, commitment and God's grace.

The story begins with a lovely and spirited young woman, Regan MacLauren whose husband is suddenly and mysteriously murdered. The plot thickens when lightening scares Regan's horse and she hits her head on a rock during the storm. She awakes in the home of the laird and warrior Iain Campbell, but she can't remember her past life. Iain and his mother open their home to Regan until her memory returns. Challenges arise as their lives and their lands are threatened, then Regan regains her memory but she doesn't want to tell anyone since the friendship she has with Iain might be lost forever.

Amanda says

Iain Campbell is laird of Balloch Castle and Campbell tanist. One day, a villager cones across a maiden that had been thriwn from her horse. They discover her name is Regen but she has no other memory of who she is. Iain and his mother take care of her and soon Iain starts to fall for Regen and she with him. However, soon her memories come back to her. Her husband was killed on her wedding night and it was suspected to be Iain who killed him. Now she is torn. She loves him but also want a justice for her husband.

This was definitely my favorite of the series. The only thing that bothered me was that Regen took so long in trusting Iain. Also she seemed to convict him before he even had a chance to explain himself. Other than that, it was a quick entertaining read.

Tabitha Vohn says

Wings of the Morning picks up where *Child of the Mist* leaves off, & this time follows Ian, the victim of unrequited love, in a chance for the real thing. When a beautiful young woman with amnesia falls into his lap, he doesn't realize she will become the love of his life, OR that he is accused of murdering her husband (will her memory return in regards to this?), OR that he will be willing to embark on a daring scheme of forced marriage & a path fraught with betrayal, sabotage, & redemption, in order to secure his heart's desire.

If the synopsis to this novel sounds fluffy, it's no more so than the writing itself. I really wanted to like this story. Ian was an enigmatic character in "Child", and I was anxious to see him find love. I applaud Morgan for coming up with a new concept for this second in the series; it was original, the relationship dynamic was totally different, & there were plenty of unexpected moments that surprised me.

However.....it took WAY too much exposition to get to the meat of the story. Like, the first 100 pages: ALL exposition. And not of the interesting kind. Also, I kind of hated the weakness, stubbornness, wet-rag-ness of the female lead (she was so annoying I can't even remember her name). I mean, you got a hot guy you love who loves you, yo! I wasn't buying her self-identity issues or her woe-is-me issues. Enough already! It's not endearing. The whole "I'm not worthy of love, so I'm gonna take the guy who treats me like a queen and crap all over him, bc, in case I didn't already mention it a thousand times, I'm not worthy of love. Oh, and I want to revenge my husband who BTW smacked me up & tried to rape me on my wedding night. I care more about revenge for his death than the hot, gentle guy who kisses my undeserving ass."

Now that I say all that, maybe I should have given it two stars. Hmm.....

Oh well! It held my interest (after page 100)! I have definite feelings about it!! Would I read it again? Meh.

Court says

I think this was my favorite of the series. This was really interesting and i could really relate well to the character. And i love Iain!

Wings of Morning is a fantastic book for any time. It is a Christian book, but most importantly a touching story.

Scottish heiress Regan MacLaren was married for a day before she lost her husband. Her husband's brother, Walter, claims that he was shot by Iain Campbell. As a result, Walter plans revenge and the way he will gain it is by shooting Iain. Just after Walter sets out, Regan realizes that she can't let him do such a sinful thing, so she follows him straight into a storm. During the storm, Regan falls off her horse and loses her memory. When she wakes up, Regan finds herself at Iain Campbell's home. Under his mother's careful care, Regan slowly begins to recover, but her memory remains missing. Iain is wary of this girl he found in his fields and he tries to stay away from her, but he finds it difficult. Gradually, they grow closer.

But when Regan regains her memory, she has to decide what to do. She has a duty to her dead husband, but she can't believe that Iain is really capable of murder.

Filled with suspense and mystery, Wings of Morning will keep you reading and wanting more.
