CEOs Don't Cry Joselyn Vaughn

After being passed over for a junior partnership and getting relegated to a branch office in the middle of nowhere, Leslie Knotts vows that she won't let budget cuts, corporate upheaval, or meddlesome ladies distract her from turning the new branch around and showing she has the savvy for the upper echelons of the company.

Organizing and advertising his new construction business has been harder than Mark Shultz expected. Having his Aunt Minnie and her friends from the Ladies' Night Out group throwing women in his path isn't helping matters. When his aunt's outrageous schemes start to spell trouble, Mark teams up with Leslie to outsmart the ladies. Mark introduces Leslie to his friends and she discovers genuine friendships as well as a love with Mark like she has never known. When a competing company offers her the big city partnership she has always dreamed of, Leslie must decide if she will risk her future as a top executive to stay where her heart has found a home.

I quite enjoyed this as a fluffy romantic read. It was nice to see a take charge career woman for once and one that didn't compromise her work goals all in the name of love. She stuck to her guns and worked towards her goals. Things changed along the way but not her core values. I enjoyed not reading about a woman needing a knight in shining armor who solves all the problems.

Linda Rogers says

A big time accountant with excellent reviews is sent to a small office out in the country, which really upsets her. However, she is determined to make the office successful, She is staying a Bed and Breakfast where the owner invites her to her "Ladies Night Out" where everyone is friendly, gossips, does crafts and drinks spiked punch. They are also determined to match every bachelor and unattached woman with hopes it will lead to love. As the story develops, the corporate office decides to close this little office, yet our heroine decides to buy it herself and become her own CEO. In the meantime she falls in love with the man she is matched with he he falls for her as well. All's well that ends well. A sweet little summer read.

Good story

Good story. Funny and interesting characters. Like the library ladies and their schemes. Mark's strong, sexy, smart, fun and funny but he confuses me some towards the end. Leslie is driven by success but her personality and mind open when she lets her guard down. Her guts and mental strength are admirable. Would've liked to see Chuck get what he had coming.

This is a nice break in a world of books filled with violence, sex & more violence. The characters are good together. Minnie is a whoot! I truly enjoyed watching the main characters in this book figure things out. A breath of fresh air.

Received as winner from Goodreads which does not impact my review. Would call this a cozy romance filled with believable situations. Excellent set of characters especially those match making library ladies. Found myself laughing at many of authors situations which reminded me of my own predicaments while dating. This definitely should be on your list for summer reading.

A fabulous "sweet" read. I laughed so much while reading this book. I enjoyed not only Mark and Leslie's story, but the Library Ladies, who were hilarious and reminded me of women I've known over the years. Plenty of heat without sexual content. I look forward to reading more by this author.

Englishrose says

I really enjoyed this book. Mark and Leslie interact so well together it makes it a pleasure to read. Mark is hardworking and sweet, though occasionally a little dense. Leslie is directed and focused on making her career the success she wants it to be. They are so cute together and have some really nice chemistry. Their conflicts are understandable and so frustratingly fun. I couldn't wait for them to get together! Of course there are some awesome side characters again - especially within the Library Ladies. There are good turns to the story and very natural events. This is a great book.

Great story

I loved the story. Funny and relatable. I recommend it if you want to have a good time and relax.

Jennifer says

Really cute book

I really enjoyed the story line and came to love the characters as well. The story was funny and well written and I couldn't put it down.

NinjaK says

Stereotypes. Stereotypes everywhere, and not even the interesting kind.

Sally says

CEOs Don't Cry is a quick, easy to read romance. The characters are likeable and within the first few chapters it is evident where the story is being led. I would recommend this to anyone who wants to read a light hearted romance for a couple of hours.

W.s. Gager says

This romance is a must read. It features Leslie Knotts who is shuttled to a backwater because she was good at her job as an accountant. She decides to make the best of the situation and get back in the game in the big city. Little does she know that the Library Ladies are working on getting her hooked up with Mark who is helping her update the office. Mark and Leslie attempt to outfox the Library Ladies but end up determining what is truly their hearts desires.

Crystal Drakes says

So cute

This was such a cute book, the plot was different. The main characters were intriguing and interesting. It was so frustrating watching them go through the trials and not realize how the / other felt. I enjoyed this book so much.

Paula Bothwell says

This was cute, fun, flirty, pure escapism. It delivered exactly what I thought it would. Joselyn Vaughn seems to write clean romance - this is the first book I have read by her, and for a fun afternoon, I'd read another.
