Fire

Alexis Shore

Fire Alexis Shore

Part one of The Firefighter Trilogy.

Annie is an award-winning photojournalist, recently returned from a war zone. And she's bored. After making a bad decision to spite her best friend, she needs to get away and lose herself in another adventure.

Lieutenant Billy 'Blaze' Conlon is a firefighter harbouring a deep, dark secret. An adrenaline junkie with a hero complex, he's a lothario when it comes to women, and his job is becoming more complicated by an arsonist on the loose in New York.

When the two of them are thrust together for the first time, sparks fly, things get hot, and everything becomes explosive.

Contains mature adult content.

"Alexis Shore can truly write a smoking hot sex scene," The Romance Reviews.

Jacqui Mcspadden says

Awesome story

This story has sex, intrigue, suspense, and I cannot wait to read the second part. I can only imagine how much better it is going to get. Drfinitely recommend it!

Heather says

The writing was hot just disappointed that they didn't get together in this one. Not interested in the rest of the series

Debbie says

3.5 rating.

This was good but it was really too short.

Annie has a bit of an attitude but I really like Blaze. I've always liked hot fireman.

Indie Editor Nancy says

Well written, interesting characters and story. Hot encounters not just in the bedroom. Blaze is quite the man and Annie a strong dominant woman.

Steve says

Ummm... This showed up on my Kindle after I sync'd it with my wife's. Had no idea that it was THAT kind of book. LOL.

However, since I read the whole thing... Very good writing, but the story was too short. The two main characters have issues. Not really a book for us guys.

Wren says

So the main character is a skanky exhibitionist but other than that its actually a pretty good story. The writing

is fairly decent & the action is consistent. Met my expectations for a short story erotica.

Kathryn Packingham says

Hot as flame!

Hot as flame!

talk about a scorcher! wow wow wow! I just love all the complexities of the characters and how troubled they are. great read!!

Kimberlie says

The writing was good, and I'd love to read more about Annie and Blaze. But this wasn't part 1, it was 5 chapters that just stop suddenly. And the first chapter really had nothing to do with the other 4. I get that it's free, but this should have been called a preview, not part 1. Now I'm not interested enough to pay for the rest of the story because I don't know if I get just 5 more chapters or what. Sounds like it would have been quite a sexy story, too.

Lynn Smith says

Short erotic story. Like any short story just as it gets going it is over with. Lots of hot sex scenes.

Katherine says

Enjoyed this PREVIEW. So not a part 1 of a trilogy unless the whole series is nothing more than 15 chapters. Enjoyed beginning to learn the main characters. Greatly disappointed to have it end on a cliff hanger at the end of chapter 5.

If I can find the rest for free, I'd read them but definitely not paying for another cheap stunt like calling this a book and not a preview, especially considering that the next 2 books are each only 35 pages long.

Trish says

2 stars = It was OK

The cliffhanger ending frustrated the hell out of me; the book is really short, so short that I think all the installments should be combined into one book. I felt ripped off.

On top of that, the main characters were not easy to connect with. I couldn't sympathize with the female character at all.

On the plus side though, it is quite well written (apart from being so damn short!) but I'm not sure that is enough for me to see the trilogy through to the end.

Nikki says

read the trilogy and writing this after the fact. i would say if you can read the trilogy for free - great. otherwise, the it's just ok. the 3rd might make you angry (as it did me) because of the lack of ending. the sex is hot at times. the writing and characters could definitely use more development to help with plot. but this is all my humble opinion and others may feel differently.
