Insurgency S.J.A. Turney

A forbidden love. A daring escape. A gathering storm.

Forty years have passed since the Empire was restored. Emperor Kiva the Golden, his wife Jala Parishid, and his brother Marshal Quintillian have together overseen decades of peace and prosperity, a time when the horrors of the civil war could begin to fade from memory.

But nothing can last forever. A forbidden love drives Quintillian from the capital far into the eastern deserts, where he discovers an unprecedented threat to the Empire's very survival. And when Jala is kidnapped by a sinister and ruthless group of warriors, it will take all of Kiva's strength to defend her, his people, and their destiny...

Insurgency is the fourth novel in S.J.A. Turney's Tales of the Empire series, set in a world inspired by Roman history. A sweeping tale of deception, cunning, and military valour, this will appeal to readers of Matthew Harffy, Simon Scarrow, and K.M. Ashman.

Paul Bennett says

The fourth installment of this historical fantasy of a Roman like world finds the Empire flourishing under the guiding hands of the Emperor Kiva and his brother Quintillian who is his principle adviser and military strategist. However, there are others who have designs on this empire and will go to great lengths to see it come under new ownership. Thus, we the readers are treated to a story replete with intricate plots and machinations as the Empire is threatened from numerous enemies, some of whom were thought to be friends and allies. The author has done a superb job in fleshing out this insurgency with some remarkable characters and exciting story lines. The atmosphere is tense, the action is page turning and the world created by the author is recognizable to a student of Roman history yet different enough to make the readers use their imaginations as the action flits back and forth between regions. To summarize (without spoilers), the dude can spin a yarn and I hope he spins more in this highly entertaining series. 5 stars

Drew Mohs says

And another one....

I've read all of the Marcus Muels books and the praetorian books(2 so far in series) have loved just about every one! That being said I was not interested in this series of books until I broke down and purchased The first in a series of 4 (and one novella) and was instantly hooked! Now I'm waiting with bated breath for the next book of any of these series.... Thank you for the pleasure of being able to read your books Mr.Turney

Simon Binning says

This is the fourth in Simon Turney's 'Tales of Empire' series. Set in an imagined world - but clearly owing a lot to the ancient Mediterranean world - the four books are separate stories with different characters, often set far apart in time, but with occasional nods to earlier tales.

This episode has a fairly straightforward plot, but the author has become a seriously good story-teller, so it is very entertaining. For these one-off books, he has adopted a different narrative style to his longer series such as 'Marius Mules'. In those he has the time to slowly develop characters, and include simultaneous time-lines. That is why I am such a fan of book series; in the long term, they can offer so much more. Here, that is pared down; he has to draw characters quickly, and the story is moved forward with only one time-line. However, it still works; there is nothing unnecessary, nothing spare, but it is still a well told, involving story.
