Inside the World of Die for Me

Amy Plum

Inside the World of Die for Me Amy Plum

This can't-miss companion to Amy Plum's internationally bestselling series is a compendium of everything you've ever wanted to know about the eternally enchanting world of the revenants. Perfect for fans of Cassandra Clare's *Mortal Instruments* series and *Tales from the Shadowhunter Academy* series, the *Die for Me* series is wholly original and brimming with action and romance.

Set in Paris, *Die for Me* introduced readers to revenants, undead beings who must sacrifice themselves again and again to save the lives of strangers. This companion book is the guide to all things revenant, including loads of never-before-seen material. Fall in love all over again with Kate and Vincent by reading their private letters. Relive pivotal moments from other characters' points of view. Discover deleted scenes from throughout the series. Learn all about the long history of the revenants and how Amy Plum went about creating it. And get a guided tour of the City of Light from the author herself.

Epic Reads Impulse is a digital imprint with new releases each month.

Kollfen says

I've love

This the first time I saw it in a shelf in a Bookstore. I search for it for a long time. Nothing is better than a well-written Story from France.

Jg says

This is definitely a must-read for fellow fans of Amy Plum's excellent Revenants trilogy. It made me remember just how much I adore this series, and I rank it up there with Harry Potter and Twilight - that's saying a LOT!!

MaykenAlanna says

Serious spoiler warning: You should read this book only if you have already read the entire Die For Me series, that is, Die For Me, Until I Die, If I Should Die, Die For Her, Die Once More. Because otherwise, you a) will encounter tons of spoilers and b) will find many things confusing. For those who have read the entire series, this book is gold. There are character descriptions, deleted scenes, a Die For Me Paris tour, a quiz, character and book playlists... Everything you ever wanted to know about Kate and the Revenants.

Jenny says

This book is a brilliant companion to the Die for Me series! It ties up little loose ends that you might have questions for (like can revenants have children? Did Vincent and Kate get married?) and also is amazing if, like me, you want to visit all the places mentioned in the book (I'm going this week and needed the inspiration!). Amy Plum has a very comprehensive guide to all the places, plus the food and drink the revenants have, so if you really want to immerse yourself into the Parisian and Die for Me culture, then this is book for you! I just wish it was printed!

Jennifer says

Ehhhh. I expected more. Still interesting though.

Laura P. says

A must have for every "Die for Me" fan. I especially liked the outtakes and the guide to the places described in the series, complete with pictures. It was very nice and overall interesting.

Kreiden says

“More like a Companion Guide”

If you're a Die For Me series fan, you'll definitely enjoy reading it.

It's more like a companion guide thru all the book series and more of Author's thoughts on how she wrote the books.

Well, I'm my position, I don't like the trilogy books...so I don't appreciate this...for me it was like a summarization and an over researched, Paris-fan lover tour guide to Paris. No offense but I don't like Amy Plum's writing for me she was lacked of imagination. It's all about desperate love like a mid-50's single cat lady type of characters.

In short...well...I think I waste my money buying this in amazon. Since I already read the trilogy and the e-novellas. I wouldn't recommend you to buy this if you don't like the series at all.

Brittany says

You can also see my review on my blog, Maybe Books Will Be Our Always! ;D

The Revenant Series is my favorite book series of all time! So, of course I had to pick this one up! I knew a lot of hard work went into making these books but, I never knew how much thought and time went into making the world of the revenant series. While reading this book, I LOVED learning more in depth about the characters and refreshing my mind about what occurred in the books! I don't usually like these type of books, but I enjoyed every second of it!

This book includes the character details, the timeline of events from the books, the origin of certain terms used in the books (like bardia, numa, Revenant, etc.), locations addressed in the book and where to find them, DELETED SCENES, inside the minds of certain characters (POVs), an interview from Amy Plum, the characters and the books playlists, works of art mentioned in the series, books we have caught Kate reading, movies referenced in the books, different French foods and drinks mentioned, a Die for Me dictionary (French vocabulary mentioned in the books), and and Revenants quiz!!!

I think my favorite part of this book was either the Deleted Scenes, Inside the minds of some characters, or the interview from Amy Plum. I loved getting an insight on what happened to the characters after the books had finished, and getting some answers that I bet everyone who has read the series have been wondering! I especially loved the deleted scenes! I particularly loved the Alternate Kate gets banned Scenario. ;D While I was reading it I was like, oh my gosh Kate!!

If you are a huge fan, like me, of the Revenant series by Amy Plum, you need to read this! If you haven't

read the novella's yet, then I highly recommend that you read those before reading this. Since there are a lot of spoilers for those novellas in here.

FloeticFlo says

This is basically the Revenant SuperFan guide. It's been a minute since I've read the Die for Me series and I didn't get the chance to read all the novellas that came after, so this was a nice way to get refreshed on what happened and then 100% caught up with everything that happened after.

My favorite part was seeing pictures of actual places in Paris (and some other locales) where scenes in the story took place. I almost wish I had this as I was reading, so that I could have looked at the picture and then read the scene. I also really enjoyed hearing about how the idea for revenants came to be and how Amy ultimately got to the events of If I Should Die.

Dana Al-Basha ????? ?????? says

I can't wait to get my hands on this treasure!

Nancy The book junkie says

Definitely a must read for any fan of the series! I loved reading more about the background of each characters and all those outtakes! <3 Her little guide of the places she talks about in the books made me want to visit Paris all over again so i can discover those gems!

Katherine says

I honestly would only recommend this for die hard Die for Me fans.

Get it? Die Hard fans? Die for Me??

:crickets:

God, I'm such a dork....
