Touch Me Skye Malone

****The three novellas of the New Adult paranormal romance Touch Me, now available in one novel-length collection!****

Demons are real.

And now I'm one of them.

For Caitlin Faire, nothing matters more than escaping her abusive stepmother and having a normal life. But when a fun night out ends with Cait hospitalized, and inexplicably possessing magical powers, finding 'normal' becomes impossible. Accidentally saving a stranger with her new abilities only makes matters worse, because now the Houses—the demonic organizations that run the magical underworld—are hunting her and she doesn't know why.

Amar Okoro accepted long ago that he had no choice but to live a solitary life as a demon. The son of an incubus, he knows true love is a dream, but at least he's escaped the control of the Houses. But when Cait stumbles into his life, she challenges all he believes about demons—and about his heart. An innocent in a world of monsters, Cait will die without his help, but protecting her could jeopardize every trace of freedom he's managed to gain.

With the Houses closing in and her loved ones in danger, Cait must uncover the reason behind her gifts or risk a life chained to a House with no hope of escape. But when dealing with demons, nothing is ever as it seems. Can she trust the sexy demon who just might risk everything to save her, or is following her heart the most dangerous choice of all?

This is a great read. I could not put it down. Plan on reading every book in this series .

Andrea Rangoni says

Nice quick read

I really enjoyed the writing and the story. I'm not usually a fan of incubus stories but this author has done a great job. The combination of mystery and suspense with this urban fantasy is worth the .99 cents it costs.

Frank Bertino says

Fast Action

I liked the book and the unveiling of Cait's nature. She has a way to go to become what she needs to be in keeping her human side. I am looking forward to the next book to resolve these issues.

Jessica says

Loved it

I really liked the characters in this book. They aren't like every other romantic book I have read. Great plot line.ready for the next one!

Lee says

Very good can't wait for next book

Stephanie Jeronimo says

That book sucked

One of the stupidest things I have ever read. I think my 3yr old can !make up a better story.

Amber says

If I could give this book a 100 star rating I would!

I was immediately pulled into a world of the paranormal, succubi, incubi, vampires, werewolves and even some steamy romance too. I could not put this book down. I stayed up all night just to finish it. However once it was finished I longed for the second book. I even wondered what I could read next that might even come close to how much I loved this book.

This book had great world building. I didn't question the main characters motives, or drive once, because I didn't have to, because I knew them. Caite is a ball of fire, but at the same time she just happens to be one of this most loving people ever. I got to understand why she is the way she is, and why she loves her friend so deeply to risk everything that she believes in just to make sure she is safe. This made me love Caite even more than I already did. This book is not just about getting thrown into a paranormal world that she never knew existed, it is also about fighting for a friendship at any expense.

Parce que la fille a 17 ans et qu'elle étudie, je craignais que ce soit un roman plus dédié aux adolescents mais il m'a beaucoup plu.

J'ai tout de suite été emporté par l'histoire.

Au fur et à mesure de la lecture, j'ai découvert, en même temps que Ruby, le monde paranormal qui devient drastiquement le sien.

On se pose beaucoup de questions sur Amar, et la plupart reste encore sans réponse à la fin du livre. C'est ce que j'appelle l'histoire de fond. La vague qui reliera les trois livres. Son passé, bien qu'il le dévoile un peu, reste à découvrir.

Un amour interdit, mais partagé entre Ruby et Amar.

Il y a des vampires et des loups-garous mais ils ne sont que des figurants dans ce livre où une guerre entre Maison de paranormal se prépare.

Il y a de l'action, de l'amour et un certain suspense dans ce roman que j'ai eu beaucoup de plaisir à lire.

I really enjoyed this book. There was a lot of action and it got right to the point. There is a lot of sexual content that I was not expecting, even though there was a warning. If you do not like sex described in every detail, this is not the book for you. If you are fine with that, read on. Like I said, it is a great book that hooked me in with the first words. I am happy that I read it.

Kristy says

This book was fairly well written, but I just struggled to really get into it. I didn't particularly like Cait – she seemed weak and I hate that in a main character – so that didn't help.

I won't bother reading the rest of the series, as at this point I don't really care what happens to Cait.
